

**INCIDENT MANAGEMENT SITUATION REPORT
THURSDAY, OCTOBER 30, 2003 – 0530 MST
NATIONAL PREPAREDNESS LEVEL 3**

CURRENT SITUATION:

Initial attack activity was light nationally, with 83 new fires reported. Four new large fires were reported, one each in the Southern and the Eastern Great Basin Areas, and two in the Rocky Mountain Area. Four large fires were contained, one each in the Southern California, Northern California, Northern Rockies and Eastern Great Basin Areas. Very high to extreme fire indices were reported in Arizona, California, Colorado, Idaho, Montana, Oklahoma and Utah.

SOUTHERN CALIFORNIA AREA LARGE FIRES:

OLD, San Bernardino National Forest. A Type 1 Incident Management Team (Mortier) is assigned. This fire is in chaparral on the north side of San Bernardino, CA. High winds and dry conditions caused extreme fire behavior in areas of beetle killed timber and urban interface. Aggressive uphill and canyon runs with crowning and long range spotting were observed. Structure protection is a priority.

CEDAR, Cleveland National Forest. A Unified Command has been established between a CDF Type 1 Incident Command Team (Hawkins) and various fire agencies in San Diego County. This fire is in chaparral, ten miles east of Ramona, CA. The fire continued to move in all directions in areas of brush and urban interface. Continued extreme fire behavior with flame lengths over 200 feet and long range spotting was observed. Threatened residences and commercial properties have been evacuated and structure protection is a priority.

GRAND PRIX, San Bernardino Unit, California Department of Forestry & Fire Protection (CDF). A Type 1 Incident Management Team (Studebaker) is assigned. This fire is in heavy chaparral, two miles west of Mira Loma, CA. Continuous wind-driven runs caused rapid rates of spread and spotting. The evacuation order for the Lytle Creek area has been lifted. Mandatory evacuation orders are in effect for Oak Hills, Baldy Mesa, Silverwood Lake and Summit Valley. Structure protection is a priority.

SIMI INCIDENT, Ventura County. A Unified Command between a CDF Type 1 Incident Command Team (Haines), Ventura County Fire Department (Sanchez), Los Angeles County (Osby) and the City of Los Angeles (West) is in place. This fire is in chaparral and grass, five miles north of Simi Valley, CA. Strong gusty winds caused fire activity to vary from moderate to extreme. Structure protection is a priority. An evacuation of Stevenson Ranch took place during the peak burning period.

PARADISE, Monte Vista Unit, California Department of Forestry & Fire Protection (CDF). A CDF Type 1 Incident Command Team (Snell) is assigned. This fire is in heavy chaparral, six miles northeast of Escondido, CA. Extreme fire conditions resulted in sustained hard runs. Structure protection is in place for numerous residences.

PADUA, Angeles National Forest. A Type 1 Incident Management Team (Gelobter) is assigned. This fire is in chaparral, six miles north/northeast of Claremont, CA. Minimal fire activity was observed. The evacuation order for the Mt. Baldy Village area remains in effect.

PIRU, Los Padres National Forest. A California Department of Forestry & Fire Protection (CDF) Type 1 Incident Command Team (Kerrigan) is assigned. This fire is in grass and brush, 14 miles northwest of Santa Clarita, CA. The recent weather change with higher relative humidity contributed to the decreased fire spread. Minimal fire activity was observed. Structure protection is a priority.

PARADISE 2, Sequoia & Kings Canyon National Park. This wildland fire is in mixed conifer and chaparral, seven miles northeast of Three Rivers, CA. Moderate fire activity was reported.

ROBLAR 2, Camp Pendleton Marine Corps Base. This fire is in chaparral, six miles west of Fallbrook, CA. No new information was reported. This will be the last report unless new information is received.

GCP = Grand Canyon National Park

ROCKY MOUNTAIN AREA LARGE FIRES:

OVERLAND, Boulder County. This fire is in Douglas fir, ponderosa pine and grass, one half mile west/northwest of Jamestown, CO. Continuous winds with gusts near 50 mph and varying directions caused rapid fire growth. The communities of Jamestown and Lefthand Canyon have been evacuated.

CHEROKEE RANCH, Pike and San Isabel National Forest. This fire is in an urban interface area with ponderosa pine, oak and grass, two miles east of Kellytown, CO. Active fire with running, torching and spotting was observed. Over 100 residences have been evacuated.

EASTERN GREAT BASIN AREA LARGE FIRES:

CHERRY CREEK 2, Uinta National Forest. This fire is in grass and brush, ten miles east/northeast of Springville, UT. Major fire growth was due to winds associated with a passing cold front.

SWIFT CREEK, Ashley National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. This will be the last narrative report unless significant activity occurs.

CNF = Custer National Forest

OUTLOOK:

Fire Weather Watch: For parts of eastern California from Lake Tahoe south for strong gusty west to northwest winds and low humidity.

Red Flag Warning: For strong winds, dry fuels, and low relative humidity over western and southern Colorado.

Fire Weather Watch: For southern and eastern Utah.

Weather Discussion: Upper level trough developing over the West will produce gusty winds from California to Texas, Oklahoma and Arkansas. In the East, high pressure is building over the area except for a disturbance moving across the Great Lakes.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
<p>SOUTHERN CALIFORNIA AREA Morning fog in coastal basins, otherwise partly cloudy.</p>	<p>60 to 70 coastal areas. 50 to 65 mountains. 65 to 75 valleys. 65 to 75 upper desert. 78 to 88 low desert.</p>	<p>5 to 15% desert. 20 to 35% mountains. 35 to 50% valleys. 50 to 70% coast.</p>	<p>Southwest to northwest 5 to 15 mph in the morning and southwest to northwest 10 to 20 mph with gusts to 30 mph in the afternoon.</p>
<p>NORTHERN CALIFORNIA AREA Partly to mostly cloudy with isolated to scattered showers, more numerous in northwestern mountains. Snow level dropping to 3000 to 3500'.</p>	<p>Upper 30s to near 50 at higher terrain, and upper 50s to upper 60s lower terrain inland, with 50s near the coast.</p>	<p>60% or more higher terrain and coastal areas, and 35 to 50% inland areas.</p>	<p>Northwest to northeast 5 to 10 mph with gusts to 15 to 20 mph lower elevations inland, and northwest to north 7 to 15 mph with gusts 20 to 25 mph higher terrain and near the coast.</p>
<p>ROCKY MOUNTAIN AREA Partly cloudy over Colorado. Snow likely over Wyoming and South Dakota.</p>	<p>Highs 50 to 55 over the northern Colorado front range, with 60s to near 75 over western and southern Colorado (55 to 65 mountains).</p>	<p>35 to 45% over the northern Colorado front range, with 15 to 30% elsewhere over Colorado.</p>	<p>Easterly 8 to 18 mph over the northern Colorado front range. West 20 to 35 mph over western sections of Colorado, and the southern mountains.</p>
<p>EASTERN GREAT BASIN AREA Idaho, Bridger-Teton: Mostly cloudy and cold with much lighter winds. A chance of snow showers in the mountains, slight chance in the valleys. Utah, Arizona Strip: Partly to mostly cloudy and breezy to windy with a chance of showers over northern Utah. The cold front will stall over central/southern Utah.</p>	<p>Idaho, Bridger-Teton: 25 to 35 mountains, 35 to 47 valleys. Utah and Arizona Strip: 30 to 52 northern Utah, 50 to 78 southern Utah and the Arizona Strip.</p>	<p>Idaho, Bridger-Teton: 30 to 45% valleys, 40 to 70% mountains. Utah, Arizona Strip: 8 to 25% southern and eastern Utah and the Arizona Strip, 25 to 50% northwest Utah.</p>	<p>Idaho, Bridger-Teton: West to northwest 10 to 15 mph. Utah, Arizona Strip: Southwest 15 to 30 mph with gusts to 40 mph over southern and eastern Utah. Winds northwest over the northwest third of Utah.</p>
<p>WESTERN GREAT BASIN AREA North: Mostly cloudy and cold with a chance of snow showers. South: Partly sunny and breezy.</p>	<p>30s & 40s North 50s, 60s & 70s South 20s & 30s Mountains</p>	<p>30 to 40% North 20 to 30% Central 15 to 25% South 40 to 60% Mountains</p>	<p>Becoming southwest to northwest at 15 to 25 mph across the southern half of the state and 5 to 15 mph across the northern half of the state.</p>
<p>EASTERN AREA Partly cloudy, warm and breezy over the southeastern 2/3 of the Big Rivers including Missouri, Illinois, and Indiana</p>	<p>68 to 78</p>	<p>35 to 45%</p>	<p>South to southwest winds to 15 to 30 mph with occasional higher gusts in the afternoon</p>
