

**INCIDENT MANAGEMENT SITUATION REPORT**  
**SATURDAY, JUNE 24, 2006 – 0800 MDT**  
**NATIONAL PREPAREDNESS LEVEL 3**

**CURRENT SITUATION:**

Initial attack activity was light nationally with 138 new fires reported. One new large fire (\*) was reported in the Eastern Great Basin Area and one large fire was contained in the Southern Area. Very high to extreme fire indices were reported in Arizona, California, Montana, Utah, Colorado, Nebraska, New Mexico, Nevada, North Dakota, Texas and Wyoming.

**SOUTHWEST AREA INCIDENTS/LARGE FIRES:**

An Area Command Team (Loach) is assigned to manage the Reserve, Skates, and Bear fires on the Gila National Forest.

BRINS, Coconino National Forest. A Type 1 Incident Management Team (Broyles) is assigned. This fire is two miles northeast of Sedona, AZ in brush, chaparral and timber. Evacuations in the Oak Creek Canyon remain in effect and Highway 89A is still closed. Numerous residences, structures, endangered species, the Oak Creek watershed and Scenic Highway remain threatened. Extreme fire behavior with spotting up to a quarter mile was observed.

BEAR, Gila National Forest. A Type 1 Incident Management Team (Dietrich) is assigned. This fire is 15 miles northeast of Glenwood, NM in mixed conifer. Numerous residences, wildlife habitat and historical cabins remain threatened. Fire activity on the southwest corner remains a threat to portions of Willow Creek. Isolated torching and spotting were reported. Limited spread of the fire was due in part to higher relative humidity.

RIVERA MESA, Las Vegas District, New Mexico State Forestry. A Type 2 Incident Management Team (Lineback) is assigned. This fire is five miles northeast of Ocate, NM in timber, grass and scrub oak. County Road 21 remains closed. Some precipitation was received on the fire. Moderate fire behavior was reported.

WARM, Kaibab National Forest. A Fire Use Management Team (Hahnenburg) is assigned. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning three miles south of Jacob Lake, AZ in ponderosa pine and hardwood litter. Jacob Lake development area, administrative sites, a historical Ranger Station and private & public campgrounds remain threatened. Highway 89A will be closed during burnout operations. Active fire spread was due to plume dominated fire behavior.

SKATES, Gila National Forest. A Type 2 Incident Management Team (Philbin) is assigned. This fire is 12 miles northeast of Silver City, NM in timber. Fire activity was minimal due to precipitation.

RESERVE COMPLEX, Gila National Forest. A transfer of command from a Type 1 Incident Management Team (Whitney) to a Type 2 Incident Management Team (Lund) has begun. This complex, comprised of the Wilson and Martinez fires, is located near Reserve, NM in ponderosa pine, pinyon pine, juniper and grass. Winds generated by passing thunderstorm cells in the area are a concern. Smoldering and creeping fire behavior was reported.

EICKS DRAW, Socorro District, New Mexico State Forestry. This fire is 35 miles south of Animas, NM in grass, juniper and mixed conifer. Steep rocky terrain is impeding containment efforts. Moderate fire behavior was reported. The fire is moving to the north and west.

BARTLETT, Cimarron District, New Mexico State Forestry. This fire is five miles north of Raton, NM in ponderosa pine, pinyon pine, juniper and grass. Strong gusty winds and rugged terrain are impeding containment efforts. Smoldering fire behavior was reported.

BEAVERHEAD, Apache-Sitgreaves National Forest. This fire is 15 miles south of Alpine, AZ in timber. No new information was reported.

POTATO COMPLEX, Apache-Sitgreaves National Forest. This complex is ten miles northwest of Heber-Overgaard, AZ in pinyon pine, juniper and grass. No new information was reported.

NAVAJO MOUNTAIN 1, Navajo Regional Office, Bureau of Indian Affairs. This fire is northeast of Page, AZ in timber. No new information was reported.

### ROCKY MOUNTAIN AREA INCIDENTS/LARGE FIRES:

MATO VEGA, Costilla County. A Type 2 Incident Management Team (Blume) is assigned. This fire is 12 miles northeast of Fort Garland, CO in timber, logging slash and grass. Numerous residences, an FAA communication site and commercial resources remain threatened. The evacuation order for the Wagon Creek subdivision has been lifted. Highway 160 is reopened to traffic, under the control of pilot car. Single tree torching, smoldering and creeping were observed.

ISABELLE, Southern Medicine Bow National Forest. A Type 2 Incident Management Team (Mullenix) is assigned. This fire is 25 miles southwest of Laramie, WY in timber, sage and grass. Numerous residences and structures remain threatened. Poor access continues to hamper containment efforts. Moderate to low fire behavior with smoldering, creeping and single tree torching was reported.

JOLLY MESA, Glenwood Springs Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Reid) has been ordered. This fire is three miles west of Newcastle, CO in pinyon pine, juniper and grass. Dry fuels, low humidity and steep terrain are hampering containment efforts. Numerous structures, natural gas lines, high voltage powerlines and Colorado State Wildlife Area are threatened. Moderate fire spread with torching and isolated spotting was reported.

### EASTERN GREAT BASIN AREA INCIDENTS/LARGE FIRES:

LION CREEK, Manti-Lasal National Forest. A Type 2 Incident Management Team (Thomas) is assigned. This fire is five miles northwest of Paradox, CO in ponderosa pine, pinyon pine, brush and grass. Rural homes, Buckeye Campground and timber are threatened. Road closures remain in effect for the fire area. The reduction in acreage is due to more accurate mapping. Smoldering fire behavior was observed.

POT HOLE, Northeast Area, Utah State Division of Forestry Fire and State Lands. This fire is 25 miles northeast of Vernal, UT in sagebrush, grass and timber. Pot Creek Road is closed. Private land and several residences are threatened. Extreme fire behavior with running and torching was reported.

### SOUTHERN CALIFORNIA AREA INCIDENTS/LARGE FIRES:

PERKINS, Los Padres National Forest. A Type 1 Incident Management Team (Feser) is assigned. This fire is south of Cuyama, CA in brush and grass. Limited access, rugged terrain and gusty winds continue to impede containment efforts. Road closures are in effect for portions of the Forest. The fire continued to spread to the south and west with most of the activity well within the burn area.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD	ORIGIN OWN
PERKINS	CA	LPF	14,988	78	UNK	1,006	38	31	8	7	3.1M	FS

### SOUTHERN AREA INCIDENTS/LARGE FIRES:

GLASS MOUNTAIN COMPLEX, Texas Forest Service. A Type 2 Incident Management Team (Hannemann) is assigned. This complex is 15 miles northwest of Marathon, TX in grass, brush

and timber. High temperatures and low relative humidity remain a concern. Minimal fire behavior on most areas of the fire was reported. The increase in acreage is due to more accurate mapping.

DEERFLY, Florida Division of Forestry. This fire is 15 miles northwest of Coral Springs, FL in pine and grass. High rates of spread with spotting were reported.

AIRBOAT, Everglades National Park. This fire is 15 miles northwest of Homestead, FL in saw grass. The fire is being managed in a confine/contain strategy and is being monitored from the air. This will be the last report unless significant activity occurs.

SCOTTS FERRY, Florida Division of Forestry. This fire is 20 miles northeast of Panama City, FL in southern rough. Difficult access is hampering containment efforts. Creeping fire behavior was reported.

RENTIESVILLE, Oklahoma Division of Forestry. This fire started on private land three miles east of Rentiesville, OK in hardwood timber and litter. No new information was reported.

HORSE, Oklahoma Division of Forestry. This fire is six miles northeast of Braggs, OK in hardwood litter. No new information was reported. This will be the last report unless new information is received.

#### ALASKA AREA INCIDENTS/LARGE FIRES:

PARKS HWY, Fairbanks Area Forestry, Alaska Division of Forestry. This fire is one mile southeast of Nenana, AK in black spruce, tundra and grass. Numerous residences, native allotments, recreational cabins, commercial property and utility infrastructure remain threatened. Weather forecasts predict a drying trend for the next few days. Smoldering and isolated torching were reported.

## OUTLOOK:

**Weather Discussion:** Moisture will be increasing over portions of the West this weekend for a gradual increase in thunderstorm activity. Strong high pressure will also bring hot weather to much of the West. In Alaska, high pressure building over the state will bring warmer and drier weather to the interior.

<b>Geographic Area Weather</b>	<b>High Temperatures</b>	<b>Minimum Relative Humidity</b>	<b>Wind</b>
<p><b>Southwest Area</b> Mostly sunny, hot and dry across northern Arizona and northwest New Mexico, with a few dry thunderstorms along the Mogollon Rim and western portion of the continental divide in northwest New Mexico. Partly cloudy with widely scattered mixed wet/dry storms southern Arizona and the remainder of western New Mexico. Scattered wet thunderstorms east of the Rio Grande.</p>	<p>90 to near 110 lower elevations. 70 to 90 across the mountains.</p>	<p>5 to 15% much of Arizona and the northwest third of New Mexico. 15% to 25% southeast Arizona and remainder of western New Mexico. 25% to 35% west Texas and eastern New Mexico.</p>	<p>North to northeast 10 to 15 mph with gusts to 25 mph northern Arizona and northwest New Mexico. East to southeast 10 to 20 mph eastern New Mexico and west Texas. Variable 5 to 15 mph southern Arizona and remainder of western New Mexico.</p>
<p><b>Rocky Mountain Area</b> Widely scattered thunderstorms in eastern sections, dry in the west. Isolated dry lightning in the southern Colorado Front Range.</p>	<p>Lower 80s in most locations, except near 95 in western Colorado, and 65 to 75 in the mountains.</p>	<p>Minimum humidity will be lowest across southern/western Colorado into southwest Wyoming with values ranging from 5% to 15%, and values from 20% to 35% elsewhere.</p>	<p>From the northwest west of the divide with speeds ranging from 5 to 15 mph. Easterly flow is forecast for areas east of the divide with speeds ranging from 5 to 15 mph.</p>
<p><b>Eastern Great Basin Area</b> Idaho, Bridger-Teton: Mostly sunny.  Northern Utah: Sunny.  Southern Utah, Arizona Strip: Sunny.</p>	<p>Idaho, Bridger-Teton: 68 to 80 mountains, 80 to 93 valleys. Northern Utah: 76 to 86 mountains, 85 to 98 valleys, Southern Utah, Arizona Strip: 83 to 95 mountains, 95 to 114 valleys. 114 to 117 low deserts.</p>	<p>Idaho, Bridger-Teton: 17 to 23% mountains, 11 to 17% valleys. Northern Utah: 13 to 20% mountains, 9 to 15% valleys. Southern Utah, Arizona Strip: 9 to 11% mountains, 3 to 9% valleys.</p>	<p>Idaho, Bridger-Teton: Upslope/upvalley 5 to 10 mph. Northern Utah: Upslope/upvalley 5 to 10 mph. West 10 to 20 mph at ridgetops. Southern Utah, AZ Strip: Upslope/upvalley 5 to 10 mph. North/northeast 10 to 20 mph at ridgetops.</p>
<p><b>Southern California Area</b> Morning low clouds and fog coastal areas, otherwise partly cloudy with a few afternoon thunderstorms over the Sierra and over the mountains and deserts of Southern California mainly east of Cajon Pass.</p>	<p>85 to 100 mountains. 100 to 110 valleys. 100 to 110 upper deserts. 110 to 120 lower deserts.</p>	<p>30 to 50% coastal areas. 10 to 20% valleys. 5 to 15% mountains. 5 to 15% deserts.</p>	<p>Northeast to southeast 5 to 15 mph.</p>
<p><b>Alaska Area</b> Partly to mostly cloudy with scattered showers. Chance of thunderstorms in the far eastern interior. Cloudy with showers in south central.</p>	<p>50s and 60s in the west and south to 70s in the central interior.</p>	<p>25 to 40% in the interior. Above 40% in south central and southwest.</p>	<p>South to southwest winds 10 to 20 mph.</p>

<b>Geographic Area Weather</b>	<b>High Temperatures</b>	<b>Minimum Relative Humidity</b>	<b>Wind</b>
<b>Western Great Basin Area</b> Hot with an isolated dry thunderstorm along the Sierra Crest south of Lake Tahoe, mostly sunny elsewhere with some cumulus buildups over the mountains of central Nevada.	N. valleys: 90 to 103. S. valleys: 99 to 119. N. mountains: 80 to 90. S. mountains: 88 to 98.	N. valleys: 4 to 14%. S. valleys: 3 to 10%. N. mountains: 8 to 18%. S. mountains: 5 to 10%.	Variable but mainly from the north at 6 to 12 mph by late in the day.
<b>Northern California Area</b> Sunny, hot and dry. Record to near-record heat expected.	90s to near 111 valleys and lower slopes, 80s higher elevations.	6 to 25%.	Morning winds NW to NE 3 to 8 mph, afternoon wind mostly W to N 3 to 13 mph and locally gusty.
<b>Northern Rockies Area</b> Upper level ridge will bring warm and dry conditions with sunny skies to Idaho and Montana. North Dakota will be under cooler northwest flow with partly cloudy skies and a chance of thundershowers.	West of divide: 80 to 90. East of divide: 80 to 90. North Dakota: 70 to 80.	West of divide: 15 to 25%. East of divide: 25 to 35%. North Dakota: 30 to 40%.	West of divide: WNW 5 to 10 mph. East of divide: WNW 5 to 10 mph. North Dakota: N 5 to 10 mph.
<b>Southern Area</b> No information reported.

## OPERATIONAL BRIEFINGS

Operational briefings are critical to safe fire operations. To ensure a consistent and effective briefing, a standardized briefing checklist should always be used. The following checklist is printed on the cover of the NWCG Incident Response Pocket Guide:

- Situation:
  - Fire name, location, map orientation, other incidents in the area
  - Terrain influences
  - Fuel type and conditions
  - Fire weather (previous, current, and expected)
  - Fire behavior (previous, current, and expected)
- Mission/Execution:
  - Command (Incident Commander/immediate supervisor)
  - Commander's intent
  - Specific tactical assignments
  - Contingency plans
- Communications:
  - Communication Plan (tactical, command, air/ground frequencies, cell phone numbers, etc.)
  - Medivac Plan
- Service/Support:
  - Other resources that may be working adjacent to you and those available to order
  - Aviation operations
  - Logistics (e.g., transportation, supplies, equipment)
- Risk Management:
  - Identify known hazards and risks
  - Identify control measures to eliminate hazards and reduce risk
  - Identify trigger points for disengagement or reevaluation of operational plan
- Questions or Concerns
