

INCIDENT MANAGEMENT SITUATION REPORT

THURSDAY, JULY 9, 1998 - 0530 MDT

NATIONAL PREPAREDNESS LEVEL IV

CURRENT SITUATION:

Large fire activity continued in the Southern and Northwest Areas. The National Interagency Coordination Center processed orders for equipment, engines, aircraft and miscellaneous overhead. Very high and extreme fire indices were reported in Florida, Georgia, Texas, New Mexico, Arizona, Colorado, Kansas, Utah, California, Nevada and Washington.

SOUTHERN AREA LARGE FIRES:

FLAGLER/ST. JOHNS COMPLEX, Florida State, Flagler and St. Johns Counties. This complex is under Unified Command with a Type I Incident Management Team (Hutchinson). The complex received scattered precipitation with some areas receiving up to an inch or more.

ORLANDO COMPLEX, Florida State, Brevard, Orange, Osceola and Seminole Counties. A Type I Incident Management Team (Birch) is assigned. Unified Command is in effect with Florida State (Brown). Fifty new starts occurred within the complex, but heavy local precipitation helped limit their spread.

VOLUSIA COMPLEX, Florida State, Volusia County. A Type II Incident Management Team (Kearney) is assigned. Unified Command is in effect with Florida State (Maynard and Mauney). Crews are constructing direct line as locally heavy rain has assisted mop-up efforts.

PERRY COMPLEX, Florida State, Taylor County. A Type II Incident Management Team (Gauger) is assigned. Unified Command is in effect with Florida State. Unburned fuels inside the fireline are creating control problems.

JACKSONVILLE II COMPLEX, Florida State, Nassau, Duval and Clay Counties. A Type I Incident Management Team (Monahan) is assigned. This fire is being managed under Unified Command with Florida State (Caullette). Infrared detected hot-spots outside the fireline which were suppressed by crews and helicopter water drops.

SUWANNEE COMPLEX, Florida State, Columbia, Union, Bradford and Baker Counties. A Type I Incident Management Team (Dague) is assigned. Unified command is in effect with Florida State (Crow). The Oak Head Complex will also be managed by these teams. Three new fires were added to the complex.

WITHLACOOCHEE, Florida State, Hernando, Pasco, Lake Sumter and Citrus Counties. A Type II Incident Management Team (Kennedy) is assigned. Significant rainfall was received on portions of the complex.

OAK HEAD COMPLEX, Osceola National Forest. A Type I Incident Management Team (Dague) is assigned. Unified command is in effect with Florida State (Crow). These fires are 20 miles north of Lake City. Crews continue to mop-up in the Big Gum Swamp Wilderness.

MERRITT ISLAND COMPLEX, Merritt Island NWR. This fire is in Brevard County at the Kennedy Space Center. No new information was received.

HARRELL RANCH, Texas State, Armsrtoug County. This fire started late yesterday and no other information was available.

HORNS CHAPEL, Texas State, Mitchell County. This fire spread quickly in grasses, threatening oil tanks in the vicinity.

OUTLOOK:

A FIRE WEATHER WATCH IS POSTED FOR NORTH AND CENTRAL FLORIDA FOR DRY AND BREEZY CONDITIONS. Florida and southern Georgia will be partly cloudy with scattered thunderstorms. Winds will be from the southwest at 10-20 MPH in north and central Florida. High temperatures will be in the 90's.

Southern Nevada, Utah, Arizona, New Mexico and western Texas will be partly cloudy with scattered thunderstorms. Southeast New Mexico and west Texas will be mostly dry. High temperatures will range from the mid 70's in the mountains to 110 in the valleys and deserts.

Alaska will be mostly cloudy with a chance of showers. Coastal temperatures will be in the 50's with interior highs in the 60's.

Southern Oregon will be partly cloudy with scattered thunderstorms over the mountains. Temperatures will be in the high 90's to 100.
