In addition to the 27 positions identified on the long team configuration, the NIMO IMTs may have a maximum of seventeen (17) positions to be negotiated and concurred on by the Incident Commander and the Agency Administrator from the requesting unit. As well, they may bring an additional six (6) trainee positions and six (6) S420/520 command and general staff mentorees. These positions are identified by the NIMO IMTs and not by receiving unit. Unless notified otherwise, these trainees will be mobilized for incidents on Federal lands.

### **NIMO Incident Management Team Type of Assignments**

The following criteria will be considered in determining appropriate assignments for NIMO:

- Wildland Fire - NIMO Teams may be ordered for managing wildland fire. This is not limited to Type 1 or 2 wildfires, but may also be appropriate for multiple Type 3 fires for developing personnel capacity as mentors, trainers, and evaluators.
  - Trigger Points
    - Multiple ignitions within a GACC
    - Agency Administrator requesting additional support
    - Fire is Type 2 complexity with potential for Type 1 (NIMO Team is assigned and Type 2 IMT remains integrated and in support and/or obtains Type 1 training and experience)
- Long Duration Incidents - A NIMO Team may be assigned to fires that are expected to last for several weeks as the “second” team in to bring the incident to its conclusion.
  - Trigger Points
    - Incident is projected to last more than 14 days
    - Agency Administrator’s request for additional support
    - Cost containment, WFDSS/WFIP, Complexity Analysis, etc., indicates need for a non-traditional approach in managing the incident.
- Mission Specific Assignments

    - National / Regional Operations Support
    - International Assignments
    - All Hazard
    - Fuels Management

### **NIMO Incident Management Teams Rotation Process**

A. NIMO Teams remain on call for a maximum of 14 days.
