

INCIDENT MANAGEMENT SITUATION REPORT
SUNDAY, SEPTEMBER 3, 2000 - 0700 MDT
NATIONAL PREPAREDNESS LEVEL V

CURRENT SITUATION:

A total of eighteen new large fires were reported, sixteen in the Southern Area and two in Northern Rockies. Crews reached containment goals on five large fires in the Northwest, Northern Rockies and Eastern Great Basin. Initial attack activity was light in most of the nation except moderate Northern Rockies and heavy in the Southern Area. A Pacific cold front will push across the Northern Rockies bringing cooler temperatures and snow showers in the higher elevations. The Southern Area will remain under a high pressure ridge with very warm temperatures and low relative humidity. Very high to extreme fire indices have been reported in areas of the western states, North Dakota, Kansas, Arkansas, Oklahoma, Mississippi and Texas.

NORTHERN ROCKIES AREA LARGE FIRES:

An Area Command Team (Edrington) is assigned to manage the large fires in the Hamilton area. An Area Command Team (Mann) is assigned to manage the large fires in southwest Montana. An Area Command Team (Meuchel) is assigned to manage the large fires in central Montana. An Area Command Team (Gale) is assigned to manage the large fires in northwest Montana. Priorities are being established by the Northern Rockies Multi-Agency Coordinating Group based on information submitted via Wildfire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

WILLIE, Custer National Forest. A Type I Incident Management Team (Frye) is assigned. This fire is five miles southwest of Red Lodge, MT. Highway 212 is still open to piloted traffic. Substantial progress has been made on all divisions.

VALLEY COMPLEX, Bitterroot National Forest. A Type I Incident Management Team (Stutler) is assigned. The Army's 3rd Battalion 327th Infantry from Ft. Campbell, KY, commanded by LTC Lehr, is assigned. These fires are seven miles south of Darby, MT. The complex consists of the Bear, Taylor, Taylor Spot, Hilltop, Razor, Fat and Mink fires. Fire activity included smoldering, creeping and occasional torching.

SKALKAHO COMPLEX, Bitterroot National Forest. A Type I Incident Management Team (Rutherford) is assigned. This group of fires is ten miles southeast of Hamilton, MT. Included in the complex are the Bear and Coyote fire. Due to favorable weather conditions good progress was made on fireline construction and direct attack.

BLODGETT TRAILHEAD, Bitterroot National Forest. A Type II Incident Management Team (Hendricks) is assigned. This fire is three miles northwest of Hamilton, MT. Cloudy conditions and occasional showers caused the fire activity to remain light. This fire will be managed under the Skalkaho Complex.

WILDERNESS COMPLEX, Bitterroot National Forest. A Type II Incident

Management Team (Cook) is assigned. The complex consists of 15 fires in the Selway-Bitterroot and Frank Church River of No Return Wildernesses, 40 miles southwest of Hamilton, MT. Large fires in the complex include the Hamilton, Lonely, Fitz, Thirty, Echo and Throng fires. Fire activity was minimal. Snow was observed above 7500' elevation.

THOMPSON FLAT COMPLEX, Lolo National Forest. A Type I Incident Management Team (Studebaker) is assigned. This is a complex of six fires in the vicinity of Superior, MT. Access to the Flat Creek fire was detained due to several washouts on the roads. Mopup and fireline construction continues on the Landowner fire. UPPER NINEMILE COMPLEX, Lolo National Forest. A Type I Incident Management Team (Bateman) is assigned. The Army's 20th Engineers Battalion from Ft. Hood, Texas, commanded by LTC Shumway, is assigned. These fires are burning 25 miles northwest of Missoula, MT. All portions of the complex have received between .95 and 1.06 inches of rain.

CLEAR CREEK DIVIDE COMPLEX, Flathead Agency, BIA. A Type I Incident Management Team (Orich) is assigned. This complex, 60 miles northwest of Missoula, consists of the Clear Creek, Vanderburg, Siegel, Seepay and Magpie Creek fires. Crews continued direct attack and secured existing firelines.

ALDER CREEK, Lolo National Forest. A Type II Incident Management Team (Hoff) is assigned. This fire is 31 miles southeast of Missoula, MT. The fire area received .3 inch of rain. Structure protection remains in place.

MONTURE/SPREAD RIDGE, Lolo National Forest. A Type I Incident Management Team (Wands) is assigned. The fires are 15 miles east of Seeley Lake, MT. High elevation snow was reported in the area. Crews are implementing rehabilitation.

CROOKED, Clearwater National Forest. A Type II Incident Management Team (Anderson) is assigned. The fire is 50 miles southwest of Missoula, MT, near Lolo Pass. Minimal fire activity was observed.

MIDDLE FORK COMPLEX, Beaverhead-Deerlodge National Forest. A Type I Incident Management Team (Hart) is assigned. The complex consists of the Falls Creek, Cougar Creek, Coyote Springs, Medicine Lake, Skalkaho Pass, Lick Creek and Cooper Creek fires, 30 miles southwest of Philipsburg, MT. Minimal fire activity allowed direct attack on the Coyote and Skalkaho Pass fires.

MAUDLOW/TOSTON, Central Land Office, Montana Department of Natural Resources and Conservation. Two Type II Incident Management Teams (Joki and Greene) are assigned. These fires are 25 miles northeast of Belgrade, MT. Firelines held despite high winds. Smoldering, creeping and low intensity fire behavior was observed.

MUSSIGBROD COMPLEX, Beaverhead-Deerlodge National Forest. A Type I Incident Management Team (Bennett) is assigned. These fires are 12 miles northwest of Wisdom, MT. The complex includes the Mussigbrod and Maynard fires. Crews continued to make good progress on direct fireline construction.

STONE YOUNG, Kootenai National Forest. A Type II Incident Management Team

(Kearney) is assigned. The complex is 65 miles northeast of Libby, MT. Cliff Point and the Loop fires have burned together according to control strategy. Heavy mopup continues as well as securing existing firelines.

KOOTENAI COMPLEX, Kootenai National Forest. A Type I Incident Management Team (Longpre) is assigned. These fires are 20 miles northwest of Libby, MT. Crews continue to mopup and patrol. There was no perimeter growth.

TROY SOUTH, Kootenai National Forest. A Type II Incident Management Team (Gauger) is assigned. The Army's 1st Battalion 321st Artillery from Ft. Bragg, NC, commanded by LTC Mathis, is assigned. This complex of fires is near Troy, MT. Intermittent rains and cooler temperatures aided crews in progress towards containment.

CHIPMUNK, Flathead National Forest. The fire is burning in spruce, subalpine fir and brush 45 miles southeast of Kalispell, MT. Fire behavior moderated due to cooler temperatures and higher relative humidity. Road closures remain in effect.

THREE BEARS, Nez Perce National Forest. A Type II Incident Management Team (Cones) is assigned. This fire is on both sides of the Salmon River, 29 miles from Elk City, ID. The fire area received precipitation up to .5 inch.

SUGARLOAF, Gallatin National Forest. The fire is 13 miles northeast of Wilsall, MT. Low fire activity was observed. Fire is being monitored by aerial reconnaissance.

GREEN MOUNTAIN, Kootenai National Forest. These fires are seven miles northwest of Trout Creek, MT. The complex includes the Green Mountain, McNeeley, Basin Creek and Engle fires. The fire area received over .3 inch of precipitation. Personnel will continue to patrol and monitor the fires in this complex.

SPRUCE COMPLEX, Yellowstone National Park. This is a complex of 11 fires in Yellowstone National Park. The complex consists of the Plateau, Moose, Unlucky, Boundary and several smaller fires. The Unlucky, Moose and Plateau fires are staffed with monitors to observe fire activity. No new information was received.

JUDITH COMPLEX, Lewis and Clark National Forest. This complex consists of the Studhorse, Lost Fork and High Springs fires, which are 25 miles southwest of Stanford, MT. No significant activity observed.

SHARON, Glacier National Park. This fire is near North Fork in Glacier National Park, MT. Fire activity has been low. The National Park Service is monitoring the fire with daily aerial observation flight. Low fire activity was observed.

POACHER, Clearwater National Forest. This lightning-caused fire is 13 miles southeast of Powell, ID. It is being monitored by U.S. Forest Service personnel. Minimal activity was observed on the fire.

COPPER, Clearwater National Forest. This fire is 40 miles northeast of Pierce, ID. The fire is being monitored by U.S. Forest Service personnel. Fire activity was minimal.

PORPHYRY, Clearwater National Forest. This fire is 18 miles southeast of Powell, ID. Fire activity was minimal. U.S. Forest Service personnel are monitoring the fire.

HELEN CREEK, Flathead National Forest. This fire is 22 miles south of Spotted Bear, MT. The fire is being monitored by U.S. Forest Service personnel.

HIDDEN CREEK, Clearwater National Forest. The fire is 12 miles southeast of Powell, ID. Minimal fire activity was noted.

LONG RIDGE, Nez Perce National Forest. This fire is in the Selway-Bitterroot Wilderness, 14 miles southwest of the Moose Creek Ranger Station.

The fire is being monitored by reconnaissance flights and by the Gardiner Lookout. No new information was received.

MINARET PEAK, Flathead National Forest. The fire is near the Spotted Bear Ranger Station in the Bob Marshall Wilderness. U.S. Forest Service personnel are monitoring the fire's activity. No significant activity was observed.

EAST THUNDER 14, Idaho Panhandle National Forest. This fire is 23 miles east of Sandpoint, ID. Fuels are subalpine fir, spruce, brush and grass. Forest Service personnel are monitoring the fire.

PARKE PEAK, Glacier National Park. The fire has been burning since 7/23 in the northwest corner of the park. The fire activity remained low, with the area receiving .54 inch of rainfall.

FROG LAKE, Clearwater National Forest. The fire is 16 miles southeast of Powell, ID. The fire is being monitored by U.S. Forest Service personnel. No new information was received.

ELIZABETH, Clearwater National Forest. The fire is 33 miles northeast of Pierce, ID. The fire is being monitored by U.S. Forest Service personnel. No significant activity was observed.

SNOW CREEK, Clearwater National Forest. The fire is 30 miles northeast of Pierce, ID. U.S. Forest Service personnel are monitoring the fire. No significant activity was observed.

COLLINS CREEK, Clearwater National Forest. The fire is 25 miles northeast of Pierce, ID. No significant activity to report.

CRIMSON PEAK, Flathead National Forest. This fire is located in the Bob Marshall Wilderness. The fire is being monitored by U.S. Forest Service personnel. The fire continues to back into Young's Creek and Marshall Creek drainages.

LONE SHEEP, Nez Perce National Forest. This lightning-caused fire is 20 miles southwest of Elk City, ID. The acreage changed due to better mapping.

WILD HORSE, Montana State, Eastern Land Office. The fire is 30 miles north of Ashland, MT. Structure protection provided by air tankers was successful. Extreme fire behavior was noted.

MILES CITY CREEK, Miles City Field Office, BLM. The fire is burning in open timber and grass 25 miles southwest of Plevna, MT.

EASTERN GREAT BASIN AREA LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildfire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

CLEAR CREEK, Salmon-Challis National Forest. A Type I Incident Management Team (Hutchison) is assigned. The fire is ten miles west of Salmon, ID. The 3rd Battalion, 2nd Marines from Camp Lejeune, North Carolina are in field training. The rain showers helped crews to gain control of more sections of fireline. Fireline rehabilitation is in progress on some sections.

MARLIN SPRINGS, Salmon-Challis National Forest. A Type I Incident Management Team (Hefner) is assigned. This fire is burning along the ridge between Montana and Idaho, 40 miles northwest of Salmon, ID. This complex consists of the Marlin Springs, Full Circle and Sister fires. Due to low temperatures, light winds and high relative humidity very little burning was observed on the fire. This complex will be combined with the Clear Creek fire to make the Clear Complex today.

YELLOWPINE COMPLEX, Payette National Forest. A Type I Incident Management Team (Melton) is assigned. This complex consists of Nick Peak and Indian/Prospect fires and is located 20 miles east of McCall, ID. Over two inches of snow fell at elevations above 6,000 feet. Crews were moved from upper elevation spike camps due to current weather event.

BLIND TRAIL COMPLEX, Bridger-Teton National Forest. A Type II Incident Management Team (Burdick) is assigned. This complex consists of the Blind and Boulder fires. The fires are 26 miles southeast of Jackson, WY. The fire is still creeping and burning in heavy fuels under the canopy. Good progress is being made on suppression efforts.

BURGDORF JUNCTION, Payette National Forest. A Type II Incident Management Team (Suwyn) is assigned. The fire is 23 miles north of McCall, ID. Generally over an inch of moisture, rain and snow, fell on the fire over the past 24 hours.

MORSE, Salmon-Challis National Forest. The fire is burning in grass, sagebrush and douglas fir five miles east of May, ID. Very little fire activity was observed with scattered thunder showers and high relative humidity. Efforts were concentrated towards containment of perimeter spots.

Structure protection for seasonal residences and outbuildings in Little Morgan are in place.

TETON COMPLEX, Grand Teton National Park, NPS. A Type II Incident Management Team (Murphy) is assigned. This complex is north of Jackson, WY. It consists of the Wilcox, Moran, Hechtman, Glade and Enos fires. Crews are making good progress on fireline construction. Fuel reduction and shaded fuel breaks have been constructed at Turpin Meadows and Pacific Creek subdivision. Structure protection remains in place.

FONTENELLE, Bridger-Teton National Forest. A Type II Incident Management Team (Mesenbrink) is assigned. This lightning-caused fire is 20 miles north of Kemmerer, WY. No new information received.

SCF WILDERNESS, Salmon-Challis National Forest. A Type II Incident Management Team (Adams) has been assigned. Eleven wildland fires are

currently burning within the Salmon Challis Wilderness Complex: Little Pistol, Indian Creek, Filly, Butts, Papoose, Parker, Packer Meadow, Shell Rock, Wilson Creek, Jackass and Jack Creek. Moisture was received across the complex slowing fire growth. Closure orders remain in effect for areas in and around the fires.

FLOSSIE COMPLEX, Payette National Forest. These fires are 50 miles northeast of McCall, ID. Structure protection continues at Root Ranch. Most of the area received precipitation either in the form of rain or snow.

DIAMOND COMPLEX, Payette National Forest. These lightning-caused fires are 42 miles northeast of McCall, ID. This complex consists of the Lookout, Point, North Shellrock and South Shellrock fires. Structure protection remains in place for Big Creek and Edwardsburg. No new information to report.

NORTHWEST AREA LARGE FIRES:

EASTSIDE COMPLEX, Wallowa-Whitman National Forest. A Type II Incident Management Team (Gardner) is assigned. The complex consists of 11 fires adjacent to the Snake and Imnaha Rivers, 37 miles northeast of Enterprise, OR. Crews made good progress on mopup along the fire perimeter and with rehabilitation activities.

ROCKY MOUNTAIN AREA LARGE FIRES:

JASPER, Black Hills National Forest. This fire is 15 miles east of Newcastle, WY. A Type I Incident Management Team (Waterbury) is assigned. Dozer and handline operations have been completed around the incident. Thunderstorms moved through the area last night with little precipitation falling on the fire. High northwest winds occurred all day, but control lines held with no problems. Demobilization of resources continues as mopup progresses.

LEFT CREEK, Wyoming State Forestry. This fire is west of Devil's Tower, WY. Devil's Tower facilities and campgrounds were evacuated. Aircraft assisted in the suppression efforts.

HUNTER	CA	MMU	8084	90	UNK	1630	58	75	6	0	NR	2.1M

SOUTHERN AREA LARGE FIRES:

DRY FORK, Ouachita National Forest. This fire is burning in pine and hardwood timber.

BROCK, Ozark & St. Francis National Forest. Expect to reach containment today.

CHICKEN, Texas State Forest Service. This fire is located 20 miles east of Nacogdoches, TX. The fire escaped containment lines again yesterday due to gusty winds associated with area thunderstorms.

SNAKE EYES, National Forest in Mississippi. This fire is located near Potts Camp, MS. Weather conditions are extremely hot and dry. Crews continue with mopup and are staged for initial attack.

WEST NUECES, Texas State Forest Service. This fire is 50 miles northeast of Del Rio, TX. The fire is burning in heavy mesquite, oak and juniper fuels in rough terrain. No new information was received.

YELLOW BAYOU, Texas State Forest Service. This fire is burning in a pine plantation 100 miles northeast of Houston, TX. No new information was received.

HUFFINES, Texas State Forest Service. This fire is burning in a pine plantation 80 miles northeast of Tyler, TX. No new information was received.

RANGER HILLS, National Forest's in Texas. This fire is burning in heavy brush and cedar 50 miles east of Abilene, TX. National Guard helicopters made significant contributions assisting containment efforts. Containment is expected today.

MOORE BRANCH, Texas State Forest Service. This fire is burning in a pine plantation 30 miles north of Beaumont, TX. National Guard helicopters were utilized in suppression efforts. Due to extreme fire behavior crews were pulled off of the fire for a second day.

SLICKEM SLOUGH, Texas State Forest Service. This fire is burning in cedar, juniper, brush, oak and mesquite 13 miles northwest of Sherman, TX. Numerous gas wells and oil pipelines were saved.

IRON ORE COMPLEX, Texas State Forest Service. Two lightning caused fires are burning through a subdivision 15 miles northeast of Houston, TX. Approximately ten homes are threatened. The fire has burned through a stand of young pines into an older stand of pines.

PINEY GROVE, Texas State Forest Service. This fire is burning in a pine plantation 100 miles east of Dallas, TX. Numerous structures have been saved. Containment is expected today.

KICKAPOO WEST, Texas State Forest Service. This fire is 75 miles north of Houston, TX. The fire is burning actively in a pine plantation. Intense fire conditions have been exhibited due to extremely dry fuels and gusty winds.

STANLEY MAINLINE COMPLEX, Texas State Forest Service. This complex of fires is burning 40 miles northeast of Houston, TX. All crews have been pulled off due to extreme fire behavior in the heavy pine plantations.

BEDIAS CREEK, Texas State Forest Service. This fire is burning in a heavy pine plantation 50 miles northwest of Houston, TX. Containment efforts are being impeded by record temperatures and extremely dry fuels.

THICKET, Texas State Forest Service. This fire is burning in a pine plantation 50 miles northeast of Houston, TX.

CHAPEL TOWER, Texas State Forest Service. This fire is burning in a thick pine stand 70 miles northeast of Houston, TX. Suppression efforts are being hindered by record high temperatures.

MONTEITH, Texas State Forest Service. This fire is burning in oak, cedar and juniper 40 miles south of Waco, TX. National Guard helicopters are assisting in suppression efforts.

ROSEBUD, Texas State Forest Service. This fire is burning in thick brush, mesquite, oak, cedar and juniper 25 miles south of Waco, TX. Dozers and helicopters were utilized to stop the spread of the fire.

BREMOND, Texas State Forest Service. This fire is burning in grass and pine 60 miles south of Waco, TX.

E WHITES 2, Anahuac National Wildlife Refuge. This fire is burning in a marsh area 40 miles from Houston, TX. Difficult access is impeding suppression efforts.

PALM VIEW, Lower Rio Grande Valley National Wildlife Refuge. This fire is burning 20 miles from Brownsville, TX. The fire is threatening the Bentsen State Park. Dry conditions and extreme fire activity is causing suppression problems.

MCGEE CREEK #2 COMPLEX, Oklahoma Division of Forestry. This fire is near Antlers, OK. No new information was received.

OUTLOOK:

*** A RED FLAG WARNING IS POSTED FOR PORTIONS OF SOUTHEAST TEXAS FOR LOW RELATIVE HUMIDITY ***

A Pacific cold front will push across the Northern Rockies in the morning bringing cool temperatures along with rain and snow showers to the region. Snow levels are expected to be down as low as 6000 feet across the northern states. Otherwise a large upper level low pressure area over the Pacific Northwest will bring a threat of additional rain, snow showers and thunderstorms to the Pacific Northwest and Intermountain West. The Central Rockies and Southwest will be partly cloudy and locally windy conditions are expected.

In the north temperatures will generally be in the 50's and to mid 60's in the mountains and in the mid 60's to the 80's in portions of eastern Montana. In the southwest areas temperatures will be in the 60's and 70's in the mountains, and 80's to near 100 in the valleys. Winds will be from the west to southwest at 15 to 30 mph. Relative humidity will generally be in the mid teens to upper 20's, with 50's to 70's in the cooler and wetter areas of the north.

Texas remains under a dry high pressure system with little change through Wednesday. Temperatures in eastern Texas will be 100 to 109 and in western Texas will they will be 92 to 103. Winds across the state will be south to west at 5 to 15 mph with minimum relative humidities ranging from

15 percent in the west and 30 percent to the east.
