

INCIDENT MANAGEMENT SITUATION REPORT
WEDNESDAY, JULY 20, 2005 – 0530 MDT
NATIONAL PREPAREDNESS LEVEL 3

CURRENT SITUATION:

Initial attack activity was light nationally with 185 fires reported. Fifteen new large fires were reported, eight in the Southwest Area, three in the Eastern Great Basin Area, two in the Northern California Area and one each in the Rocky Mountain and Northwest Areas. Four large fires were contained, one each in Southwest, Eastern Great Basin, Western Great Basin and Northern California Areas. Very high to extreme fire indices were reported in Alaska, Arizona, California, Colorado, Idaho, Michigan, Montana, Nebraska, Nevada, New Mexico, Nevada, Oregon, South Dakota, Utah, Washington and Wyoming.

SOUTHWEST AREA INCIDENTS / LARGE FIRES:

FLORIDA, Coronado National Forest. A Type 1 Incident Management Team (Oltrogge) is assigned. This fire is 11 miles southeast of Green Valley, AZ in brush, timber litter and understory. Evacuations remain in effect for Madera Canyon and below Mount Wrightson. Some areas of smoldering continue above Madera Canyon and below Mount Wrightson.

RIDGE COMPLEX, Kaibab National Forest. A Type 2 Incident Management Team (Reinarz) is assigned. This complex, comprised of the Ridge, Nail, Warm Springs, Jackson, Hidden and Oak fires, is in hardwood litter, 15 miles southeast of Jacob Lake, AZ. Active backing fire and group torching were reported.

EDGE COMPLEX, Tonto National Forest. A Type 2 Incident Management Team (Lineback) is assigned. This complex, comprised of the previously reported Edge and Valentine fires, is 20 miles northeast of Mesa, AZ in short grass and brush. Sonoran desert habitat and the Four Peaks Wilderness are threatened. Running crown fire with an extreme rate of spread, and a significant run on Boulder Mountain were observed.

PEACHVILLE, Tonto National Forest. This fire is four miles north of Superior, AZ in chaparral. Several forest roads were closed. A power plant substation and power lines were threatened. Backing fire, running and spotting were reported.

BUTTE, Prescott National Forest. A Type 2 Incident Management Team (Philbin) is assigned. This fire is 60 miles northwest of Phoenix, AZ in grass, pinyon, juniper and brush. Squaw Peak Communications Site, microwave tower, power lines, cabins and a ranch are threatened. Wind driven runs and backing fire were reported.

J. CANYON, Arizona State. A Type 2 Incident Management Team (Raley) is assigned. This fire is 15 miles northeast of Wickenburg, AZ in brush, pinyon and juniper. Ranches, designated wilderness and cultural resources remain threatened. Extreme rates of spread in an inaccessible area was reported.

WAHOO, Gila National Forest. This fire is 21 miles northwest of Winston, NM in timber, brush, hardwood slash and litter. No activity was observed. This fire is being managed using a confinement strategy.

SH RANCH COMPLEX, Arizona State. This fire is 10 miles east of Bagdad, AZ in short grass. This fire consists of 15 separate lightning caused fires. Active fire behavior in the chaparral and extreme fire behavior in grassy fuels were reported.

OAK, Tonto National Forest. This fire is five miles northwest of Punkin Center, AZ in chaparral and grass. Access is limited due to steep, rugged terrain. Minimal fire behavior was observed. Increase in acreage is due to more accurate mapping.

INDIAN, Mescalero Agency, Bureau of Indian Affairs. This fire is 23 miles east of Mescalero, NM in mixed conifer, ponderosa pine and grass. No new information was reported.

BRUSH, Gila National Forest. This fire is 25 miles northwest of Silver City, NM in hardwood litter and brush. The fire is in monitor status. Low to moderate fire behavior was observed.

DRAGON COMPLEX, Grand Canyon National Park. A Fire Use Management Team (Cones) is assigned. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the Dragon, Spine, Basin and Marble fires is being managed to accomplish resource objectives. This complex is 10 miles north of Grand Canyon Village, AZ in mixed conifer, ponderosa pine, aspen and dead and down fuel. The north side of the fire remains active. Portions of the fire received rain which moderated fire behavior.

TOMAHAWK, Arizona State. This fire is five miles southeast of Apache Junction, AZ in grass and heavy brush. The fire is burning in deep washes with heavy fuels. Gusty winds resulted in very active fire behavior, along with isolated torching within the interior.

AK CHIN, Arizona State. This fire is 22 miles northwest of Casa Grande, AZ in grass and brush. Evacuation order has been lifted. Interior torching with isolated hot spots was reported.

WILLOW, Gila National Forest. This fire is seven miles southwest of Reserve, NM in grass and understory, ponderosa pine litter, pinyon and juniper. Isolated interior smokes and a slow backing fire to the west were reported. This fire is in a confinement strategy and will be monitored by air and ground resources.

TWO BAR, Tonto National Forest. This fire is six miles southwest of Roosevelt, AZ in chaparral. Backing fire in brush with short upslope runs was reported. A burn out operation is planned.

KNOLES, Tonto National Forest. This fire is 17 miles south of Young, AZ in timber litter and understory. Spotted owl habitat and wilderness area are threatened. Active backing fire, isolated upslope runs, short range spotting and isolated torching were reported. Suppression efforts are being hampered by rugged terrain and extreme fire behavior.

GREENBACK, Tonto National Forest. This fire is 12 miles east of Punkin Center, AZ in short grass and chaparral. Unable to view fire due to inversion. The fire is in monitor status.

MILES, Tonto National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is 10 miles north of Superior, AZ in short grass. Very active fire behavior with running and spotting was reported.

EASTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

DAMMERON, Cedar City Field Office, Bureau of Land Management. A Type 1 Incident Management Team (Sexton) is assigned. This fire is 13 miles north of St. George, UT in mixed conifer, pinyon, juniper and grass. Numerous residences remain threatened. Pine Valley Wilderness, St. George municipal watershed, power lines, desert tortoise habitat, and archeological sites are threatened. Fire behavior included running, spotting and crowning. Significant up canyon runs in the wilderness area were reported. This fire is very active on northeast and east flanks.

MONROE, Payette National Forest. This fire is nine miles north of Weiser, ID in grass and brush. Structures are threatened and structure protection is in progress. No further information was received.

TANK, Arizona Strip Field Office, Bureau of Land Management. This fire is 60 miles north of Peach Springs, AZ in pinyon, juniper, grass and brush. Spotting, crowning, torching and running were reported. Suppression efforts are being hampered by difficult access.

CLOVER, Twin Falls District, Bureau of Land Management. A Type 2 Incident Management Team (Saleen) is assigned. This fire is 30 miles south of Hammett, ID in grass and brush. Structures, power lines, sage grouse and wild horse habitat, grazing allotments, range improvements, agricultural land remain threatened. Interior continues to burn.

HAY, Moab Field Office, Bureau of Land Management. This fire is 43 miles northwest of Grand Junction, CO in pinyon, juniper, spruce and brush. Creeping with isolated torching was reported. Oil and gas facilities are threatened. Crews made progress in securing and holding two divisions.

DRY FORK, Vernal Field Office, Bureau of Land Management. This fire is 12 miles northwest of Vernal, UT in timber, grass and understory. Interior torching and creeping along the perimeter and running in light fuels were observed.

FRISCO, Cedar City Field Office, Bureau of Land Management. This fire is 10 miles northwest of Milford, UT in pinyon, juniper and grass. Isolated torching was observed. The fire is moving to the northeast in steep and inaccessible terrain.

WHITE KNOLL, Manti-Lasal National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is 34 miles southwest of Price, UT in timber litter, aspen and beetle-killed spruce. Active fire behavior with rollouts, short runs and short range spotting was reported. The fire perimeter is growing primarily to the west.

SHEEP CREEK, Ashley National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is 20 miles southwest of Manila, UT in timber litter and lodgepole pine. Creeping ground fire was reported.

WESTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

WILSON COMPLEX, Nevada Division of Forestry, Northern Region. A Type 2 Incident Management Team (Suwyn) is assigned. This complex, comprised of the Wilson, Petan and Rawhide fires, is 75 miles northwest of Elko, NV in cheatgrass and sagebrush. Livestock, wildlife forage and habitat are being threatened. Minimal fire activity was reported.

ESMERELDA, Elko Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Muir) is assigned. This fire is 46 miles northeast of Battle Mountain, NV in sagebrush and grass. Structure protection is in place for Tuscarora. Trout, sage grouse and big game habitat, critical deer winter range and livestock forage are threatened. Extreme rates of spread and significant runs were reported in the afternoon.

EKD = Elko Field Office, Bureau of Land Management

ROCKY MOUNTAIN AREA INCIDENTS / LARGE FIRES:

TRAIL EAST, San Juan Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Blume) is assigned. The Team is also managing the Dwelling fire. This fire is nine miles southwest of Hesperus, CO in pinyon and juniper. Isolated torching, smoldering, creeping and interior burn out of heavy fuels were observed. The reduction in acreage is due to more accurate mapping.

DWELLING, Ute Mountain, Ute Agency, Bureau of Indian Affairs. A Type 2 Incident Management Team (Blume) is assigned. This fire is being managed in conjunction with the Trail East fire. This fire is 14 miles southwest of Hesperus, CO in, timber litter and understory, pinyon, juniper and grass. Isolated torching and heavy burn out of interior fuels were reported.

CRAIG DRAW, Uncompahgre Field Office, Bureau of Land Management. This fire is four miles east of Norwood, CO in timber litter and brush. Fire is burning in the San Miguel river area, and can be seen from the Unawep Tabeguache National Scenic and Historic Byway. River boating is temporarily curtailed due to rolling debris. Creeping, backing and occasional single tree torching were observed. Dozer line on the Mesa top is holding. Significant progress has been made in holding the fire within the river canyon breaks.

SAGE HEN, Rawlins Field Office (South Zone), Bureau of Land Management. This fire is 25 miles northeast of Jeffrey City, WY in limber pine, juniper, sage and grass. Smoldering of the interior was reported.

PACK TRAIL, White River Field Office, Bureau of Land Management. A Fire Use Management Team (Cook) is assigned. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. This fire is 10 miles west of Meeker, CO in timber litter and brush. Fire exhibited some surface fire spread with isolated individual and group tree

torching and short range spotting. Primary spread has been to the north. Preparation work for a burn out operation is completed on the northeast side of the fire at identified management action points.

NORTHERN ROCKIES AREA INCIDENTS / LARGE FIRES:

BIG HORN, Crow Agency, Bureau of Indian Affairs. A Type 2 Incident Management Team (Larsen) is assigned. This fire is 44 miles southeast of Billings, MT in timber, juniper and sage. Heavy fuels and steep terrain are impeding control efforts. Single tree torching and burning of interior islands were observed.

JOHNNY RIDGE, Beaverhead/Deerlodge National Forest. This fire is 20 miles south of Ennis, MT in mixed conifer. Spotting and isolated torching were observed.

BRANDON COULEE, Charles M. Russell National Wildlife Refuge, Fish and Wildlife Service. This fire is 55 miles south of Malta, MT in sage and grass. The fire is in aerial patrol status. No new information is received.

ALASKA AREA INCIDENTS / LARGE FIRES:

BOUNDARY CREEK, Alaska Fire Service, Upper Yukon Zone. A Type 2 Incident Management Team (Chrisman) is assigned. This fire started on Alaska Native Claims Settlement Act land six miles southeast of Eagle, AK in black spruce, hardwood litter and understory. Cabins and outbuildings remain threatened. Increased burning in surface fuels within the perimeter, no significant growth occurred. Crews continue to prepare for planned burn out operations.

FOX CREEK, Kenai-Kodiak Area Forestry, Alaska Division of Forestry. This incident is being managed to accomplish resource objectives. This fire is 35 miles southeast of Soldotna, AK in beetle-killed spruce, hardwoods, timber litter and understory. Smoldering and creeping were observed. Reduction in acreage is due to more accurate mapping.

SCU = Santa Clara Unit, California Department of Forestry and Fire Protection

NORTHWEST AREA INCIDENTS / LARGE FIRES:

WOLFE POINT, Warm Springs Agency, Bureau of Indian Affairs. This fire is six miles northeast of Warm Springs, OR in scattered juniper, grass and sagebrush. Eastern edge of fire is in inaccessible terrain. Moderate fire behavior was observed at the end of the day.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD	ORIGIN OWN
WOLFE POINT	OR	WSA	2,000	0	7/20	101	4	5	2	0	50K	BIA

SOUTHERN AREA INCIDENTS / LARGE FIRES:

HURRICANE DENNIS RESPONSE, Federal Emergency Management Agency (FEMA). A Unified Command between a Type 1 Incident Management Team (Custer) and a Florida State All-Risk Incident Management Team (Koehler) is in place at Duke Field, Eglin Air Force Base, FL. A transition plan has been finalized and the Teams are in the process of demobilizing. A Florida State All-Risk Incident Management Team (Hill) has demobilized. A Type 1 Incident Management Team (Feser) is in place at Maxwell Air Force Base, AL. The Teams are managing receiving and distribution centers, points of distribution and Logistical Staging Areas. The teams are working in cooperation with the National Guard, Florida Division of Forestry, the Florida State Emergency Response Team, Alabama Department of Transportation and Emergency Management Agency, Army Corps of Engineers, American Red Cross, and the military. A National Park Service All-Risk Incident Management Team (Panko) is managing the rehabilitation and recovery work at Gulf Islands National Seashore, FL.

OUTLOOK:

Fire Weather Watch: For afternoon and evening isolated dry thunderstorms, low relative humidity and gusty winds in northeast California and northwest Nevada.

Weather Discussion: The strong upper high centered over southern Utah will continue the hot weather over most of the West. Westerly flow aloft will persist across the Pacific Northwest and Northern Rockies. In Alaska, scattered showers are on tap for much of the state.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
<p>Rocky Mountain: Mainly dry. Isolated dry thunderstorms over central and southern Colorado.</p>	<p>Upper 90's to 100 for western Colorado, Front Range Colorado and eastern plains, with 80's and 90's elsewhere (70's and 80's mtns).</p>	<p>5 to 10% southwest Colorado, central Wyoming. 12 to 20% across the Front Range of Colorado and the rest of Wyoming. 25 to 35% elsewhere.</p>	<p>West 10 to 20 mph in western and southern Wyoming. Southern flow of 10 to 25 mph across eastern plains.</p>
<p>Eastern Great Basin: Mostly sunny, but isolated afternoon thunderstorms over Utah mountains.</p>	<p>Idaho, Bridger-Teton: 75 to 88 mountains, 89 to 100 valleys. northern Utah: 82 to 92 mountains, 92 to 104 valleys. southern Utah, Arizona strip: 86 to 98 mountains, 97 to 109 valleys except 105 to 115 deep southwest Utah and Arizona strip.</p>	<p>Idaho, Bridger-Teton: 10 to 26% mountains, 11 to 20% valleys northern Utah: 14 to 19% mountains, 6 to 12% valleys. southern Utah, Arizona strip: 14 to 18% mountains, 5 to 10% valleys.</p>	<p>Idaho, Bridger-Teton: west/northwest 5 to 10 mph. Northern Utah: west 10 to 20 mph in northwest Utah, upslope/upwind 5 to 10 mph elsewhere. Southern Utah, Arizona strip: west 5 to 10 mph.</p>
<p>Southern California: Isolated thunderstorms over the mountains (except central coastal range) and deserts (except Antelope Valley). Morning, areas of low clouds and fog along the coast, otherwise sunny.</p>	<p>88 to 105 mountains. 95 to 108 valleys. 100 to 110 upper deserts. 110 to 120 lower deserts.</p>	<p>10 to 20% inland 25 to 45% coast.</p>	<p>Variable 5 to 15 mph.</p>
<p>Northern California: Sunny, except areas of fog or low clouds along and near the coast.</p>	<p>95 to 107 in hotter inland valleys. 80's and low in 90's high terrain inland, and 60's to 70's at or near the coast.</p>	<p>From 10 to 22% drier. Inland areas to 55% or greater close to the coast.</p>	<p>Increasing in the afternoon to south to west 5 to 13 mph, with local gusts 18 to 28 mph from the Cascade/ Sierra crest eastward. Coastal seabreeze gusts to lower 20's.</p>

<p>Western Great Basin: Mostly sunny and hot, with isolated to scattered afternoon thunderstorms over western Nevada, isolated thunderstorms over central Nevada.</p>	<p>North valleys: 92 to 108. South valleys: 98 to 114. Mountains: 80 to 96.</p>	<p>North valleys: 6 to 15%. South valleys: 8 to 12%. Mountains: 10 to 30%.</p>	<p>Westerly 10 to 15 mph with afternoon gusts 25 mph in the northern 1/3 of the state, southwest to west 5 to 15 mph in central and south.</p>
