## OUTLOOK:

**Fire Weather Watch:** West-central Colorado for dry lightning in the afternoon and evening.  
Southeast Utah for dry lightning.

**Weather Discussion:** Thunderstorms will continue to develop along the Sierra, in the Great Basin and in the Northwest today as monsoonal moisture is drawn up from the south. Some of the thunderstorms are expected to be dry over the Northwest, Idaho and western sections of the Northern Rockies. In Alaska, high pressure will return the Area to warm, dry conditions. In the East, tropical storm Charley will weaken but bring heavy rains to the New England States.
