

INCIDENT MANAGEMENT SITUATION REPORT
SUNDAY, AUGUST 21, 1994 - 0700 MDT
NATIONAL PREPAREDNESS LEVEL V

Current Situation: Moderate initial attack activity continued; however, active burning conditions were reported on several large fires. The Southern Area Type I Incident Management Team was ordered to transition with the team on the Blackwell Complex. Outstanding overhead requests at NICC exceed 700. Only a small fraction of these can be filled in a timely manner.

The 3-11th Field Artillery Battalion, USA, Ft. Lewis, WA completed training. Deployment will begin this morning to the Little Wolf fire, Flathead NF.

Colonel Anthony Palermo USMC, is the Task Force Commander of the two Marine Battalions assigned to the Tyee fire and the West Koocanusa Complex. Colonel William T. Maddox, USA, is the Task Force Commander for three Battalions and one Aviation Battalion assigned to the Corral Creek and 17 Mile fires and the Idaho City Complex.

Northern Rockies Area Large Fires:

LITTLE WOLF, Flathead NF. A Type II Incident Management Team (Bennett) is committed. All control lines held yesterday. Dozer and handline construction is progressing on both flanks, but heavy fuels lie ahead to the east. Smoke inversions have limited air attack until late afternoon, but have also limited fire activity.

YAAK-RED DRAGON COMPLEX, Kootenai NF. A Type I Incident Management Team (Meuchel) is committed. The 3/82nd Field Artillery Battalion, 1st Cavalry Division (Lt. Col. Marcus Dudley) is assigned. The complex is comprised of 34 active fires including the 17 MILE, ZIMMERMAN, PULPIT, STUDEBAKER, FISHFRY, FOWLER, TURNER and many other smaller fires. Increased temperatures and lower humidities resulted in significant fire activity and increased acreages. Airtanker operations were shut down in the afternoon due to poor visibility at the loading base.

CABINET COMPLEX, Kootenai NF. A Type II Incident Management Team (Groshong) is committed. The complex consists of 11 fires.

KOOCANUSA COMPLEX, Kootenai NF. A Type I Incident Management Team (Lee) is committed. The 1st Battalion, 5th Marine Regiment, (Lt. Col. Dave Bonwit, Commander) is assigned. Progress is being made on all staffed fires, despite long travel times. Major runs occurred on the Fowler fire and dozer line construction was abandoned.

WILDERNESS COMPLEX, Kootenai NF. The complex consists of the WILLIAMS, SCENERY, LEIGH and MCKAY fires. The Scenery fire is threatening structures on the west end of Libby and limited visibility is constraining air support. Coordination and planning for structural protection and evacuation is in progress.

STARVATION CREEK, Glacier NP. A Type II Incident Management Team (Danforth) is committed. The west fireline was tied into the Canadian dozer line. A burnout, with Canadian assistance, of the west and north fireline was planned

for last night. A historical cabin and high value timber are still threatened.

ANN, Bitterroot NF. A Type II Incident Management Team (Spradlin) is committed. Afternoon thunderstorms pushed the fire yesterday. A falling snag injured two crewmembers requiring a medevac; both are stable at this time.

TROUT CREEK COMPLEX, Kootenai NF. A Type II Incident Management Team (Suenram) is committed. The team reconned and gathered intelligence on the Pillick fire and finalized a structure protection plan for residences along Highway 200 and Highway 56.

WOLF MOUNTAIN II COMPLEX, Montana State. A Type II Incident Management Team (Bosworth) is committed. Completion of a handline around a slopover was expected by the end of the shift last night. A medevac was required for a chainsaw injury.

ST. JOE COMPLEX, Idaho Panhandle NF. A Type II Incident Management Team (Hart) is committed. The complex is comprised of 8 contained fires, 2 active holdover fires and 2 new starts. Burnout of the west flank of the 1956 North fire is complete. Tested lines have held and water drops continue to reinforce the line.

BITTER-NEZ, Bitterroot NF. A Type II Incident Management Team (Wetzsteon) is committed. The complex consists of the SADDLE, MAGRUDER, NICK and SAWTOOTH fires. Lack of effective communication from ICP to the fireline is a major problem. The team will assume the Wood Hump fire from the Nez Perce today.

PRIEST LAKE COMPLEX, Idaho Panhandle NF. A Type II Incident Management Team (Kechter) is committed. The fire did not actively spread today but torching and spotting continued within the interior.

POWELL COMPLEX, Clearwater NF. A Type II Incident Management Team is committed. This complex was previously reported as the Selway-Bitterroot Complex. The Powell Ranger District portion of the Selway Bitterroot Wilderness has been closed to the public because of extreme danger from these fires.

FISHER PEAK, Idaho Panhandle NF. The fire is actively burning in heavy alpine fuels on very steep terrain which is only accessible by helicopter. The safety of fire personnel is of primary concern due to the absence of escape routes and safety zones. The current lack of support helicopters delays crew deployment.

Eastern Great Basin Area Large Fires:

STAR GULCH, Boise NF. A Type I Incident Management Team (Richer) is committed. One home has been destroyed. A burnout has prevented the fire to spread towards Idaho City.

CORRAL CREEK, Payette NF. A Type I Incident Management Team (Johnson) is committed. The 14th Engineer Battalion, (Lt. Col. Perrenot, Commander) is committed. Helicopter support is being provided by the 4th Battalion, 227 Aviation Regiment, 1st Cavalry Division, USA (Lt. Col. Myles, Commander). Good progress was made on securing the south and west flanks. The fire has made some advancement into the upper tributaries fo the North Fork of the Payette River drainage. Structure protection continues along the Salmon River, although there's been no major movement in that direction for several days.

BLACKWELL COMPLEX, Payette NF. A Type I Incident Management Team (Birch) is committed. This is a unified command with Idaho State Department of Lands represented by Bill Williams. Mop-up and patrol of previously constructed line continued yesterday.

IDAHO CITY COMPLEX, Boise NF. A Type I Incident Management Team (Eddy) is committed. The 20th Engineer Battalion, 1st Cavalry Division, USA (Lt. Col. Bruce Porter, Commander) is committed. The complex consists of the BANNOCK, BEAR RIVER, RABBIT CREEK and NORTH FORK fires. Smokey conditions prevented helicopter use all day yesterday. The Rabbit Creek fire continued to exhibit extreme fire behavior yesterday.

TIN CUP COMPLEX, Caribou NF. A Type II Incident Management Team (Casey) is committed. The fire did not spread but was active inside the perimeter.

THUNDERBOLT, Boise NF. A Type I Incident Management Team (Denton) is committed. Helicopter support is being provided by the 4th battalion, 227 Aviation Regiment, 1st Cavalry Division, USA (Lt. Col. Myles, Commander). Air operations were hampered by smoke until after 1430. Fire activity moderated yesterday.

PIIONEER CREEK, Challis NF. A Type II Incident Management Team (McAtee) is committed. The fire spread to the north into Rat Creek. A hose lay put into Trail Creek resulted in excellent progress.

Northwest Area Large Fires:

TYEE CREEK, Wenatchee NF. A Type I Incident Management Team (Maupin) is committed with a State Team (Flannigan) under unified command. The 5th Battalion, 11th Marine Regiment (Lt. Col. Rick Lindsey, Commander) is assigned. Three CH-47 helicopters from the A/6-158 Aviation Unit are assigned, two replacement CH-47 helicopters are expected to arrive on 8/23. Yesterdays objectives were to build and improve line on Cougar Peak and to continue burnout operations during the day.

HATCHERY COMPLEX, Wenatchee NF. A Type II Incident Management Team (Furlong) is committed. Two heavy helicopters were instrumental in supporting control efforts in the Cabin Creek area above Tumwater Canyon. Accessible portions of the Rat and Hatchery fires are well into patrol and final mop-up status.

OKANOGAN COMPLEX, Okanogan NF. The complex is comprised of the RAINBOW/BOULDER/BUTTE, POORMAN, BURNT SAW, FALLS CREEK and MISC. ABC fires. The Boulder fire is the last active fire in this complex. Demobilization and transition are continuing.

SNAKE RIVER COMPLEX, Wallowa-Whitman NF. A Type I Incident Management Team (Bailey) is committed. Three CH-47 helicopters from the A/6-158 Aviation Unit are assigned. This complex is comprised of the RAPID RIVER, SADDLE CREEK, HAAS HOLLOW, and SWAMP CREEK fires. Fire activity increased due to winds.

BOUNDARY, Wallowa-Whitman NF. A Type I Incident Management Team (Shaw) is committed. Steep terrain and variable winds have hampered burnout operations. Winds re-kindled the fire on the westside causing spotting.

North Zone - California Large Fires:

COTTONWOOD, Tahoe NF. A Type I Incident Management Team (Dougherty) is committed. Long range spotting and intense burning caused the loss of some constructed fireline. Loyalton and surrounding areas continue to be threatened.

Outlook: RED FLAG WARNINGS and WATCHES have been posted in eastern Washington, eastern Oregon, northeast California, northern Nevada, western Wyoming, Idaho and Montana for increasing winds and low relative humidity. The high pressure that has kept the western U.S. warm and dry will move east. A low off the Pacific Northwest coast will push onshore and slowly move east. This low will generate a surface cold front that will move through the Pacific Northwest with increasing southwest to west winds. The front is expected to be dry, so relative humidities will remain low throughout most of the Great Basin and the Pacific Northwest east of the Cascades. Firelines will be tested today on large fires due to winds generated from the passing cold front. Expect increased fire activity on large fires.
