

## INCIDENT MANAGEMENT SITUATION REPORT

SUNDAY, JULY 5, 1998 - 0800 MDT

NATIONAL PREPAREDNESS LEVEL IV

### CURRENT SITUATION:

The Southern Area continues to experience significant fire activity. Large fire activity increased in the Eastern Great Basin. Containment objectives were achieved on large fires in the Southwest, Rocky Mountain and Northwest Areas. Minor initial attack fire activity was reported in most other areas. The National Interagency Coordination Center processed orders for equipment, engines, aircraft, crews and miscellaneous overhead for the Southern, Eastern Great Basin and Alaska Areas. Very high and extreme fire indices were reported in Florida, Georgia, Texas, Oklahoma, New Mexico, Arizona, Colorado, Kansas, Utah, California and Nevada.

### SOUTHERN AREA LARGE FIRES:

**BUNNELL-VOLUSIA COMPLEX**, Florida State, Volusia County. A Type II Incident Management Team (Kearney) is assigned. Unified Command is in effect with Florida State. The Road 3 and Quail West fires gained more than 1,500 acres yesterday. The Farmton fire moved to the north, away from the Kennedy Space Center. The portions of the Lafayette fire within Daytona Beach are contained.

Suppression efforts continue to be hampered by extremely high temperatures and strong, variable winds.

**BUNNELL COMPLEX**, Florida State, Flagler and St. Johns Counties. This complex is under Unified Command with a Type I Incident Management Team (Hutchinson) and a Type II Incident Management Team (Hendricks) assigned. Weather conditions and fire activity have moderated, although some fires are still spreading at a low rate. Structure protection was the main focus yesterday. The arrival of additional resources has allowed firefighters to make progress on line construction. The fires in the complex continue to threaten the communities of Bunnell, Palm Coast and Ormond Beach. The acreage increase is due to more accurate mapping.

**ORLANDO COMPLEX**, Florida State, Brevard, Orange, Osceola and Seminole Counties. A Type I Incident Management Team (Birch) is assigned. The complex consists of 36 fires. The Farmton fire escaped containment lines and is moving to the east threatening structures and commercial businesses near Highway 46. Additional structures are a concern to the south in the vicinity of Interstate 95.

JACKSONVILLE COMPLEX 2, Florida State, Nassau, Duval and Clay Counties. A Type I Incident Management Team (Monahan) is assigned. The Landfill and backfill fires were declared out yesterday. Fires and acres from the previous Jacksonville Complex are now included in this complex.

WACCASASSA COMPLEX, Florida State, Alachua, Putnam and Marion Counties. A Type II Incident Management Team (Hebb) is assigned. Fire activity has been relatively calm. Putnam County received up to an inch of precipitation.

SUWANNEE COMPLEX, Florida State, Columbia, Union, Bradford and Baker Counties. A Type I Incident Management Team (Wands) is assigned. Unified Command is in effect with Florida State. Aggressive mop-up has proven to be successful in preventing escaped fires. Dry fuels and high temperatures continue to cause containment problems.

WITHLACOOCHEE, Florida State, Hernando, Pasco, Lake Sumter and Citrus Counties. A Type II Incident Management Team (Voltolina) is assigned. A one-mile hose lay was completed on the Maggie Jones fire. The complex continues to provide initial attack assistance to the Forest. Increased acreage is due to better mapping.

OAK HEAD COMPLEX, Osceola National Forest. A Type I Incident Management Team (Greenhoe) is assigned. These fires are 20 miles north of Lake City. Crews continue to mop-up fires in the Big Gum Swamp Wilderness.

MERRITT ISLAND COMPLEX, Merritt Island NWR. This fire is in Brevard County at the Kennedy Space Center. Dry conditions and shifting winds are hampering containment efforts. Mop-up continues on several fires in the complex. Endangered species, timber, NASA and private structures are threatened.

LAKE WOODRUFF, Fish and Wildlife Service. Fire lines are holding and containment is expected today.

EASTERN GREAT BASIN LARGE FIRES:

MINERSVILLE, Cedar City District, BLM. This fire is near Adamsville. Winds pushed the fire through flashy fuels toward Adamsville. The Beaver County Sheriff's Office evacuated people from the west side of Minersville Reservoir and Adamsville. Engine crews used airtanker drops to help with line construction on the west side of the city. Helicopter bucket drops were able halt spot fires. Firefighters held containment lines last night.

FAUST, Salt Lake District, BLM. This fire is 18 miles west of Provo. Erratic winds continued to hamper suppression efforts. Airtanker drops assisted ground crews with line construction.

SIMPSON, Salt Lake District, BLM. This fire is 58 miles southwest of Salt Lake City. The fire exhibited a high rate of spread due to strong, unpredictable winds. The Simpson Spring Campground, rangeland and a monument are threatened.

## OUTLOOK:

Florida and Georgia will be partly cloudy and hot with scattered thunderstorms. Temperatures will be in the 90's.

A FIRE WEATHER WATCH IS POSTED IN NORTHWEST ARIZONA FOR WINDY AND DRY WEATHER. Southwest winds of 15-30 MPH are forecast across southern Nevada, Utah and Arizona. Scattered to numerous thunderstorms are possible in New Mexico. The mountains of Arizona and western Texas will also have a few thunderstorms. The rest of the southwest will be dry. High temperatures will range from the 80's in the mountains to 110 in the valleys and deserts.

Colorado will be mostly sunny in the northwest. Partly cloudy skies and scattered wet afternoon thunderstorms are possible in southeast Colorado. Breezy southwest winds are forecast throughout the state. Temperatures will be in the 70's and 80's in the mountains and 90 to 100 elsewhere.

Eastern Washington will be mostly sunny with isolated thunderstorms. High temperatures will range from 65 in the mountains to 85 in the valleys.
