

INCIDENT MANAGEMENT SITUATION REPORT
 FRIDAY, JUNE 16, 2000 - 0530 MDT
 NATIONAL PREPAREDNESS LEVEL III

CURRENT SITUATION:

New large fires were reported in the Eastern Great Basin and Southern Areas. Initial attack activity was light nationwide. Improving weather conditions today will assist suppression efforts on the large fires in Colorado and New Mexico. The National Interagency Coordination Center mobilized helicopters, airtankers, air attack planes, infrared aircraft, engines, radio equipment, meteorological equipment, crews, and miscellaneous overhead. Very high to extreme fire indices were reported in Colorado, New Mexico, Arizona, Utah, California, Oregon, Nevada, Oklahoma, Texas, Kansas, Minnesota, Florida, Georgia, and Mississippi.

ROCKY MOUNTAIN AREA LARGE FIRES:

An Area Command Team (Meuchel) is assigned to manage the large fires in Colorado.

HIGH MEADOW, Colorado State Forest Service, Pueblo Dispatch Center Counties. A Type I Incident Management Team (Hart) is assigned. The fire is 35 miles southwest of Denver, near Pine, CO. Gusty winds on the fire have produced significant fire activity. Observed fire behavior includes torching, crowning and spotting up to 1/2 mile on the southeast portion of the perimeter. Because of heavy smoke, crews have been unable to access many areas of the fire to assess further structure loss.

BOBCAT, Arapaho-Roosevelt National Forest. A Type I Incident Management Team (Carvalho) is assigned. This fire is burning in grass, brush and timber 12 miles west of Loveland, CO. High winds pushed the fire across firelines on the north side. Torching and crowning fire behavior was observed. Firelines are holding on the south side of the fire. Mandatory evacuations have been ordered for residents in the town of Masonville.

BOBCAT	CO	ARF	8100	15	UNK	816	32	32	4	15	NR	1.0M

SOUTHWEST AREA LARGE FIRES:

CERRO GRANDE, Bandelier National Park. An Area Command Team (Mann) and two Type II Incident Management Teams (Furlong and Ostman) are assigned. An Area Command Team (Edrington) is transitioning with Mann's team. The fire is near Los Alamos, NM. Crews continue to implement rehabilitation projects with good progress being made. Some crews are being reassigned or demobilized.

VIVEASH, Santa Fe National Forest. A Type II Incident Management Team (Rios) is assigned. This fire is burning in ponderosa pine and mixed conifer five miles northwest of Pecos, NM. Fire activity has been minimal. Crews are improving dozer lines, seeding firelines and falling hazardous trees.

SALIZ, Gila National Forest. A Type I Incident Management Team (Bateman) is assigned. This lightning-caused fire is 15 miles southwest of Reserve, NM. Crews are making progress on the east side of Highway 180 and the road is still closed. There has been significant fire spread south along a main power line and west into the Blue Wilderness. Intermittent crowning and ten foot flame lengths have been observed. Structures to the north of the fire are threatened.

LA CUEVA, Las Vegas District, New Mexico State Forestry. The fire is one and a half miles north of Mora, NM. The fire has remained active. One small slopover occurred on the southwest corner, but crews were able to control it. Ten structures are threatened.

POT MOUNTAIN, Taos Field Office, BLM. This fire is burning in pinyon-juniper and sagebrush 30 miles northwest of Taos. High winds challenged containment efforts yesterday. Several spots were suppressed outside the fireline. A powerline, archeological sites and wildlife habitat are threatened.

OUTLET, Grand Canyon National Park. A Type II Incident Management Team (McElwain) is assigned. The fire is 25 miles south of Jacob Lake, AZ. Fire activity has remained low. Crews continue to improve firelines and rehabilitate the fire area.

NORTHERN CALIFORNIA AREA LARGE FIRES:

BERRYESSA, Lake-Napa Unit, California Department of Forestry. A State Type I Incident Management Team (Holmes) is assigned. The fire is burning in steep, rugged terrain 36 miles west of Sacramento, CA. Low humidities and winds gusting to 30 mph are challenging containment efforts. Two summer homes and six outbuildings have been destroyed.

 SCU = Santa Clara Ranger Unit, CDF

SOUTHERN AREA LARGE FIRES:

CAMPGROUND, Florida State Division of Forestry. This lightning-caused fire is near Lakeland, FL. Approximately 75 hunting camps were destroyed. High winds and low humidities are causing challenges to containment.

LOUISE, Florida State Division of Forestry. This is a complex of four fires which are burning near Gainesville, FL. Mop-up operations are ongoing. Some resources are being reassigned.

OUTLOOK:

*** A RED FLAG WARNING IS POSTED FOR CALIFORNIA'S SACRAMENTO VALLEY AND SURROUNDING FOOTHILLS BELOW 2000 FEET ELEVATION FOR STRONG WINDS, NEAR

RECORD HIGH TEMPERATURES AND LOW HUMIDITIES ***

California will be sunny and hot. High temperatures will be in the 70's and 80's along the coast, in the 90's and 100's inland and up to 110 in the deserts. Winds will be northwest to northeast at 15 to 25 mph with gusts to 35 mph in the northern part of the state. Southern California winds will be southwest to northwest at 10 to 20 mph. Relative humidities will range from 5 to 15 percent in the deserts and inland areas and near 50 percent on the coast.

Colorado, Utah, New Mexico, Arizona, and Utah will be breezy and cooler. Colorado and northeastern New Mexico will have a chance of showers or thunderstorms. High temperatures will be in the 60's and 70's in the mountains and up to 115 in desert areas. West of the Rocky Mountains, winds will be southwest to northwest at 15 to 25 mph. On the east side of the Rockies, winds will be east to south at 15 to 25 mph. Minimum relative humidities will be 5 to 15 percent in desert areas and 15 to 25 percent at higher elevations.

Florida will be partly cloudy with a chance of afternoon showers and thunderstorms, mainly in the panhandle. High temperatures will be in the mid 80's to the lower 90's. Winds will be southeast to south at 10 to 15 mph. Minimum relative humidities will be 40 to 50 percent in the north, and 55 to 65 percent in south Florida.
