

INCIDENT MANAGEMENT SITUATION REPORT
WEDNESDAY, MAY 22, 1996 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL II

*** SAFETY COMES FIRST ON EVERY FIRE, EVERY TIME ***

CURRENT SITUATION: Large fires in the Rocky Mountain and Southwest Areas continued to report good progress. High to extreme fire indices persist throughout the southwestern United States. Resource mobilization through NICC was minimal.

Rocky Mountain Area Large Fires:

BUFFALO CREEK, Pike/San Isabel National Forest. A Type I Incident Management Team (Birch) is assigned. Fire behavior on the fire was low yesterday with creeping, smouldering and some 1 to 3 foot flame lengths in the heavier fuels. The mosaic burn pattern has left many islands of unburned fuel which flared up during the day. Increase of the acreage is due to remapping.

INCIDENT NAME	UNIT	ST	SIZE	%	EST CTN	TOTAL CTN	CRW PERS	ENG	HELI	STRUC LOST	EST LOSS	\$\$\$ C-T-D
BUFFALO CR.	PSF	CO	11,875	80	5/25	872	26	35	11	12	960K	1.5M

Southwest Area Large Fires:

HORSESHOE, Coconino National Forest. A Type II Incident Management Team (Bedlion) is committed. Mop up continues along all constructed lines in anticipation of high winds. To protect archeological resources a "light hand on the land" suppression strategy is being used.

INCIDENT NAME	UNIT	ST	SIZE	%	EST CTN	TOTAL CTN	CRW PERS	ENG	HELI	STRUC LOST	EST LOSS	\$\$\$ C-T-D
HORSESHOE	COF	AZ	8,100	90	5/23	1,061	38	22	3	0	0	1400K

FNF = Florida NF's

Alaska Area Large Fires:

Alaska has 1 fire in confinement/limited strategy for 14,200 acres.

OUTLOOK: Arizona and New Mexico will have mostly clear skies. The northern portion of the area will have 20 to 30 MPH winds with gusts to 40 MPH. The southern portion will be breezy to locally windy. High temperatures will range from the 60's to 80's in the mountains and northern plateaus and from the 90's to 104 in the southern deserts. Southern Colorado will be partly cloudy with isolated late afternoon, mainly dry thunderstorms. Afternoon winds will be south to west at 15 to 25 MPH. High temperatures will range in the 60's and 70's in the highest elevations to the 80's and 90's in the lower elevations. Southern California will be mostly clear, becoming breezy in the afternoon. High temperatures will range from the 80's in the interior valleys to near 100 in the southern deserts. Central Florida will be mostly cloudy with scattered showers and thundershowers. High temperatures will be in the 80's. Initial attack activity is expected to continue in the southwestern U.S. as hot, dry and windy conditions prevail.
