

INCIDENT MANAGEMENT SITUATION REPORT
 FRIDAY, JUNE 30, 2000 - 0530 MDT
 NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

New large fires were reported in the Northern Rockies, Western Great Basin and Southern California Areas. Diminishing wind in the Northwest and occasional thundershower activity in the Great Basin and Alaska aided suppression efforts. Very high and extreme fire danger indices were reported in Oregon, Alaska, California, Idaho, Utah, Nevada, Arizona, Washington, Wyoming, Colorado, and Mississippi.

NORTHWEST AREA LARGE FIRES:

TWO FORK, Saddle Mountain NWR. A Type I Incident Management Team (Waterbury) and a Type II Incident Management Team (Ariss) are assigned. This fire is northwest of Richland, WA and was caused by a motor vehicle accident. Good progress was made today despite high fire danger indices and poor access. Structure protection in the urban interface remains a priority mission and the fire remains active along the northeast flank.

LUG NUT, Lakeview District BLM. A Type II Incident Management Team (McElwain) has been ordered. This lightning-caused fire is 22 miles northeast of Fort Rock, OR. The fire is burning in the Squaw Ridge Lava Flow and Wilderness Study Area and was active around most of the perimeter.

LUG NUT	OR	LAD	700	0	UNK	22	1	4	1	0	NR	NR

WESTERN GREAT BASIN AREA LARGE FIRES:

RENO COMPLEX, Carson City Field Office, BLM. This fire is approximately 10 miles north of Reno NV. A Type I Incident Management Team (Carvalho) is assigned. It was reported the fire received heavy rain from thunderstorms in the area.

RAMSEY, Carson City Field Office, BLM. This fire is burning near Fernley, NV in grass, sagebrush, piñon pine and juniper fuels. The fire was burning at a rapid rate of spread and suppression efforts were hampered by a lack of resources and rugged terrain.

TURTLE, Carson City Field Office, BLM. This fire is burning near Doyle, NV. The fire exhibited active fire behavior and is burning in piñon pine, juniper and sagebrush fuels.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTAL PERS	CRW	ENG	HELI	STRC LOSS	EST LOSS	\$\$\$ C-T-D

TURTLE	NV	CCD	1000	20	7/1	68	6	2	1	0	NR	NR

ALASKA AREA LARGE FIRES:

CLEAR, Fairbanks Area, Alaska State Division of Forestry. A Type II Incident Management Team (McKnight) is assigned. This fire is burning in black spruce and mixed hardwoods 20 miles southwest of Nenana. Cooler temperatures and higher humidities assisted the crews and dozers in making good progress in securing the fire's perimeter. Some hot spots near the fire's edge and windy conditions continue to pose some control problems.

NATLARATLEN RIVER, Galena Zone BLM. This fire is 20 miles north of Galena burning in tundra and spruce. Crews are making excellent progress on both flanks of the fire. The plan for today is to continue hotspotting and mopping up along the fires edge.

TOLOVANA DOME, Tanana Zone BLM. This fire, 60 miles northwest of Fairbanks, is burning in black spruce and hardwoods. The fire is not contained, however; crews were aided by rain. No significant acreage increase reported.

BEARPAW MOUNTAIN, Tanana Zone BLM. The fire is burning in black spruce 100 miles southwest of Fairbanks. Fire behavior has moderated due to lower temperatures and some intermittent rain showers. Cabin site protection is completed. Acreage increase is due to improved mapping.

ZITZIANA, Tanana Zone BLM. This fire, 85 miles west of Fairbanks, was lightning-caused on 6/13. Cabin protection and site assessments are continuing.

OUTLOOK:

*** A FIRE WEATHER WATCH IS POSTED FOR THE SOUTHERN HIGHLANDS OF SOUTHEAST IDAHO AND NORTHEAST NEVADA FOR DRY LIGHTNING ***

The western United States will see scattered thunderstorms from the Sierras to the Southern California mountains eastward through the southern Great Basin and the Southwest. Dry thunderstorms are forecast for the northern fringe of this monsoonal moisture in northeast Nevada and southern Idaho. Isolated thunderstorms are also forecast for the Northern Rockies. Oregon and Washington will remain dry and temperatures will be slightly cooler. The Cascades will have breezy conditions with west winds of 15 to 30 mph.

The interior of Alaska will be partly cloudy with a few showers or thunderstorms. High temperatures will be from 62 to 75 degrees and minimum relative humidities will be from 30 to 40 percent.
