

**INCIDENT MANAGEMENT SITUATION REPORT
THURSDAY JUNE 12, 2003 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL 2**

CURRENT SITUATION:

Initial attack activity was light nationally with 96 new fires reported. One large fire was contained in the Western Great Basin. Very high to extreme fire indices were reported in Arizona, Colorado, Nevada, New Mexico, Texas and Utah.

SOUTHWEST AREA LARGE FIRES:

THOMAS, Apache-Sitgreaves National Forest. A Type 2 Incident Management Team (Kvale) is assigned. This fire is burning in mixed conifer and aspen forest 16 miles south of Alpine, AZ. Active fire behavior was observed. Crews will continue to improve indirect fireline and conduct burn out operations.

DRY LAKES COMPLEX, Gila National Forest. A Fire Use Management Team (Rath) is assigned. This lightning caused Wildland Fire Use complex, comprised of the Dry, Lake, Sycamore and Moonshine fires, is 27 miles northwest of Silver City, NM. The complex is being managed to accomplish resource objectives. Minimal fire activity was observed in pinyon pine, ponderosa pine and grass. Personnel will continue to monitor the complex and support other incidents on the forest.

MORMON, Coconino National Forest. The fire is burning in pinyon pine 19 miles southeast of Flagstaff, AZ. Extreme fire behavior was observed during periods of high wind. This fire is in confinement status, and will continue to be monitored by aerial reconnaissance.

TEN COW, Gila National Forest. This fire is burning in ponderosa pine, pinyon pine, juniper and grass 32 miles southeast of Reserve, NM. No new information was reported. This will be the last report unless new information is received.

TEN COW	NM	GNF	350	NR	UNK	41	1	2	0	0	6K

NORTHERN CALIFORNIA AREA LARGE FIRES:

LUHI, Hawaii Volcanoes National Park. This fire is on the Island of Hawaii and was started by lava from the Kilauea Volcano. Minimal fire activity was observed in an Ohia rainforest, with smoldering and occasional flare-ups. Volcanic gas conditions over the fire are hampering containment efforts.

LUHI	HI	HVP	4,930	85	UNK	75	3	0	2	0	60K

EASTERN GREAT BASIN LARGE FIRES:

LONESOME BEAVER, Richfield Field Office, Bureau of Land Management. This fire is 18 miles southwest of Hanksville, UT. Active fire behavior was observed in pinyon pine, juniper, ponderosa pine and grass. The fire continues to be managed under a confine/contain strategy. Demobilization of resources will begin today.

OUTLOOK:

Weather Discussion: A westerly flow continues over the West with a few thunderstorms expected over the intermountain area. A storm system is approaching the Northwest coast. Scattered showers and thunderstorms will cover the Eastern states. In Alaska, high pressure centered over the northwest corner is bringing dry weather to the interior.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
EASTERN GREAT BASIN AREA Partly cloudy. Chance of afternoon thunderstorms over northern and central Utah.	75 to 95 in the lower elevations and 55 to 75 in the mountains, except 45 to 55 central Idaho mountains.	4 to 15 % valleys. 15 to 30 % mountains.	West to southwest 10 to 15 mph.
NORTHERN CALIFORNIA Mostly sunny, becoming partly cloudy in the north and over higher terrain in p.m. hours, with a 10-20% chance of mountain thunderstorms along and east of the Sierra-Cascade crest. Low clouds and fog along the coast, well inland during the morning hours.	From upper 50s to near 70, near the coast and 70s to 80s inland.	15-25% east of the Sierra Cascade Crest and 28-43% west, except 55% or higher near the coast.	SW to west increasing to 7-15 mph in the afternoon, with locally higher gusts.
SOUTHERN CALIFORNIA Morning low clouds and fog to the lower coastal slopes with local drizzle, otherwise mostly sunny.	65-80 In the mountains and coastal basins, 80s central valley and upper deserts and 95-105 lower deserts.	20-35% Mountains and inland valleys, 50-70% coastal valleys and lower coastal mountain slopes, and 10-20% deserts.	SW-NW 10-20 mph mountains, 15-25 mph deserts, and 5-15 mph elsewhere.
SOUTHWEST AREA Partly cloudy. Isolated thunderstorms western Texas.	70s and 80s mountains. 80s and 90s remaining lower elevations.	5-15%, except 15-25% west Texas.	5 to 15 mph northern tier of Arizona. 10 to 20 mph elsewhere with gusts to 30 mph southeast New Mexico and southwest Texas.
