

**INCIDENT MANAGEMENT SITUATION REPORT
SATURDAY MAY 10, 2003 - 0800 MDT
NATIONAL PREPAREDNESS LEVEL 2**

CURRENT SITUATION:

Initial attack activity was light nationally, with 125 new fires reported yesterday. Three new large fires were reported one in the Southwest Area and two in the Eastern Area. Two large fires were contained in the Eastern Area. Very high to extreme fire indices were reported in Arizona, Colorado, Minnesota and New Mexico.

COLUMBIA RESPONSE, Federal Emergency Management Agency. A Type 2 Incident Management Team (Suwyn) is assigned to search operations near Modena, Utah. Crews have searched approximately 60 percent of the 1,161 acre area.

SOUTHWEST AREA LARGE FIRES:

WALKER, Lincoln National Forest. A Type 2 Team (Raley) is assigned and will assume command today. This fire 15 miles east of Cloudcroft, NM is burning in juniper, ponderosa and pinyon pine. Spotting up to ¾ of a mile and sustained crown fire were observed.

BOILER, Gila National Forest. This lightning caused Wildland Fire Use fire is ten miles northwest of Poverty Creek, NM and is being managed to accomplish resource objectives. The north and west sides of the fire continue to be active with a moderate rate of spread. Continued monitoring and mapping of fire spread is planned for today.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD

BOILER	NM	GNF	19,100	100	UNK	61	2	4	0	0	30K

EASTERN AREA LARGE FIRES:

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD
NOZZLE	MN	MNS	1000	100	---	NR	0	0	0	0	3K
ST. JOSEPH	MN	MNS	600	100	---	1	0	1	0	0	4.2K

MNS = Minnesota Department of Natural Resources

OUTLOOK:

Fire Weather Watches: West-central and southwest Texas for strong west winds, minimum humidity 15 percent or less.

Weather Discussion: The northern half of the country will generally see unsettled weather due to a low pressure trough in the West and a frontal system in the Midwest. Winds will be diminishing over the Southwest. In Alaska, strong southerly winds will cause dry, gusty Chinook winds in the eastern portions of the Alaska Range.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
SOUTHWEST AREA Windy in west TX, otherwise mostly sunny with winds diminishing.	50s and 60s mountains, 70s to 90 lower elevations.	5-20%.	W 10-25 mph.
ROCKY MOUNTAIN AREA Southeast Colorado: Mostly Cloudy with Scattered Showers.	50-60	30%-40%	North-Northwest 5-15 mph

AVIATION “WATCH OUT” SITUATIONS

As part of risk management, especially during high activity fires, each aviation manager and employee should be asking questions.

- Is the flight necessary?
- Who is in charge?
- Are all hazards identified and have you made them known?
- Should the operation or the flight be stopped due to a change in conditions? Consider the following:
 - Communications
 - Confusion
 - Personnel
 - Weather
 - Turbulence
 - Conflicting priorities
- Is there a better way to do it?
- Are you driven by the task and sense of urgency?
- Can you justify your actions?
- Are there other aircraft in the area?
- Will the pilot accept the mission?
- Are any guidelines being ignored or policies being broken?
- Are communications getting tense?
- Are you deviating from the assigned operation or flight?
