

**INCIDENT MANAGEMENT SITUATION REPORT
SATURDAY, AUGUST 20, 2005 – 0800 MDT
NATIONAL PREPAREDNESS LEVEL 3**

CURRENT SITUATION:

Initial attack activity was light nationally with 77 fires reported. Two new large fires were reported, one each in the Northern California and Northwest Areas. Four large fires were contained, two in the Northern Rockies, and one each in the Eastern and Southern Areas. Very high to extreme fire indices were reported in Alaska, California, Idaho, Montana, Nevada, Oregon, and Washington.

NORTHERN ROCKIES AREA INCIDENTS / LARGE FIRES:

CLEAR RED COMPLEX, Nez Perce National Forest. A Type 1 Incident Management Team (Bennett) is assigned. The team will assume command of the Blackerby fire today. This complex, comprised of the Upper Meadow, Meadow II, and several smaller fires is 12 miles southeast of Elk City, ID in timber. Private residences, commercial property, cultural and historic sites are threatened. Steep terrain and lack of road access are hampering containment efforts. Some group torching was observed on southwest facing slopes. One division reported occasional spotting across the fireline. The remainder of the fire experienced creeping and occasional torching.

CHINA TEN, Nez Perce National Forest. A Type 2 Incident Management Team (Thomas) is assigned. This fire is 15 miles east of Grangeville, ID in beetle killed lodgepole pine and subalpine fir. The fire is adjacent to a significant Native American cultural area. Fire behavior continues to be moderate with isolated torching observed. Area closure remains in effect. The Incident Management Team will assume partial management of the Blackerby fire.

PROSPECT, Lolo National Forest. A Type 2 Incident Management Team (Cowin) is assigned. This fire is 12 miles south of Superior, MT in timber. Poor access and heavy fuels continue to hinder containment efforts. Active surface fire and individual tree torching were reported. Trailheads along Trout Creek Road will be reopened today.

SELWAY-SALMON COMPLEX, Bitterroot National Forest. A Fire Use Management Team (Cook) is assigned. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the El Capitan, Wapiti, Beaverjack, Elk Lake and numerous other fires, is 26 miles southwest of Hamilton, MT in timber. This complex, burning on both the Salmon-Challis and Bitterroot National Forests, is being managed to accomplish resource objectives. Deep Creek Campground, Hells Half Acre Lookout, Coopers Flat Ranger Station, and Magruder Work Center remain potentially threatened; structure protection is in place. Magruder Corridor Road is closed to through traffic. Recreation trail closures are in effect. Three foot flame lengths with occasional single tree torching were observed.

SIGNAL ROCK, Beaverhead/Deerlodge National Forest. A Type 2 Incident Management Team (Benes) is assigned. The fire is 17 miles southwest of Philipsburg, MT in timber, and is being managed in conjunction with the Rockin incident. Burn out operations began on the north and east flanks. The incident reported active surface fire with single and group tree torching.

CEDAR, Clearwater National Forest. This fire is 18 miles northwest of Kooskia, ID in timber. Structure protection is in place. A guard station, campground and trailhead are threatened. Creeping and isolated torching were observed.

DEVIL, Clearwater National Forest. This fire is 13 miles west of Lochsa, ID in timber and brush. Steep terrain is impeding containment efforts. The fire continues to creep and smolder. No further information was received.

LONG BLACK COMPLEX, Clearwater National Forest. This complex, comprised of the Long Creek and Black Canyon fires, is 38 miles northeast of Pierce, ID in timber. Steep terrain, abundant snags and limited access continue to hamper containment efforts. Isolated single and group torching, smoldering, and surface fire were observed on the Black Canyon fire. The long Creek fire is being monitored by air.

ROCKIN, Bitterroot National Forest. A Type 2 Incident Management Team (Benes) is assigned. This fire is 10 miles northwest of Darby, MT in timber. Narrow canyons, steep and rocky terrain continue to hamper containment efforts. The fire continued to burn in the large downed fuels. The Incident Command Post will move to the West Fork Work Camp tomorrow to manage the Signal Rock fire.

SPONGE CREEK, Clearwater National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning 35 miles southeast of Pierce, ID in timber. Drier weather conditions contributed to an increase in acreage. This will be the last narrative report unless significant activity occurs.

BRUSHY FORK, Nez Perce National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning 30 miles northwest of Darby, MT in timber. The fire is in monitor status. This will be the last narrative report unless significant activity occurs.

NORTHWEST AREA INCIDENTS / LARGE FIRES:

BLOSSOM COMPLEX, Siskiyou National Forest. A Unified Command has been established between a Type 1 Incident Management Team (Lohrey) and an Oregon Department of Forestry Incident Management Team (Hunt). This complex, comprised of the Blossom, Huggins and Solitude fires, is 25 miles northeast of Gold Beach, OR in timber. Private structures, commercial rafting sites, and wildlife habitat along the Rogue River remain threatened. Inaccessible terrain and heavy fuel loading are hampering containment efforts. Fire behavior is low to moderate as fire continues to back downslope from burn out operations.

BURNT CABIN, Umatilla National Forest. A Type 2 Incident Management Team (Johnson) is assigned. This fire is 16 miles southeast of Milton-Freewater, OR in timber. Residences, commercial properties, and a water source for Walla Walla, WA are threatened. Fire behavior increased in the more exposed fuels, with active surface fire movement from grass areas into timber.

TRYON COMPLEX, Wallowa-Whitman National Forest. A Type 2 Incident Management Team (Lunde) is assigned. This complex, comprised of the Haas Ridge, Tryon and Cherry Creek fires, is 20 miles north of Imnaha, OR in timber and grass. The fire continues to smolder in pockets of heavy fuels.

MULE PEAK, Wallowa-Whitman National Forest. This fire is 20 miles southeast of La Grande, OR in timber. Steep terrain, limited access and heavy fuels are hampering containment efforts. Creeping and smoldering fire behavior were observed. No further information was received.

CAVE, Deschutes National Forest. This fire is 12 miles southeast of Bend, OR in tall grass and hardwood litter. Torching, running and spotting were reported.

GRANITE COMPLEX, Wallowa-Whitman National Forest. A Wildland Fire Use Team (Cones) is assigned. This lightning-caused Wildland Fire Use (WFU) incident is 30 miles east of Enterprise, OR in timber and grass. Structure protection remains in place for the historic Sheep Creek Ranch Cabin and associated structures. Creeping and smoldering fire behavior were observed.

ALASKA AREA INCIDENTS / LARGE FIRES:

BOUNDARY CREEK, Alaska Fire Service, Upper Yukon Zone, Bureau of Land Management. This fire started on Alaska Native Claims Settlement Act land six miles southeast of Eagle, AK in black spruce and hardwood litter. A portion of the fire is in Canada. Heavy smoke continues to obscure visibility along the Taylor Highway. Road hazard mitigation is continuing along Taylor Highway. Some group torching and 25-foot flame lengths were reported.

BEAVER CREEK, Alaska Fire Service, Upper Yukon Zone, Bureau of Land Management. This fire is 45 miles northwest of Fairbanks, AK in black spruce. The Wildwood Subdivision remains threatened. Traffic along the Elliott Highway serving Prudhoe Bay is disrupted. Running with crown fire was reported. Structure protection continues and highway traffic patrols are being provided due to heavy smoke.

GRAYLING CREEK, Alaska Fire Service, Galena Zone, Bureau of Land Management. This fire is 15 miles northwest of Anvik, AK in timber. Smoky conditions are hampering aerial operations and logistical support. No further information was received.

COLEEN MOUNTAIN, Alaska Fire Service, Upper Yukon Zone, Bureau of Land Management. This fire is 40 miles northeast of Chalkyitsik, AK in black spruce, hardwoods and grasses. Native allotments and cabins at the historic John Herberts Village are threatened. Defensible space around the structures is being improved. Creeping and smoldering with isolated torching were reported.

SQUIRREL CREEK, Alaska Fire Service, Upper Yukon Zone, Bureau of Land Management. This fire started on Fish and Wildlife Service land 25 miles east of Ft. Yukon, AK in timber and grass. Native allotments and a cabin are threatened. Primary access to the fire is via boat on the Yukon River. Structure protection measures are in place. The incident reported smoldering and backing fire with four to five foot flame lengths in isolated black spruce pockets.

EASTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

FRANK CHURCH, Payette National Forest. A transfer of command from a Fire Use Management Team (Bonefeld) to another Fire Use Management Team (Hahnenberg) is scheduled for today. This lightning-caused Wildland Fire Use (WFU) incident, comprised of the Bear Creek, Root, Center Mountain, Missouri Ridge and other fires is 50 miles northeast of McCall, ID in timber. The fire is being managed to accomplish resource objectives. The incident reported isolated torching, spotting and slow to moderate rates of spread.

NORTHERN CALIFORNIA AREA INCIDENTS / LARGE FIRES:

NANAKULI, Honolulu County. This fire started on private land 16 miles west of Honolulu, HI in grass and timber. Steep terrain with limited access is a concern. Flareups continue to occur. The fire is in monitor status.

WEIKELE, Honolulu County. This fire started on county land 12 miles northwest of Honolulu, HI in grass and brush. Steep terrain with dry fuels is a concern. Private residences are threatened. Extreme fire behavior was observed during the peak of the burning period.

OUTLOOK:

Weather Discussion: A warming trend will continue over the West as high pressure builds over the region. A south to southwest flow aloft will spread moisture into Nevada for an increasing threat of thunderstorms. In Alaska, a low pressure trough will move from the west coast into the central interior.

| Geographic Area Weather | High Temperatures | Minimum Relative Humidity | Wind |
|---|---|--|--|
| Northern Rockies Warmer, drier conditions are expected as a ridge of high pressure moves into the Northern Rockies from the west. Winds gusty across eastern North Dakota. | 80s with 70s North Dakota. | West of divide: 15 to 25%. East of divide: 20 to 30%. North Dakota: 30 to 45%. | West of divide: diurnal winds to 15 mph. East of divide: northeast 5 to 10 mph. North Dakota: northwest 10 to 20 mph. |
| Northwest Sunny, warm and dry. | Mostly 80s and 90s. | West of Cascades: 40 to 50% at the coast and 20 to 35% inland. Eastside: 10 to 20%. | West of Cascades: west 5 to 15 mph. Eastside: variable 5 to 10 mph. |
| Northern California Mostly sunny inland, with areas of low clouds or fog near the coast. | 70s to mid 80s mountains, 90s to 102 warmest inland valleys. | 15 to 25% drier inland areas. | Afternoon wind southwest to west/northwest 3 to 12 mph and locally gusty. |
| Southern California Morning low clouds and fog into the coastal valleys, otherwise mostly sunny. | 75 to 90 mountains. 90 to 100 valleys. 90 to 100 upper deserts. 100 to 110 lower deserts. | 10 to 25%. | Southeast to southwest 5 to 15 mph. |
| Western Great Basin Mostly sunny in the north, partly cloudy along the Sierras. East and southeast, isolated afternoon thunderstorms, mostly dry. | North Valleys: 84 to 98. South Valleys: 85 to 105. Mountains: 72 to 84. | North Valleys: 10 to 20%. South Valleys: 12 to 20%. Mountains: 18 to 25%. | South to southwest 5 to 10 mph with afternoon gusts of 20 mph in the northern half of the state. |
| Eastern Great Basin Idaho, Bridger-Teton: Mostly sunny. Northern Utah: Partly cloudy. Scattered showers and thunderstorms, mainly mountains. Southern Utah, Arizona Strip: Scattered showers and thunderstorms. | Idaho, Bridger-Teton: 65 to 80 mountains, 78 to 95 valleys. Northern Utah: 73 to 83 mountains, 83 to 92 valleys. Southern Utah, Arizona Strip: 72 to 88 mountains, 85 to 99 valleys, 100 to 105 in the Lake Mead area. | Idaho, Bridger-Teton: 20 to 35% mountains, 12 to 20% valleys. Northern Utah: 20 to 30% mountains, 12 to 20% valleys. Southern Utah, Arizona Strip: 25 to 35% mountains, 15 to 25% valleys. | Idaho, Bridger-Teton: Upslope/upvalley 3 to 8 mph. Northern Utah: Upslope/upvalley 5 to 10 mph. Southern Utah, AZ Strip: Upslope 3 to 7 mph. |

http://www.nifc.gov/sixminutes/dsp_sixminutes.php

IN COUNTRY NOT SEEN IN DAYLIGHT

Often firefighters arrive on a fire after dark. This is recognized as Watchout Situation #2. Before safely fighting fire in country not seen in daylight, firefighters must be able to answer the following questions:

- Can the resources you are replacing give you a thorough briefing? Identify whom you might get information from. Can you meet up with the departing crew/engine leaders?
- Can you observe the area/use scouts? List ways you could observe the area you need to work.
- Have escape routes and safety zones been thoroughly scouted and marked for night use? Talk about what constitutes an escape route and a safety zone; who would identify them; and in what ways might they be marked.
- Have potential dangers been located; can they be mitigated? What are the dangers associated with Watchout Situation #2? How can they be worked around?
- Reduce the risks by:
 - Posting lookouts.
 - Checking communications.
 - Retreat if you have doubts about your escape routes or safety zones or the situation becomes too complex. Give examples of arriving on a fire after dark and what was done to allow you to fight fire safely in country not seen in daylight.
