

INCIDENT MANAGEMENT SITUATION REPORT  
TUESDAY SEPTEMBER 6, 1994 - 0530 MDT  
NATIONAL PREPAREDNESS LEVEL V

Current Situation: Fire activity was low on most of the large fires yesterday. Demobilization and reassignments have increased through NICC. The transition of overhead teams is occurring in the Eastern Great Basin as teams meet the 21 day commitment. Initial Attack activity continued in the western Geographic Areas.

Colonel Chip Leonard, USA, is the Task Force Commander of two Battalions and two Aviation Units assigned to the Corral Creek, Blackwell fires and the Idaho City Complex. Colonel Joseph Leigh, USA, is the Task Force Commander of one Battalion assigned to the Kooacanusa Complex.

Eastern Great Basin Area Large Fires:

An Area Command (Wagenfehr, Area Commander) is in place on the Boise National Forest. The Area Command is responsible for the Idaho City Complex, the Thunderbolt and Star Gulch fires.

CORRAL CREEK, Payette NF. A Type I Incident Management Team (Monahan) and the 14th Engineer Battalion, 555th Engineer Brigade, (Lt. Col. Perrenot, Commander) are assigned. Helicopter support is being provided by the 4th Battalion, 1st Aviation Brigade, (Lt. Col. Brostrom, Commander). Fire activity remained low yesterday and the fire only increased 51 acres. The 14th Engineer Battalion is scheduled for release tomorrow.

CHICKEN COMPLEX, Payette NF. A Type I Incident Management Team (O'Bannon) is assigned. Fire activity increased, especially in drainages and pockets of heavy fuel, where the rain did not affect the fire.

IDAHO CITY COMPLEX, Boise NF. A Type I Incident Management Team (Eddy) is assigned. The 1st Engineer Battalion, 1st Infantry Division, USA (Lt. Col. Bostick, Commander) is assigned. The complex consists of the BANNOCK, BEAR RIVER, RABBIT CREEK and NORTH FORK fires. Structure protection in the Willow Creek, Swanholm Creek, Deer Park, Swanholm Peak and the North Fork Boise River area are still a high concern. Eddy's Team will transition with Maupin's Type I Team tomorrow. The 1st Engineers will relocate to the Corral Creek fire tomorrow.

BLACKWELL COMPLEX, Payette NF. A Type I Incident Management Team (Harbour) is assigned. Helicopter support is being provided by the 4th Battalion, 1st Aviation Brigade (Lt. Col. Brostrom, Commander) and the A/6-158th Aviation Unit, USAR. The fire increased by 85 acres yesterday. The 4th Battalion, 227 Aviation Regiment, 1st Cavalry Division is scheduled for release 9/7. Fire activity was further suppressed in the Victor Creek area utilizing heavy helicopters. The fire had no growth yesterday.

THUNDERBOLT, Boise NF. A Type I Incident Management Team (Denton) is assigned. The 4th Battalion, 1st Aviation Brigade, USA is providing helicopter support. Crews continue to hold, improve and mop-up fireline with the assistance of helicopters. The last remaining line should be completed today, for 90% containment. The remaining 10% will be monitored by aircraft, and suppressed by helicopter to prevent any further spread. Transition to a Type II Incident Management Team is scheduled for today.

CUDDY COMPLEX, Payette NF. A Type I Incident Management Team (Birch) is assigned. This complex consists of the RUSH 1, RUSH 2, CUDDY and GRAVE fires. Crews made significant progress mopping up all of the fires.

LAKE, Targhee NF. A Type II Incident Management Team (Black) is assigned. Heavy and medium helicopters arrived on the fire, increasing the capability to shuttle crews and deliver water drops. Substantial spotting was reported yesterday afternoon.

REILLY CANYON, Salt Lake District, BLM. A Type II Incident Management Team (Fitzgerald) is assigned. No new information was received.

PIONEER COMPLEX, Challis NF. A Type II Incident Management Team (McAtee) is assigned. This complex consists of the PIONEER CREEK and NORTON LAKE fires. Crews made good progress on the Norton Lake fire. Burnout operations continued.

Northern Rockies Area Large Fires:

An Area Command (Kitchens, Area Commander) is in place on the Kootenai National Forest. The Area Command is responsible for the following fires: Yaak-Red Dragon Complex, Cabinet Complex, Libby Complex, Trout Creek Complex, High One, Wolf II, and Koocanusa Complexes.

LIBBY COMPLEX, Kootenai NF. A Type I Incident Management Team (Porter) is assigned. The major fires in the complex are: SCENERY, LEIGH CREEK, PARMENTER, CHINA BASIN, MCKAY MTN, QUARTZ and HANGING FLOWER. Good progress is being made in mop-up and most of the fire area is in patrol status. Plans are to combine the Libby, Cabinet and Trout Creek complexes.

YAAK RED DRAGON COMPLEX, Kootenai NF. Two Type II Incident Management Teams (Bullis and Hancock) are assigned. The major fires in the complex are: THUNDER HILL, 17 MILE, ZIMMERMAN, PULPIT, STUDEBAKER, FISH FRY, FOWLER, GUNSIGHT, BURNT SHEEP, and PINK MTN. The complex now has 8 active fires receiving suppression action. Good progress in suppression and mop-up has been accomplished on all the staffed fires. The rain over the weekend cooled down most of the fires but hot spots still remain, particularly on the Gunsight fire.

CABINET COMPLEX, Kootenai NF. A Type II Incident Management Team (Groshong) is assigned. This complex consists of the GRAUMBAUER, SPRUCE, SURVEY, DRIFT, WILLARD, and WILL DO fires. Fire activity remained low due to recent cool and wet weather, which also facilitated mop-up. This complex will be turned over

to the Libbey Complex today.

POWELL COMPLEX, Clearwater NF. A Type II Incident Management Team (Hodge) is assigned. This complex includes the FREEZEOUT, FERN CREEK, SPONGE, EAST BEAVER, BIG SAND, HIDDEN CREEK, HESLIP RIDGE and GOLD MEADOWS fires. The north and east flanks of the East Beaver fire were being lined yesterday. The other fires are still quiet due to the wet conditions over the weekend.

TROUT CREEK COMPLEX, Kootenai NF. A Type II Incident Management Team (Groshong) is assigned. The major fires in this complex are: PILLICK RIDGE, LOST GIRL, GOAT ROCKS and DEVIL'S DAD. Fire activity remained low and mop-up was facilitated by recent cool, wet weather. This complex will be turned over to the Libbey Complex today.

NORTH FORK COMPLEX, Glacier NP. The major fires in the complex are: STARVATION, HOWLING and ADAIR II. Fire activity on the Howling fire remains the highest. Burning intensities have lessened significantly.

Northwest Area Large Fires:

A Unified Command with Area Commanders: Decker representing Wallowa Co, Woo representing Oregon State and Kurth representing the USFS, is in place on the Wallowa-Whitman NF. The Unified Command is responsible for all fires on the Forest.

TWIN LAKES, Wallowa-Whitman NF. A Type I Incident Management Team (Liebersbach) and a Type II Incident Management Team (Duke) are assigned. The fire has been divided into two zones, the northern portion is being managed by Liebersbach and the southern portion is being managed by Duke. Crews continued to construct and strengthen lines. Six airtankers were used to control slop-overs and reinforce lines. Crews felled snags along Road #66, which posed a threat to vehicles and personnel. The Twin Lakes campground was burned through, but all the campground structures remained intact.

FREEZEOUT, Wallowa-Whitman NF. A Type I Incident Management Team (Bailey) is assigned. The FREEZEOUT and GRANITE fires are being managed together. The non-wilderness portion of the Freezeout fire is contained. Fire behavior on both of the fires was quiet.

Outlook: A strong upper level ridge of high pressure is dominating the weather across the West. Subtropical moisture may cause afternoon thunderstorms extending from southern California to New Mexico, and then northward into southeast Idaho and western Wyoming. Most activity should be over Arizona and Utah. Sunny skies will prevail elsewhere, except the Northwest coast, where clouds will increase in the afternoon. The high pressure will bring warmer temperatures. Winds will generally be light, although portions of central California, southeast Idaho, western Washington and eastern Montana could see winds up to 20 MPH. Fire activity will remain the same; with moderate initial attack in most western states and large fires continuing to burn as drying continues.
