

**INCIDENT MANAGEMENT SITUATION REPORT  
SUNDAY, NOVEMBER 9, 2003 – 0800 MST

**CURRENT SITUATION:**

**OUTLOOK:**

**Weather Discussion:** A trough of low pressure will continue to move toward California today. The trough will produce rain and higher elevation snows from central California northward into southwest Oregon. The further south in California, the less the rain amounts will be. Extreme southern California south of Los Angeles will only see cloudy conditions. Some parts of the northern Great Basin will also see showers and high elevation snows today as a result of the low's moisture spreading inland.
