

INCIDENT MANAGEMENT SITUATION REPORT
MONDAY, JULY 19, 2004 – 0530 MDT
NATIONAL PREPAREDNESS LEVEL 3

CURRENT SITUATION:

Initial attack activity was moderate in the Eastern Great Basin, Northwest and Southern California Areas and light elsewhere. Nationally, 264 fires were reported. One new large fire was reported in the Southwest Area. Very high to extreme fire indices were reported in Alaska, Arizona, California, Colorado, Montana, Nevada, New Mexico, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington and Wyoming.

ALASKA AREA LARGE FIRES:

BOUNDARY, Fairbanks Area Forestry, Alaska Division of Forestry. A Type 1 Incident Management Team (Hart) is assigned. A Type 1 Incident Management Team (Anderson) has been ordered. This fire is 20 miles northeast of Fairbanks, AK in alpine tundra and black spruce. Several short crown runs were reported. Evacuations remain in effect for Fairbanks Creek.

CENTRAL COMPLEX, Upper Yukon Zone, Bureau of Land Management. A transfer of command from a Type 2 Incident Management Team (Chrisman) to a Type 2 Incident Management Team (Furlong) will occur at 0600 ADT. This complex, comprised of the Middle Birch Creek, Preacher Creek, Rock Creek, Crazy and Tokoma Bluffs fires, is 15 miles southwest of Circle, AK in spruce and hardwoods. Fire activity increased significantly when the inversion lifted. Backing fire was observed.

CHICKEN COMPLEX, Tok Area Forestry, Alaska Division of Forestry. A Type 2 Incident Management Team (Goheen) is assigned. This complex, comprised of the previously reported Chicken, Anomaly, and Wall Street fires, is 50 miles northeast of Tok, AK in timber, hardwoods and grass. Crowning with spotting up to one-third mile was reported.

TAYLOR HIGHWAY COMPLEX, Tok Area Forestry, Alaska Division of Forestry. A Type 2 Incident Management Team (Kurth) is assigned. This complex, comprised of the Billy Creek, Gardiner Creek, Big Creek, and Porcupine fires, is 35 miles northwest of Tok, AK in black spruce and tundra. Extremely low relative humidity and high temperatures resulted in very active fire behavior, including frequent torching with crown runs, multiple convection columns and smoky conditions.

WOLF CREEK, Upper Yukon Zone, Bureau of Land Management. This fire is 60 miles northeast of Fairbanks, AK in black spruce and hardwoods. Backing fire with intermittent runs in drainages was reported. Burnout operations were suspended due to late afternoon precipitation.

EVANSVILLE, Tanana Zone, Bureau of Land Management. This fire is one-half mile southeast of Bettles, AK in black spruce. Fire activity was low with isolated torching. Light showers over the fire reduced fire behavior to creeping and smoldering.

EAGLE COMPLEX, Upper Yukon Zone, Bureau of Land Management. A transfer of command from Fire Use Management Team (Cones) to a Type 2 Incident Management Team (Carlson) will occur today. This complex, consisting of the American Summit, Edwards Creek, King Creek, Kandik River, Indian Grave Creek, Deer Creek and seven additional fires, is located three miles northeast of Eagle, AK in tundra, black spruce and mixed hardwoods. Moderate fire behavior with torching and short uphill crowning runs was observed.

LOWER MOUTH, Upper Yukon Zone, Bureau of Land Management. This fire is located 12 miles northwest of the village of Birch Creek, AK in white spruce, black spruce, birch and aspen. Minimal fire behavior was reported.

SOLSTICE COMPLEX, Upper Yukon Zone, Bureau of Land Management. A Fire Use Management Team (Bird) is assigned. A Type 2 Incident Management Team has been ordered. This incident is 57 miles northwest of Fort Yukon, AK in black spruce, hardwoods and tundra. The complex consists of the Pingo, Winter Trail, Sucker River, Black Currant Lake, Vundik Lake, Boulder Creek and Sheenjek fires. Low to moderate fire behavior was observed.

YUKON CROSSING COMPLEX, Upper Yukon Zone, Bureau of Land Management. This complex, comprised of the previously reported Waldron Creek and Fort Hamlin Hills fires, is ten miles southwest of Stevens Village, AK in spruce, dwarf birch and tundra. Minimal fire activity was reported.

CAMP CREEK, Delta Area Forestry, Alaska Division of Forestry. This fire is 23 miles northwest of Delta Junction, AK in tundra and spruce. Fire behavior remained active, with spotting across the Good Pasture River.

SOUTHERN CALIFORNIA AREA LARGE FIRES:

FOOTHILL, Los Angeles County Fire Department. A Type 1 Incident Management Team (Cable) has been ordered. This fire is three miles south of Newhall, CA in chaparral and grass. Extreme fire behavior due to high temperatures low relative humidity, low fuel moisture and steep terrain was reported. Evacuations and local road closures remain in effect.

PINE, Los Angeles County Fire Department. A unified command has been established between a Type 1 Incident Management Team (Gelobter) and the Los Angeles County Fire Department (Hokanson). This fire is 14 miles southeast of Lebec, CA in heavy brush. Some active fire was observed within containment lines.

MELTON, Riverside Unit, California Department of Forestry and Fire Protection. This fire is five miles south of Hemet, CA in chaparral. Multiple spot fires were reported. All evacuations have been lifted.

MEADOW, Yosemite National Park. A Fire Use Management Team (Cook) is assigned. This lightning-caused Wildland Fire Use (WFU) incident, located seven miles southeast of Yosemite Village, CA in timber, is being managed to accomplish resource objectives. Low intensity surface fire with some occasional torching and spotting was reported.

NORTHWEST AREA LARGE FIRES:

ICICLE, Okanogan/Wenatchee National Forest. A Type 1 Incident Management Team (Bennett) is assigned. This fire is eight miles west of Leavenworth, WA in timber, litter and understory. Slow backing with torching was reported. Crews completed fireline in preparation for burnout operations.

POT PEAK, Okanogan/Wenatchee National Forest. A Type 2 Washington State Interagency Incident Management Team (Johnson) is assigned. This fire is 15 miles northwest of Chelan, WA in timber. Minimal fire activity with minor torching was observed.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD

WESTERN GREAT BASIN AREA LARGE FIRES:

WATERFALL, Humboldt-Toiyabe National Forest. A Type 1 Incident Management Team (Martin) is assigned. This fire is three miles west of Carson City, NV in timber with litter understory and brush. Minimal behavior was observed. Rehabilitation of dozer lines is currently underway.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD
WATERFALL	NV	HTF	7,600	95	7/20	1,022	30	30	6	41	4.8M

EASTERN GREAT BASIN AREA LARGE FIRES:

DOLLAR, Boise National Forest. A Type 2 Incident Management Team (Suwyn) is assigned. This fire is 16 miles northeast of Cascade, ID in heavy dead and down fuels. Precipitation moderated fire behavior. Crews made good progress constructing direct attack fireline.

CABIN CREEK, Salmon Challis National Forest. A Type 2 Incident Management Team (Brunner) is assigned. This fire is eight miles west of North Fork, ID in timber, brush and grass. Precipitation moderated fire spread allowing direct attack.

SHEEP FENCE, Cedar City Field Office, Bureau of Land Management. This fire is 30 miles southeast of Escalante, UT in pinyon pine, juniper and sagebrush. No further information was received.

TRAIL CANYON, Moab Field Office, Bureau of Land Management. This fire is 40 miles north of Green River, UT in Douglas fir, pinyon pine, juniper and aspen. Minimal fire spread was reported.

SINKS, South Central State, Utah State Division of Forestry, Fire and State Lands. This fire is four miles northwest of Oak City, UT in brush and grass. Minimal fire behavior was reported. No further information was received.

SOUTHWEST AREA LARGE FIRES:

FOX, Tonto National Forest. This fire is 34 miles south of Payson, AZ in brush and grass. Steep, rugged terrain is a major concern and is impeding containment efforts. Active fire behavior with short runs was reported.

NUTTALL COMPLEX, Coronado National Forest. This complex, located 15 miles southwest of Safford, AZ in brush and heavy timber, consists of the Clark, Nuttall and Gibson fires. Fire behavior was minimal due to light precipitation.

WILLOW, Tonto National Forest. A Type 2 Incident Management Team (Philbin) is assigned. This fire is six miles southwest of Payson, AZ in timber, grass and chaparral. No new information was reported. This will be the last report unless new information is received.

JACKET, Coconino National Forest. This previously reported fire, which began on 6/22, is 13 miles southwest of Winona, AZ in brush and slash. This fire is being managed with a confinement suppression strategy and is expected to continue until monsoon moisture extinguish the fire.

OUTLOOK:

Weather Discussion: Low pressure off the northwest coast will pull inland today, allowing a front to move across the Northwest Area and into the Northern Rockies. Mainly wet thunderstorms are expected along the front as it passes. Wind will be strong across the Great Basin as the front pushes by to the north. Much less thunderstorm activity is expected today in the southern Great Basin and Arizona as drier air filters into the region. Eastern Alaska will see a few wet thunderstorms as moisture is pulled into the region from a low southwest of the Kenai Peninsula.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
ALASKA Central and Eastern Interior: Partly to mostly cloudy. Isolated thunderstorms or showers. Areas of thick smoke.	Central and Eastern Interior: 70 to 81.	Central and Eastern Interior 25 to 45%.	Central and Eastern Interior Variable 5 to 10 mph.
SOUTHERN CALIFORNIA AREA Areas of morning low clouds and fog coastal areas. Otherwise, partly cloudy with isolated thunderstorms over the mountains and deserts.	75 to 85 coastal areas. 80 to 95 mountains. 90 to 105 valleys. 95 to 105 upper deserts. 100 to 112 lower deserts.	15 to 30% valleys 15 to 30% mountains. 10 to 20% deserts.	Southwest to northwest 10 to 20 mph.
EASTERN GREAT BASIN Idaho, Bridger-Teton: Partly cloudy with scattered wet thunderstorms Idaho. Locally, heavy rain possible. Isolated to widely scattered thunderstorms western Wyoming. Utah, Arizona Strip: Partly cloudy with scattered wet thunderstorms. Locally, heavy rain possible.	Idaho, Bridger-Teton: 68 to 82 mountains. 82 to 93 valleys. Utah and Arizona Strip: 78 to 90 mountains. 90 to 104 valleys. 105 to 114 Lake Mead.	Idaho, Bridger-Teton: 35 to 55% mountains. 22 to 40% valleys. Utah, Arizona Strip: 25 to 40% mountains. 15 to 30% valleys.	Idaho, Bridger-Teton: Southwest 5 to 15 mph. Utah, Arizona Strip: Southwest to west 10 to 15 mph. Upslope/upvalley 4 to 8 mph northeast Utah.
NORTHWEST AREA Partly cloudy. Scattered showers and wet thunderstorms likely mainly east of the Cascades.	West of Cascades: 60s and 70s. 80s in southwest Oregon. East of Cascades: 80s. 70s mountains of northeast Washington.	West of Cascades: 35% interior southwest Oregon. 45 to 65% elsewhere. East of Cascades: 20 to 35%.	Increasing in the afternoon to westerly 7 to 14 mph.
ROCKY MOUNTAIN AREA Scattered afternoon thunderstorms western portions. Dry eastern plains.	Upper 80s and 90s. 70s mountains.	12 to 20% for the high plains. 25 to 40% elsewhere.	Variable 5 to 15 mph.
NORTHERN ROCKIES AREA Isolated to scattered thunderstorms western half Montana and Idaho. Sunny in North Dakota.	80s to near 90 Idaho and western Montana. 90s south and east of the Continental Divide. 70s higher terrain.	18 to 30% Idaho. 40 to 55% North Dakota.	West: Slope/valley 5 to 10 mph. East: Southeast winds 5 to 15 mph.
NORTHERN CALIFORNIA AREA Partly cloudy north and east with a slight chance of showers or thunderstorms east of the Sierra Cascade Crest.	60s and 70s coast. 80s and 90s inland.	10 to 20% inland areas.	Southwest to northwest 4 to 12 mph with gusts to 18 to 25 mph east of the Sierra Cascade Crest.

<p>SOUTHWEST AREA Partly cloudy. Isolated thunderstorms in Arizona and western New Mexico. Scattered to numerous thunderstorms eastern, central New Mexico into west Texas.</p>	<p>Upper 60s to 80s mountains. 90s lower elevations. 100 to 110 southern Arizona deserts.</p>	<p>5 to 15% west into south central Arizona and southwestern New Mexico. 15 to 30% elsewhere.</p>	<p>Southwest 5 to 15 mph in Arizona and western New Mexico. South southeast 10 to 20 mph eastern New Mexico and west Texas.</p>
<p>WESTERN GREAT BASIN Partly cloudy with isolated to scattered showers and thunderstorms across the north, partly sunny south.</p>	<p>North Valleys: 85 to 95. South Valleys: 92 to 102. Mountains: 70 to 85.</p>	<p>North Valleys: 15 to 40%. South Valleys: 10 to 20%. Mountains: 20 to 40%.</p>	<p>Northwest: West at 10 to 15 mph with gusts to 30 mph. Elsewhere: Southwest at 5 to 15 mph.</p>

AIRCRAFT AND PILOT CARDING

Every aircraft and pilot used in support of a Federal wildland fire mission must have a current Aircraft or pilot Card. The card must be held in the aircraft or with the pilot, and give specific authorization to do the mission being requested.

● These missions could be all, one, or any number of, missions as follows:

- Air attack (Level I, Level II, Level III)
- Reconnaissance
- Fire surveillance
- Water bucket
- Helitorch
- Cargo
- Longline
- Others

● Every pilot who flies a properly carded aircraft must possess a current Interagency Airplane or Helicopter Pilot Qualification Card that gives specific authorization to fly the type of mission being requested and for the specific type of aircraft being used for the mission. These missions could be all, or any number of, missions as follows:

- Air attack
- Reconnaissance
- Fire surveillance
- Low-level
- Paracargo
- Mountain/Remote airstrips
- Smokejumper
- Longline
- Others

● Before the aircraft and pilot can be used for a specific mission, the aircraft must be specifically listed on a valid and current contract for the type of work being performed.

● A copy of the contract must be onboard the aircraft.

● Each user of the aircraft and pilot has the authorization to physically inspect the Aircraft Data Card, the Interagency Airplane or Helicopter Pilot Qualification Card, and the contract. If any one of these three are not available for inspection, the mission must be cancelled or at least postponed until the authorizations of the aircraft, pilot, or contract can be determined.

● Pilots have very specific and closely monitored duty time and flight time limitations that users must understand and adhere to:

- 14-hour duty day
- 8 hours flight time per day
- 2 days off in 14 calendar days
