

INCIDENT MANAGEMENT SITUATION REPORT
TUESDAY, OCTOBER 19, 1999 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

Minimal initial attack activity was reported in all Geographic Areas. Containment objectives of large fires were met in the Eastern Great Basin, Southwest and California Areas. The National Interagency Coordination Center mobilized infrared aircraft, engines, communication equipment, a shower unit, crews, and miscellaneous overhead. Very high to extreme fire indices were reported in Oregon, California, Idaho, Utah and Arizona.

NORTHERN CALIFORNIA LARGE FIRES:

PENDOLA, Tahoe National Forest. A Unified Command with a Type I Incident Management Team (Studebaker) and a California Department of Forestry Team (Clarabut) is in place. This fire is near Bullards Bar Reservoir west of Camptonville, CA and is burning in mixed conifer and manzanita. The direction of fire spread has changed and is burning towards the north.

SIXTEEN, Sonoma-Lake-Napa Ranger Unit, California Department of Forestry. A State Incident Management Team (Stovall) is assigned. This fire is on the west side of Rumsey Canyon. Lighter winds, higher relative humidity and lower temperatures have aided suppression efforts.

JONES, Shasta-Trinity Ranger Unit, California Department of Forestry. A State Incident Management Team (Tarp) is assigned. This fire is two miles east of Redding, CA and is burning in grass and scrub oak. Containment was expected last night.

BIG BAR COMPLEX, Shasta-Trinity National Forest. An Area Command Team (Edrington) is assigned. A Unified Command with a Type I Incident Management Team (Giachino) and the Hoopa Tribe is in place. The complex is 28 miles northwest of Weaverville, CA. The complex consists of the Megram and Onion fires. Extremely dry fuel conditions and inaccessible terrain combined with a heavy smoke inversion hampered fireline construction. Dozer fireline continues to be constructed on Long Ridge east of the Megram Fire.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTAL PERS	CRW	ENG	HELI	STRC LOSS	EST LOSS	\$\$\$ C-T-D

SOUTHERN CALIFORNIA LARGE FIRES:

KIRK COMPLEX, Los Padres National Forest. A Type II Incident Management

Team (Roach) is assigned to the north Kirk Complex, which includes the Tassajara, Five and Mountain fires. A Type II Incident Management Team (Vittum) is assigned to the south Kirk Complex, which includes the Hare and Kirk fires. The weather forecast calls for more hot and dry conditions.

JEWELL, San Diego Ranger Unit, California Division of Forestry. This fire is near Campo, CA. A California Division of Forestry engine was burned over during initial attack. Two firefighters were sent to the hospital for evaluation and two firefighters were treated and released at the scene. None of the injuries appear to be life threatening. No other information on the fire was received.

Las Vegas District, New Mexico State.

OUTLOOK:

*** A RED FLAG WARNING IS POSTED FOR THE HIGHER ELEVATIONS IN LAKE AND NAPA COUNTIES IN NORTHERN CALIFORNIA DUE TO LOCALLY GUSTY WINDS AND VERY

DRY CONDITIONS. ***

A thermal surface pressure trough expands north covering California, Oregon and Washington. Surface high pressure building over the Intermountain West combining with the thermal trough will bring an increase in easterly winds. A very dry ridge aloft over the west continues over Oregon, Washington, Idaho, Nevada and over inland areas of California. An easterly flow will bring clouds and isolated snow showers to eastern Utah. There will be patchy morning fog in the coastal areas of the west. High temperatures in Washington, Idaho, northern Nevada and northeast Utah will be in the 50's and 60's. Highs in Oregon, central Nevada and southwest Utah will be in the 60's and 70's. High temperatures will be in the 50's and 60's in northern California and 70's along the southern California coast, with 70's to the mid 90's over the interior valleys and deserts of California and southern Nevada.
