

INCIDENT MANAGEMENT SITUATION REPORT  
SATURDAY, AUGUST 21, 1999 - 0900 MDT  
NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

Moderate initial attack activity was reported in the Southern Area and the western states. New large fires were reported in the Southern, Eastern Great Basin and Western Great Basin Areas. Good progress was achieved on large fires in the Great Basin Area. The National Interagency Coordination Center mobilized engines, telecommunications equipment, helicopters, a lead plane, crews and miscellaneous overhead. Very high to extreme fire indices were reported in Oregon, California, Montana, Idaho, Utah, Nevada, South Dakota, Wyoming, Arkansas, Oklahoma and Texas.

WESTERN GREAT BASIN LARGE FIRES:

DIDO COMPLEX, Elko Field Office, BLM. A Type II Incident Management Team (Burdick) is assigned. This fire is six miles northwest of Jiggs, NV. Torching and crowning of individual pinyon pine and juniper and extensive spotting have hampered suppression efforts. Current threats are to the Cedar Ridge and Red Springs Wilderness Study areas and to two subdivisions.

MOSES COMPLEX, Battle Mountain Field Office, BLM. A Type II Incident Management Team (Hefner) is assigned. This complex is 50 miles southwest of Battle Mountain, NV. These fires are burning in grass, sagebrush and pinyon-juniper fuels. Suppression operations are being hampered by the inaccessibility of the area. Current threats are to two high value communication sites, livestock forage, wildlife habitat and a wild horse management area.

HORSE CREEK, Elko Field Office, BLM. This fire is 23 miles southeast of Jackpot, NV. The fire is burning in sage, grass and juniper. Suppression plans include using airtankers extensively in extended attack operations.

WELCHES CREEK, Northern Region, Nevada Division of Forestry. This wind driven fire is twenty miles north of Carlin, NV. and is burning in cheat grass and sage. Current threats are to wildlife habitat (critical mule deer winter range), powerlines and grazing lands.

POWELL, Humboldt-Toiyabe NF. This fire is in the Wassuk Range south of Hawthorne, NV. The fire is burning in pinyon pine and juniper in extremely steep and rocky terrain.

MITCHELL CREEK, Nevada Division of Forestry, Northern Region. This fire is 25 miles south of Jiggs, NV. The fire is contained and mop up operations are taking place.

#### EASTERN GREAT BASIN LARGE FIRES:

MEADOW CREEK, Lower Snake River District, BLM. This fire is 35 miles south of Nampa, ID. The fire is in a limited suppression area and is being suppressed because of threats to cattle and structures in the area. Containment is expected today.

SINKS, South Central Utah State. This fire is two miles south of Lynndyl, UT. Extreme fire behavior with multiple wind changes was observed. Control problems include difficult terrain. No new information was received.

SID = Upper Snake River District, BLM.

#### SOUTHERN CALIFORNIA LARGE FIRES:

CARMOKE, Stanislaus National Forest. A Fire Use Management Team (Zimmerman) is assigned. These lightning ignited wildland fires are being managed to accomplish resource objectives. The fires are in the Mokelumne and Carson- Iceberg Wilderness Area. The fires include: Deer (297 acres), Hiram (75 acres), Douglas (1 acres) and Red Can (.25 acres). No other information was reported.

LECONTE, Yosemite National Park. This lightning ignited wildland fire is being managed to accomplish resource objectives. This fire is burning on the north shore of Hetch Hetchy Reservoir. The fire is burning in manzanita and forest litter and is being monitored by aerial observation. This will be the last report unless significant activity occurs.

LOST BEAR, Yosemite National Park. This lightning ignited wildland fire is being managed to accomplish resource objectives. The fire is burning in red fir and lodgepole pine. This will be the last report unless significant activity occurs.

ELEANOR, Yosemite National Park. This lightning ignited wildland fire is being managed to accomplish resource objectives. Holding actions are being evaluated to contain spread on the western flank. This will be the last report unless significant activity occurs.

#### NORTHWEST LARGE FIRES:

STONEHOUSE, Burns District, BLM. This fire is 30 miles northwest of Fields, OR. The fire is in the Stonehouse Wilderness Study Area and is threatening big game winter range, adjacent ranches and riparian areas. Control problems are steep rugged terrain, inaccessibility, brushy fuels and shifting winds.

OUTLOOK:

Monsoonal moisture will continue to flow into the Four Corners area causing scattered thunderstorms across most of New Mexico and Arizona. As the moisture tracks north, scattered thunderstorms will move through Utah, eastern Idaho, Wyoming and Montana.

California, Oregon and Washington will have the coastal low clouds, fog and drizzle with a slight chance of showers and thunderstorms in the northern mountains, otherwise conditions will be mostly sunny. A weak cold front will push through the Pacific Northwest, bringing breezy conditions to the coast range and through Idaho into Montana. High temperatures will change little with 60's to 70's along the coast with 80's to 90's inland and up to 112 for the deserts.

A stationary front will extend from southwest Texas, east along the gulf coast then north to New England, causing scattered thunderstorms again over Virginia and southern Texas. Minimum relative humidities will be 45 percent in Virginia. North of the front in central and northern Texas the minimum relative humidities will be 25 percent with afternoon temperatures reaching 104.
