

INCIDENT MANAGEMENT SITUATION REPORT
 SUNDAY, JUNE 11, 2000 - 0900 MDT
 NATIONAL PREPAREDNESS LEVEL III

CURRENT SITUATION:

New large fires were reported in the Eastern Great Basin and Southwest Areas. Initial attack activity was light throughout the country. Containment goals were reached on fires in the Western Great Basin, Northern Rockies, Eastern Great Basin, and Southwest Areas. The National Interagency Coordination Center mobilized helicopters, infrared aircraft, engines, meteorological equipment, crews, and miscellaneous overhead. Very high to extreme fire indices were reported in New Mexico, Arizona, Nevada, Utah, Colorado, Oklahoma, Texas, Kansas, Maryland, Florida, and Georgia.

SOUTHWEST AREA LARGE FIRES:

CERRO GRANDE, Bandelier National Park. An Area Command Team (Mann) and two Type II Incident Management Teams (Carr and Smith) are assigned. The fire is near Los Alamos, NM. The fire area received some rain. Crews continue to implement rehabilitation projects such as seeding, tree falling, mulch spreading, and hand raking at the direction of the Burned Area Emergency Rehabilitation Team.

VIVEASH, Santa Fe National Forest. A Type II Incident Management Team (Bedlion) is assigned. This fire is burning in ponderosa pine and mixed conifer five miles northwest of Pecos, NM. Crews are mopping up hot spots and seeding the firelines. The threat of damage to structures and riparian areas from watershed runoff has decreased with the drying trend.

OUTLET, Grand Canyon National Park. A Type II Incident Management Team (McElwain) is assigned. The fire is 25 miles south of Jacob Lake, AZ. Despite gusty winds, fire activity has been moderate and all control lines have held. Crews are mopping up and preparing for a burnout operation.

CHANCE, Socorro District BLM. A Type II Incident Management Team (Bustamante) is assigned. This lightning caused fire is burning in grass, oak, pinyon-juniper and ponderosa pine fuels 30 miles south of Datil, NM. Crews are making good progress with line construction. Burning in the interior of the fire has moderated.

SOUTHERN AREA LARGE FIRES:

A Type II Incident Management Team (Kearney) is staged in Gainesville, FL.

BEE, Florida State Division of Forestry. This fire is in Glades County, northeast of Fort Myers, FL. No new information was reported.

SHIP COMMAND, Florida State Division of Forestry. This fire, which was caused by lightning, is in Hillsborough County. No new information was reported.

BUNDY LAKE, Florida State Division of Forestry. The fire is burning in heavy fuels 15 miles northeast of Gainesville, FL. No new information was reported.

LOUISE, Florida State Division of Forestry. The fire is located near Gainesville, FL. No new information was reported.

CYPRESS #2, Florida State Division of Forestry. The fire is near Golden Gate, ten miles east of Naples, FL. No new information was reported.

DC COMMAND, Florida State Division of Forestry. The fire is located near Homestead, FL. No new information was reported.

JACKSON HOLE, Florida State Division of Forestry. The fire is burning in hardwood fuels near Cross City, FL. No new information was reported.

COUNTY LINE, Florida State Division of Forestry. This fire is near Okeechobee, FL. No new information was reported.

BRIGHT HOUR, Florida State Division of Forestry. This fire is in Desoto County. No new information was reported.

MICROWAVE, Florida State Division of Forestry. This fire is located in Osceola County, FL. No new information was reported.

EASTERN GREAT BASIN AREA LARGE FIRES:

BROWN SPRINGS, Salt Lake Field Office, BLM. The fire is burning in grass and sagebrush southeast of Tooele, UT on the west side of the Cedar Mountains. The fire has moved onto the Dugway Proving Grounds. Current threats include wild horse and burro habitat.

WING, Uinta National Forest. This human-caused fire started near the city of Springville, UT and spread onto forest land. The fire burned around numerous structures but none have been lost at this time.

OUTLOOK:

*** A FIRE WEATHER WATCH IS POSTED IN THE NORTHERN PART OF FLORIDA FOR LOW RELATIVE HUMIDITIES ***

Florida will be partly cloudy in the north and mostly cloudy with showers and thunderstorms likely in the south. High temperatures will be in the mid 80's to the lower 90's. Winds will be east at 10 mph. Minimum relative humidities will be 30 to 35 percent in the north and up to 65 percent in south Florida.

Arizona, New Mexico, southern Utah, southern Colorado, and southern Nevada will be warmer and drier as high pressure aloft builds over the area. Skies will be mostly sunny, except for some clouds and a few afternoon thunderstorms over the mountains of New Mexico. Temperatures will range from the 70's in the northern mountains to near 105 in the deserts. Winds will be south to southwest at 10 to 20 mph. Minimum relative humidities will be 10 to 20 percent.

Montana and Wyoming will be partly cloudy. Western Montana will have a few showers, while southeast Montana and northeast Wyoming have a chance for isolated afternoon thunderstorms. High temperatures will be in the 60's in the western mountains and in the 80's in the eastern part of both states. Winds will be southwest at 10 to 25 mph. Minimum relative humidities will be 20 to 35 percent.
