Incident Management Situation Report Friday, May 2, 2025 – 0730 MDT National Preparedness Level 1

National Fire Activity (April 25, 2025 - May 1, 2025):

Fire Activity and Teams Assigned	Totals
Initial attack activity:	Light (885 fires)
New large incidents:	9
Large fires contained:	7
Uncontained large fires:	11
CIMTs committed:	0
Type 1 IMTs committed:	0
NIMOs committed:	0

Nationally, there are zero fires being managed under a strategy other than full suppression. Uncontained large fires include only fires being managed under a full suppression strategy.

Understanding the IMSR

IMSR Map

This report will be posted every Friday at 0730 Mountain Time unless significant activity occurs.

FLS - Florida Forest Service

Eastern Area (PL 2)

Fire Activity and Teams Assigned	Totals
New fires:	397
New large incidents:	2
Uncontained large fires:	5

Thompson Hollow Road, Pennsylvania Division of Forest Fire Protection. Twenty miles southeast of Shippensburg, PA. Timber and hardwood litter. Minimal fire behavior with smoldering, backing and creeping.

Jones Road, New Jersey Forest Fire Service. Six miles southwest of Lacey, NJ. Timber and grass. Minimal fire behavior with smoldering and creeping. Residences threatened.

- * **Hammond Rocks**, Pennsylvania Division of Forest Fire Protection. Nine miles south of Carlisle, PA. Timber and hardwood litter. Minimal fire behavior with smoldering.
- * **Cub Branch**, West Virginia DOF. One mile northeast of Yolyn, WV. Hardwood litter. Minimal fire behavior. Last report unless significant activity occurs.

Packerton, Pennsylvania Division of Forest Fire Protection. Two miles north of Lehighton, PA. Hardwood litter. No new information. Last report unless new information is received.

^{*} **Black Swamp**, National Forests in North Carolina, USFS. Six miles northeast of Maysville, NC. Chaparral and southern rough. Moderate fire behavior with smoldering, single tree torching and creeping. Area, road and trial closures in effect.

Ten Year Average	Quantity
Fires (2015 – 2024 as of today)	15,764
Acres (2015 – 2024 as of today)	939,503

Cumulative acres showing in the Active Incident Resource Summary Table may not be reflected in the YTD statistics due to a lag in units completing YTD adjustments in the SIT/209 Application. Otherwise, changes in agency YTD fires and acres reflect more accurate mapping or reporting adjustments.

Predictive Services Discussion:

A cold front stretching from the Great Lakes to the southern Plains today will slowly move south and east to off the Gulf and East Coasts by early next week. Widespread wetting rain is likely with the front, although breezy southerly winds along the Carolina coast today and tomorrow will create areas of elevated conditions before the front arrives. Rainfall will be more scattered in Florda, with not all areas receiving rain, while the Mid-Atlantic region will likely see widespread rain over 1 inch early next week bringing significant relief.

In the West, a warm and dry day is expected today before an upper-level low moves into California this weekend and into the Greater Four Corners early next week. A period of breezy and dry southerly winds will develop ahead of the low this weekend, with the greatest chance of elevated to critical conditions across southeast Arizona and southwest New Mexico Sunday. Otherwise, scattered to widespread shower and isolated thunderstorms will develop across the Intermountain West this weekend into early next week, with the heaviest rain likely from the Great Basin into the central Rockies and southern and central High Plains. Mild and dry conditions are likely this weekend into mid-next week across the northern Plains and Upper Midwest, but winds are expected to be light overall. Widespread showers are expected across the central and eastern Interior of Alaska today before cooler but drier conditions develop for early next week, with periods of showers are likely to continue near the southern coast. Breezy trade winds are expected across Hawai'i for much of the next week with occasional windward showers.

National Predictive Services Outlook

6 Minutes for Safety:

The 6 Minutes for Safety topic of the day is Vehicle Entrapment.
