

**INCIDENT MANAGEMENT SITUATION REPORT  
THURSDAY, AUGUST 17, 2006 – 0530 MDT  
NATIONAL PREPAREDNESS LEVEL 5**

**CURRENT SITUATION:**

Initial attack activity was moderate nationally with 270 new fires reported. Nine new large fires (\*) were reported, three each in the Eastern Great basin and Western Great basin Areas, and one each in the Northern Rockies, Rocky Mountain and Southern Areas. Nine large fires were contained, two each in the Eastern Great Basin, Northwest and Rocky Mountain Areas, and one each in the Northern California, Rocky Mountain and Southern California Areas. Very high to extreme fire indices were reported in Arizona, Arkansas, California, Idaho, Montana, Nebraska, Nevada, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington and Wyoming.

Two MAFFS C-130 aircraft and support personnel from the 153<sup>rd</sup> Airlift Wing ANG, Cheyenne, Wyoming are deployed to Klamath Falls, Oregon. Maj. Ricky Rau is the Mission Commander. Two other MAFFS C-130 aircraft and support personnel from the 146<sup>th</sup> Airlift Wing ANG, Channel Islands, California are deployed to Boise, Idaho. Lt. Col. Glenn Bourne is the Mission Commander.

The U.S. Army Task Force Blaze, commanded by LTC Ricky Love, is deployed to the Tripod Complex in Washington.

**EASTERN GREAT BASIN AREA INCIDENTS/LARGE FIRES:**

An Area Command Team (Zimmerman) is assigned to manage fires on the Payette National Forest.

**SOUTH FORK COMPLEX**, Payette National Forest. A Type 2 Incident Management Team (Suwyn) is assigned. This Complex, comprised of 25 fires, is 13 miles east of McCall, ID in timber. Structure protection for the town of Yellow Pine and Krassel Work Center is in place. Lick Creek and South Fork Salmon River roads are closed. Moderate fire behavior was observed.

**CRYSTAL**, Idaho Falls District, Bureau of Land Management. This fire is 20 miles northwest of American Falls, ID in grass. Power line structures and historical sites are threatened. Extreme fire behavior with running and fire whirls was observed.

**RED MOUNTAIN**, Boise National Forest. A Type 2 Incident Management Team (Lund) has been ordered. This fire is 15 miles northeast of Lowman, ID in timber. Fisheries and recreation trails are threatened. Torching, short runs and spotting were observed.

**POTATO**, Salmon-Challis National Forest. A Type 1 Incident Management Team (Broyles) is assigned. This fire is nine miles northeast of Stanley, ID in timber. Residences, historical sites, fisheries, power lines, mining resources and recreation sites remain threatened. Accessibility and steep terrain are hampering containment efforts. Single and group tree torching, creeping and smoldering were observed.

BASIN, Idaho Falls District, Bureau of Land Management. This fire is three miles west of Holbrook, ID in grass, brush and timber. Communication structures, historical sites and grazing allotments are threatened. Extreme fire behavior was observed.

EAST HICKMAN, Wasatch Front Area, Utah State Division of Forestry Fire and State Lands. This fire is 12 miles south of Grantsville, UT in timber and brush. Uphill runs and interior torching were observed.

ELBERTA SOUTH, Wasatch Front Area, Utah State Division of Forestry Fire and State Lands. This fire is three miles south of Elberta, UT in grass and timber. Power lines were temporarily shut down. Running, torching and spotting were observed.

ARTESIAN, Twin Falls District, Bureau of Land Management. This fire is 16 miles southeast of Twin Falls, ID in grass, pinyon pine and juniper. Extreme fire behavior with torching, crowning and spotting was observed.

BOUNDARY COMPLEX, Salmon-Challis National Forest. A Type 2 Incident Management Team (Brunner) is assigned. This complex comprised of three fires and four WFU incidents is 14 miles southeast of Landmark, ID in grass, subalpine fir and mixed conifer. Difficult access and steep terrain are hampering containment efforts. Fisheries, cultural resources, campgrounds and a mine are threatened. Upslope runs, group tree torching, crowning, short and long range spotting were observed.

TROUT CREEK, Payette National Forest. A Fire Use Incident Management Team (Hall) is assigned. The Team is also managing the Payette WFU Complex. This fire is 50 miles northeast of McCall, ID in timber and grass. Structure protection is in place. Steep terrain and rolling debris are hampering containment efforts. Moderate fire behavior was reported.

MIDDLE FORK COMPLEX, Salmon-Challis National Forest. A Fire Use Incident Management Team (Svalberg) is assigned. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fires are burning 30 miles west of Challis, ID in timber, grass and dead and down fuels. Inholdings, campgrounds, residences and fisheries are threatened. Structure protection is in place. Active surface fire with isolated torching was observed.

PAYETTE WFU COMPLEX, Payette National Forest. This lightning-caused Wildland Fire Use (WFU) incident, comprised of 12 fires, is being managed to accomplish resource objectives. The fires are burning 20 to 50 miles northeast of McCall, ID in timber. Moderate backing fire with isolated torching was reported.

BOWEN, Idaho Falls District, Bureau of Land Management. This fire is three miles west of Holbrook, ID in grass, brush and timber. The community of Holbrook, historic sites and grazing allotments are threatened. Extreme fire behavior with running and fire whirls was observed.

PILOT, Bear River Area, Utah State Division of Forestry Fire and State Lands. This fire is 30 miles north of Wendover, UT in grass, sage, pinyon pine and Douglas fir. Torching, crowning, running and spotting were observed.

SADDLE, Wasatch Front Area, Utah State Division of Forestry Fire and State Lands. This fire is four miles northwest of Stockton, UT in grass and sagebrush. Moderate fire behavior with isolated torching was observed.

BADGER, Cedar City Field Office, Bureau of Land Management. This fire is 11 miles southwest of Minersville, UT in grass, brush, pinyon pine and juniper. Isolated torching was observed.

### NORTHWEST AREA INCIDENTS/LARGE FIRES:

TRIPOD COMPLEX, Okanogan-Wenatchee National Forest. Two Type 1 Incident Management Teams (Molumby and Lohrey) are assigned. This Complex is seven miles northeast of Winthrop, WA in timber. Numerous residences and other structures remain threatened. Uphill runs and short range spotting were observed. Burn out operations are planned.

LAKE GEORGE, Deschutes National Forest. A Type 1 Incident Management Team (Anderson) is assigned. This fire is 13 miles west of Sisters, OR in timber and dead and down fuels. Communication sites and cultural resource sites remain threatened. Heavy fuel loading and steep terrain are hampering containment efforts. A structure protection plan is in place. Moderate surface fire, torching and spotting up to ½ mile was observed.

MT. HOOD, Mt. Hood National Forest. A Type 2 Incident Management Team (West) is assigned. This Complex, comprised of 13 fires, is six miles east of Government Camp, OR in timber and

heavy downed fuels. State Highway 35 is intermittently open. Campgrounds, trails and other recreation sites remain closed. Steep terrain and heavy fuel loading with dead and down fuels are hampering containment efforts. Active fire behavior with group tree torching was observed. Burn out operations are planned.

BLISTER, Mount Hood National Forest. A Type 2 Incident Management Team (Paul) is assigned. This fire is 25 miles southeast of Mollala, OR in timber. Difficult access, steep terrain, thick undergrowth and rolling material are hampering containment efforts. Torching, creeping and spotting were observed.

FLICK CREEK, North Cascades National Park. A Washington Interagency Type 2 Incident Management Team (Barnett) is assigned. This fire is three miles southeast of Stehekin, WA in ponderosa pine, Douglas fir and grass. The Team is also managing the Tin Pan incident. Structures remain threatened. Smoldering and creeping were observed.

TIN PAN, Okanogan-Wenatchee National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning seven miles west of Lucerne, WA in timber. Hiking trails within the fire area remain closed. Isolated torching and creeping were observed.

HOLE IN THE GROUND COMPLEX, Vale District, Bureau of Land Management. A Type 2 Incident Management Team (Morcom) has been ordered. This complex, consisting of five fires, is 32 miles northwest of Jordan Valley, OR in grass and sagebrush. Summer cabins are threatened. Difficult access is hampering containment efforts. Active fire behavior with running and spotting was reported.

### NORTHERN ROCKIES AREA INCIDENTS/LARGE FIRES:

SAND BASIN, Beaverhead/Deerlodge National Forest. A Type 2 Incident Management Team (Grant) is assigned. This fire is 14 miles west of Phillipsburg, MT in lodgepole pine and sub-alpine fir. The remote location, steep terrain and difficult access are hampering containment efforts. A communication repeater is threatened. Isolated torching and smoldering were observed.

GASH CREEK, Bitterroot National Forest. A Type 2 Incident Management Team (Turman) is assigned. This fire is six miles southwest of Victor, MT in timber. Residences and a watershed are threatened. An evacuation plan has been implemented. Minimal fire behavior with creeping and smoldering was observed.

BASTON-COOK COMPLEX, Nez Perce National Forest. A Type 2 Incident Management Team (Kusicko) is assigned. This Complex is 15 miles southeast of Elk City, ID in timber. Numerous residences and a ranch remain threatened. Structure protection is in place. Smoldering was observed.

LIGHTNING CREEK, Nez Perce National Forest. A Type 2 Incident Management Team (McNitt) is assigned. This fire is 2 miles east of Riggins, ID in grass and timber. Steep terrain is hampering containment efforts. Recreation sites and grazing allotments are threatened. Precipitation minimized fire activity.

RED EAGLE, Glacier National Park. A Type 2 Incident Management Team (Heintz) is assigned. This fire is one mile southwest of St. Mary, MT in timber. The incident received significant rain fall. The National Park Service evacuated a Visitor Center and residential compound due to flash flood watch and stream flow in Divide Creek.

BIG CREEK, Central Land Office, Montana Department of Natural Resources and Conservation. This fire started on private land 29 miles southwest of Livingston, MT in timber, grass, and sagebrush. Creeping, smoldering, and isolated tree torching were reported. This will be the last report unless significant activity occurs.

SAPPINGTON JUNCTION, Central Land Office, Montana Department of Natural Resources & Conservation. This fire is 16 miles southeast of Whitehall, MT in timber, grass and brush. Interior torching was observed.

FORD CREEK, Lewis & Clark National Forest. This fire is 20 miles west of Augusta, MT in timber. Smoldering was observed.

DANNY, Northern Cheyenne Agency, Bureau of Indian Affairs. This fire is five miles southeast of Lame Deer, MT in grass. Creeping and smoldering were observed.

SOUTH PINE, Gallatin National Forest. This fire is 13 miles south of Livingston, MT in timber. No new information was reported.

JENNY CREEK, Flathead National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning 17 miles south of Ovando, MT in timber. Creeping and smoldering with group tree torching was reported. This will be the last narrative report unless significant activity occurs.

SLIDE, Clearwater National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning 33 miles northeast of Pierce, ID in timber. Short runs and isolated torching were reported. This will be the last report unless significant activity occurs.

### WESTERN GREAT BASIN AREA INCIDENTS/LARGE FIRES:

TP, Elko Field Office, Bureau of Land Management. This fire is 23 miles southeast of Jackpot, NV in grass, sage, and juniper. Residences and grazing allotments are threatened. Terrain and accessibility are hampering containment efforts. Erratic winds were reported.

CHARLESTON, Elko Field Office, Bureau of Land Management. This fire is 55 miles north of Elko, NV in sage, grass and juniper. A power line, residences and grazing allotments are threatened. Extreme fire behavior with wind driven runs was reported.

BELL CANYON, Elko Field Office, Bureau of Land Management. This fire is 26 miles southeast of Jackpot, NV in grass, sage and juniper. A historic trail and grazing allotments are threatened. High winds, accessibility and heavy fuel loading are hampering containment efforts.

SUGARLOAF, Elko Field Office, Bureau of Land Management. This fire is 45 miles north of Elko, NV in sage and grass. This incident is comprised of the Sugarloaf 2 and Beaver fires, which burned together. Residences and a power line are threatened. Extreme fire behavior was observed.

RODEAR, Winnemucca Field Office, Bureau of Land Management. This fire is 25 miles east of Paradise, NV in grass and brush. Running, creeping, backing and smoldering were observed.

GOPHER, Elko Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Thomas) is assigned. This fire is eight miles north of Deeth, NV in sage and grass. Ranches, residences, power lines and grazing allotments are threatened. Structure protection is in place. Smoldering fire behavior was observed.

### ROCKY MOUNTAIN AREA INCIDENTS/LARGE FIRES:

JACKSON CANYON, Natrona County. A Type 1 Incident Management Team (Muir) is assigned. This fire is six miles south of Casper, WY in timber. Residences, commercial properties and communication towers are threatened. Structure protection has been established. Casper Mountain Road is closed. Evacuation orders are in effect. Rough terrain is hampering containment efforts. Extreme fire behavior with major runs and group torching was observed.

PURDY, Shoshone National Forest. A Type 2 Incident Management Team (Mullenix) is assigned. The fire is burning on two National Forests, 21 miles west of Dubois, WY in timber and sagebrush. Numerous structures and grazing allotments are threatened. The public closure area has been expanded. Heavy fuel loading is hampering containment efforts. Short runs, group torching and spotting were reported. Burn out operations are planned.

HELLS ACRE COMPLEX South Dakota Wildfire Suppression. A Type 2 Incident Management Team (Lowe) is assigned. This fire is six miles south of Hot Springs, SD in Hardwood timber and grass. Isolated torching and minor upslope runs were observed.

POISON SPIDER, Rawlins Field Office, Bureau of Land Management. This fire is near Muddy Gap, WY in timber and grass. A residence, commercial structures and a powerline are threatened. Bug killed trees are contributing to high rates of spread. Short runs with short range spotting were observed.

## NORTHERN CALIFORNIA AREA INCIDENTS/LARGE FIRES:

ORLEANS COMPLEX, Six Rivers National Forest. A Type 2 Incident Management Team (Sinclair) is assigned. This Complex, comprised of the Somes and Buck fires, is east of Orleans, CA in timber and dead and down fuels. Steep rugged terrain and accessibility are hampering containment efforts. Numerous structures, cultural sites and a watershed are threatened. Highway 96 was temporarily closed. Backing fire, uphill runs, and minimal torching were reported.

BAR COMPLEX, Shasta-Trinity National Forest. A Type 1 Incident Management Team (Dietrich) is assigned. This Complex, comprised of four fires, is northwest of Weaverville, CA in timber and grass. Residences, historic mining sites and utility infrastructure remain threatened. Difficult access continues to hamper containment efforts. Low intensity backing fire was observed.

UNCLES COMPLEX, Klamath National Forest. A Type 2 Incident Management Team (Kaage) is assigned. This Complex, comprised of the Uncles, Rush, and Hancock fires, is 18 miles northeast of Orleans, CA in old growth timber and brush. Steep terrain is hampering containment efforts. Historic structures and cultural resources are threatened. Short runs, backing fire and smoldering were observed.

HAPPY CAMP, Klamath National Forest. A Type 2 Incident Management Team (Garwood) is assigned. This Complex, comprised of 15 fires, is near Happy Camp, CA in grass and timber. Limited access is hampering containment efforts. Recreational trails and cultural and spiritual sites remain threatened. Smoldering fire behavior was reported.

## SOUTHERN AREA INCIDENTS/LARGE FIRES:

JOHNSON MOUNTAIN, Texas Forest Service. A Unified Command between two state Type 2 Incident Management Teams (Hannemann and Floyd) is in place. The Unified Command is also managing the Clayton fire. This Complex is 12 miles northwest of Mineral Wells, TX in timber. Rugged terrain is hampering containment efforts. Minimal fire behavior was reported.

PURGATORY, Texas Forest Service. This fire is seven miles from San Marcos, TX in grass, brush and mesquite. Residences are threatened. Windy conditions and dry fuels are hampering containment efforts. Erratic winds produced extreme fire behavior with short range spotting.

TURKEY, Ouachita National Forest. This fire is seven miles northeast of Glenwood, AR in mixed hardwoods. Minimal fire activity was reported.

JUNIPER, National Forests in Florida. A Florida State Type 2 Incident Management Team (Hill) is assigned. This fire is six miles west of Astor, FL in southern rough and brush. Commercial property is threatened. Pockets of fuel within the interior were actively burning.

CLAYTON, Texas Forest Service. This fire is near Bryson, TX in Brush and grass. No new information was reported. This will be the last report unless new information is received.

KENWORTHY, Osage Agency, Bureau of Indian Affairs. This fire is 40 miles northwest of Tulsa, OK in timber and grass. Minimal fire activity with smoldering and creeping was reported.

BAZAAR, Florida Division of Forestry. This fire is 33 miles east of Gainesville, FL in southern rough. Active burning with spotting up to ½ mile was observed.

## OUTLOOK:

**Fire Weather Watch:** For southwest Utah for strong winds and low relative humidity on Thursday.

**Weather Discussion:** Scattered thunderstorm activity will continue today mainly over Montana, and to a lesser extent, Idaho, Wyoming, and the Dakotas. These thunderstorms will be mostly wet. Windy conditions will persist today over the Great Basin, Wyoming, and the northern Plains. These conditions are in response to a low pressure trough moving across the region. Warmer conditions are expected for the weekend as a high pressure ridge builds in.

| Geographic Area<br>Weather  | High<br>Temperatures  | Minimum Relative<br>Humidity  | Wind  |
|---|---|---|---|
| <p><b>Eastern Great Basin Area</b><br/>Idaho, Bridger-Teton:<br/>Mostly cloudy with scattered thunderstorms over Idaho mountains in the morning. Otherwise partly cloudy with isolated late day thunderstorms over higher terrain area wide.</p> <p>Northern Utah:<br/>Mostly sunny and breezy.</p> <p>Southern Utah, Arizona Strip:<br/>Mostly sunny and windy west. Partly cloudy with isolated afternoon thunderstorms east.</p> | <p>Idaho, Bridger-Teton:<br/>63 to 75 mountains,<br/>75 to 85 valleys.</p> <p>Northern Utah:<br/>70 to 80 mountains,<br/>80 to 90 valleys.</p> <p>Southern Utah, Arizona Strip:<br/>67 to 85 mountains,<br/>85 to 98 valleys,<br/>99 to 108 in the lower valleys.</p> | <p>Idaho, Bridger-Teton:<br/>25 to 45 mountains,<br/>18 to 25 valleys.</p> <p>Northern Utah:<br/>20 to 30 mountains,<br/>15 to 20 valleys.</p> <p>Southern Utah, Arizona Strip:<br/>20 to 35 mountains,<br/>12 to 20 valleys.</p> | <p>Idaho, Bridger-Teton:<br/>Northwest to west 10 to 15 mph Idaho mountains and Lower Snake Plain.<br/>Southwest 10 to 20 mph Upper Snake Plain and western Wyoming.</p> <p>Northern Utah:<br/>South to southwest 10 to 20 mph.</p> <p>Southern Utah, Arizona Strip:<br/>Southwest 15 to 25 mph. and gusty west, 10 to 15 mph east.</p> |
| <p><b>Northwest Area</b><br/>Partly cloudy. Scattered wet thunderstorms east of Cascades.</p>   | <p>Mostly 60s and 70s.<br/>Locally to 80 warmest locations</p>  | <p>West of Cascades:<br/>Generally above 50, except 40 to 50 in interior western Washington.</p> <p>East of Cascades: 25 to 40 except 15 to 25 southeast Oregon.</p>  | <p>Mostly west to north 6 to 12 mph. 8 to 18 mph in southeast Oregon.</p>   |

| <b>Geographic Area<br/>Weather</b>  | <b>High<br/>Temperatures</b>  | <b>Minimum Relative<br/>Humidity</b>  | <b>Wind</b>   |
|---|---|---|---|
| <p><b>Northern Rockies Area</b><br/>Strong upper low over Montana will produce mostly cloudy skies and cool conditions in most locations. Widespread showers and imbedded thunderstorms are expected across much of Montana. The heaviest showers are expected in areas east of the divide. Some severe storms are possible across southeast Montana and southern North Dakota. Wetting rains will spread east across North Dakota later in the day, lasting through the overnight.</p> | <p>West of divide – 66 to 84<br/>East of divide – 70 to 86<br/>North Dakota – 75 to 86</p>  | <p>West of divide - 35 to 45<br/>East of divide - 25 to 60<br/>North Dakota - 35 to 55</p>  | <p>West of Divide – North 5 to 10 mph<br/>East of Divide – Northeast 10 to 20 mph<br/>North Dakota – Northeast 10 to 20 mph</p>                   |

### **SERIOUS INJURY PROCEDURES**

Dealing with serious injuries on the fireline can add even more stress to our hectic work environment. In the event a fireline accident occurs, adherence to the following principles is important to insure an adequate and appropriate response is made.

- Before entering the scene, determine whether it is safe to approach. Look for hazards as well as what may have happened. It may be necessary to move the patient or to make the area safe before doing an assessment.
- Provide first aid and assess the extent of the injuries.
- Make contact with your supervisor. Depending on the complexity of the fire, that could be your crew boss, the Division Supervisor, the IC, or even dispatch. If your fire has a medical plan, follow the plan.
- Provide them with accurate, concise information on the following
  - Number of people injured
  - Type of injuries
  - Severity of injuries (light, moderate, severe, life threatening)
  - Mechanism of injury
  - Vital signs (pulse, respirations, level of consciousness, etc)
- Determine the best method of evacuation. Depending on the severity of injury or availability of resources, this decision may already be made for you.
- Keep the radio frequency clear of non-emergency traffic, provide updates of the patients condition and await instructions.
- If evacuation is by helicopter, it may be necessary to construct a helispot. Document treatment provided in case it is necessary to send the information along with the patient in the aircraft.
- If the patient needs to be carried to a road, insure enough people are available to work in relays.
- Once the patient is clear, take a moment to write down witness statements, clean up notes and timelines, and document any other pertinent information.
