

**INCIDENT MANAGEMENT SITUATION REPORT**  
**SATURDAY, JULY 15, 2006 – 0800 MDT**  
**NATIONAL PREPAREDNESS LEVEL 3**

**CURRENT SITUATION:**

Initial attack activity was moderate nationally with 201 new fires reported. Nine new large fires (\*) were reported, three in the Northern Rockies Area, two in the Rocky Mountain Area and one each in the Southern California, Eastern Great Basin, Western Great Basin and Southern Areas. Four large fires were contained, two in the Rocky Mountain Area and one each in the Northern Rockies and Eastern Great Basin Areas. Very high to extreme fire indices were reported in Arizona, California, Colorado, Minnesota, Montana, Nebraska, New Mexico, Nevada, North Dakota, Oregon, South Dakota, Utah, Wisconsin, and Wyoming.

**NORTHERN ROCKIES AREA INCIDENTS/LARGE FIRES:**

PINE RIDGE COMPLEX, Southern Land Office, Montana Department of Natural Resources and Conservation. A Type 1 Incident Management Team (Bennett) is assigned. This complex, comprised of five fires, is 30 miles east of Billings, MT in sagebrush and agricultural fields. Evacuations are in effect. Numerous residences, ranches, rangeland, agricultural crops, timber, powerlines, petroleum pipelines and a rest area are threatened. Extreme fire behavior with running and spotting was reported.

WATT DRAW, Miles City District, Bureau of Land Management. A Type 2 Incident Management Team (Reid) has been ordered. This fire is 13 miles southeast of Ashland, MT in grass, timber and sagebrush. Three residences, outbuildings, and grazing allotments remain threatened. Extreme fire behavior with isolated torching, running, and spotting was observed.

KING MOUNTAIN, Miles City District, Bureau of Land Management. A Type 2 Incident Management Team (Reid) is assigned. This fire is five miles south of Ashland, MT in grass and understory. Difficult terrain is hampering containment. Isolated torching and running were reported.

SAGE, North Cheyenne Agency, Bureau of Indian Affairs. This fire is 2 miles northwest of Ashland, MT in timber, grass and understory. Minimal fire behavior was reported.

BUNDY RAILROAD, Billings District, Bureau of Land Management. A Type 2 Incident Management Team (McNitt) is assigned. This fire is eight miles northeast of Warden, MT in timber, grass and sagebrush. Structures remain threatened and evacuations remain in effect. Very active fire behavior with runs to the north and northeast were observed.

HORTON-HAY, Eastern Land Office, Montana Department of Natural Resources and Conservation. A Type 2 Incident Management Team (Grant) is assigned. This fire is 35 miles southwest of Miles City, MT in ponderosa pine, grass and sagebrush. Spotting and running were reported.

IRON JAW, Eastern Land Office, Montana Department of Natural Resources and Conservation. A Type 2 Incident Management Team (Grant) is assigned. This fire is 15 miles southwest of Miles City, MT in timber and grass. No further information was received.

SHANE RIDGE, Southern Land Office, Montana Department of Natural Resources and Conservation. A Type 2 Incident Management Team (Heintz) is assigned. A transfer of command back to the local unit will occur today. This fire is 10 miles southeast of Columbus, MT in timber, grass and understory. Minimal fire behavior was observed.

SPRING CREEK, Eastern Land Office, Montana Department of Natural Resources and Conservation. A Type 2 Incident Management Team (Grant) will assume command today. This fire is 27 miles southwest of Miles City, MT. No further information was received.

### SOUTHERN CALIFORNIA AREA INCIDENTS/LARGE FIRES:

SAWTOOTH COMPLEX, San Bernardino Unit, California Department of Forestry and Fire Protection (CDF). A Unified Command has been established between a CDF Type 1 Incident Command Team (Henson) and the Forest Service. This complex, comprised of the Sawtooth, Waters, and Ridge fires, is two miles east of Yucca Valley, CA, in chaparral. This complex has merged with the Millard Complex. Repair of Burns Canyon road will aid in access. Numerous residences remain threatened. A portion of the fire has burned into the San Bernardino National Forest. Weather and steep, rocky terrain continue to impede containment efforts. Extreme fire behavior in the Mission and Dry Creek areas was observed. Rapid rate of spread and spotting were reported.

MILLARD COMPLEX, San Bernardino National Forest. A Unified Command has been established between a Type 2 Incident Management Team (Walker), The California Department of Forestry and Fire Protection (CDF), the U. S. Forest Service, and the Riverside County Fire Department. This complex, comprised of four fires; State, Jump Off, For Sure and Millard, is seven miles north of Cabazon, CA in chaparral and conifer. This complex has merged with the Sawtooth Complex. Numerous residences, municipalities, tribal interests, and cultural resources remain threatened. Extreme fire behavior was observed, with moderate spread in the Mission Creek area.

EDGEMONT, California Department of Forestry and Fire Protection (CDF). This fire is 2 miles southeast of Redlands, CA in brush and grass. Two residential subdivisions in the city of Redlands are threatened. Difficult access is impeding containment efforts. Erratic fire behavior with flame lengths up to 75 feet was reported.

### NORTHERN CALIFORNIA AREA INCIDENTS/LARGE FIRES:

CANYON, Santa Clara Unit, California Department of Forestry and Fire Protection (CDF). A CDF Type 1 Incident Command Team (Paul) is assigned. This fire is 11 miles west of Patterson, CA in chaparral. Several residences, ranches and Henry Coe State Park remain threatened. Difficult access, steep terrain, weather and heavy smoke continue to hamper containment. Very active fire behavior was reported.

MNF - Mendocino National Forest

### EASTERN GREAT BASIN AREA INCIDENTS/LARGE FIRES:

BABOON 2, Cedar City District, Bureau of Land Management. This fire is 10 miles south of Minerville, UT in cheatgrass, sagebrush, pinyon pine and juniper. Minimal fire behavior with isolated and group torching was reported.

SAGE VALLEY, Richfield Field Office, Bureau of Land Management. This fire is 10 miles north of Mills, UT in pinyon pine, juniper, grass and sagebrush. Minimal fire behavior was reported. Some interior torching in unburned pockets of fuel was observed.

WEST KANOSH, Fish Lake National Forest. This fire is six miles southwest of Kanosh, UT in brush and hardwood slash. No new information was reported.

## ROCKY MOUNTAIN AREA INCIDENTS/LARGE FIRES:

BUFFALO CREEK COMPLEX, Wyoming State Forestry (CPC Area). This fire is three miles north of Leiter, WY in grass and sage. Numerous residences, ranches and powerlines are threatened. Extreme fire behavior with running, spotting and fire whirls was reported.

THORN DIVIDE COMPLEX, Crook County. A Type 2 Incident Management Team (Lowe) is assigned. This fire is five miles south of Devils Tower National Monument, WY in timber and grass. Numerous residences, powerlines and the National Monument are threatened. Highway 14 has been closed. Torching and long range spotting were observed.

WOLF CANYON, South Dakota State. This fire is five miles east of Edgemont, SD in grass and timber. A major powerline, a radio tower and livestock grazing areas are threatened. Smoldering and single tree torching were reported.

MFx – Mofatt County

WEX – Weston County

## WESTERN GREAT BASIN AREA INCIDENTS/LARGE FIRES:

BALLY, Ely District, Bureau of Land Management. This fire is seven miles northeast of Barley, NV in brush, slash, pinyon pine and juniper. Individual torching and smoldering were observed.

KELLY POINT WFU, Lake Mead National Recreation Area. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. This fire is 51 miles northeast of Kingman, AZ on the Shivwits Plateau in hardwood litter, pinyon pine, juniper, sage and grass. Minimal fire behavior with creeping was reported. This will be the last narrative report unless significant activity occurs.

## NORTHWEST AREA INCIDENTS/LARGE FIRES:

TIN PAN, Okanogan-Wenatchee National Forest. A Fire Use Management Team (Furlong) is assigned. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. This fire is seven miles west of Lucerne, WA in timber. The fire received some light precipitation. Smoldering, creeping and interior torching were reported.

TIN PAN – WFU	WA	OWF	300	N/A	N/A	27	0	0	0	0	69K	FS

### SOUTHERN AREA INCIDENTS/LARGE FIRES:

LEWIS COUNTY, Texas Forest Service. This fire is 15 miles southwest of Abilene, TX in juniper, oak and mesquite. Evacuations and road closures are in effect. Steep terrain and dry fuels are hampering containment. Extreme fire behavior and rapid rates of spread were observed.

LINDSEY BAY, National Forests of Florida. This fire is five miles southeast of Wilma, FL in southern rough. Structural protection and an evacuation plan are in place for an adjacent community. Some light precipitation fell over the fire area, though not enough to assist in suppression efforts. Hotter and drier conditions are expected.

## OUTLOOK:

**Red Flag Warning:** For northeast Wyoming and much of South Dakota for increasing winds, low relative humidity, and hot temperatures.

**Fire Weather Watches:** Fire Weather Watch Saturday afternoon and evening for all of North Dakota and most of central and eastern Montana for very hot temperatures, low relative humidities and gusty winds. Chance of Dry Thunderstorms also exists for south-central Montana.

**Weather Discussion:** Strong high pressure covers much of the west with hot, dry weather over most areas. Westerly flow aloft continues across the Pacific Northwest and Northern Rockies. A disturbance from off the coast will track across Idaho and Montana today and bring a threat of mostly dry thunderstorms to portions of Idaho, Montana and Wyoming.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
<p><b>Northern Rockies</b> Very hot and dry conditions will prevail. Expect partly cloudy skies with gusty afternoon west winds. There is a chance for some isolated dry thunderstorms late afternoon into early evening over south central Montana.</p>	<p>West of divide: 80 to 90. East of divide: 93 to 103. North Dakota: 93 to 103.</p>	<p>West of divide: 15 to 25%. East of divide: 10 to 20%. North Dakota: 10 to 20%.</p>	<p>West of divide: west 10 to 15 mph. East of divide: west 10 to 20 mph with locally higher gusts. North Dakota: west 10 to 20 mph with locally higher gusts.</p>
<p><b>Southern California</b> Patchy morning low clouds and fog coastal areas, otherwise mostly sunny, except becoming partly cloudy with isolated afternoon thunderstorms over the mountains and deserts of Southern California east of Cajon Pass, over the Sierra, and Inyo.</p>	<p>85 to 100 mountains. 100 to 110 valleys. 100 to 110 upper deserts. 110 to 120 lower deserts.</p>	<p>40 to 60% coastal areas. 10 to 20% valleys. 10 to 20% mountains. 10 to 20% deserts.</p>	<p>Southeast to southwest 5 to 15 mph.</p>
<p><b>Eastern Great Basin</b> Idaho, Bridger-Teton: Mostly sunny with very isolated thunderstorms over western Idaho mountains. Northern Utah: Mostly sunny with very isolated thunderstorms over northern Utah mountains. Southern Utah, Arizona Strip: Mostly sunny.</p>	<p>Idaho, Bridger-Teton: 74 to 92 mountains, 90 to 99 valleys. Northern Utah: 79 to 89 mountains, 90 to 103 valleys. Southern Utah, Arizona Strip: 82 to 98 mountains, 99 to 110 valleys, 110 to 121 low deserts.</p>	<p>Idaho, Bridger-Teton: 20 to 30% mountains, 10 to 20% valleys. Northern Utah: 14 to 25% mountains, 4 to 13% valleys. Southern Utah, Arizona Strip: 10 to 22% mountains, 3 to 11% valleys.</p>	<p>Idaho, Bridger-Teton: west 10 mph with gusts to 25 mph in western Wyoming. Northern Utah: western portions, southwest 5-15 mph. Eastern portions, upslope/upvalley 5 to 10 mph. Southern Utah, Arizona Strip: southwest 5 to 15 mph.</p>
<p><b>Western Great Basin</b> Generally sunny and hot with breezy late afternoon winds to the lee of the Sierra Front. A few cumulus buildups may occur south of Hwy 50 and maybe an isolated strike of dry lightning could happen in the far northeastern corner of Elko county.</p>	<p>Northern valleys: 92 to 103. Southern Valleys: 97 to 121. Northern mountains: 77 to 92. Southern Mountains: 88 to 98.</p>	<p>Northern valleys: 5 to 15%. Southern valleys: 4 to 14%. Northern Mountains: 7 to 20%. Southern Mountains: 4 to 14%.</p>	<p>West to southwest at 5 to 15 mph, with some gusts to 25 mph along and just east of the Sierra Front.</p>

<b>Geographic Area Weather</b>	<b>High Temperatures</b>	<b>Minimum Relative Humidity</b>	<b>Wind</b>
<b>Northwest Area</b> Few morning clouds west of the Cascades otherwise sunny.	Mostly 70s and 80s west of the Cascades, except locally into the 90s in the interior of southwest Oregon. Generally 80s to lower 90s east of the Cascades.	West of Cascades: Mostly 35 to 55% except 20 to 25% in the interior of southwest Oregon.  Eastside: Generally 25 to 35% eastern Washington and 15 to 20% eastern Oregon.	West to northwest 5 to 15 mph west of the Cascades. East of the Cascades mostly westerly 10 to 15 mph with some higher gusts to 25 mph near the Columbia River Gorge and Cascade east slopes.
<b>Southwest</b> Mostly sunny to partly cloudy, hot and dry. Scattered thunderstorms in southeastern and eastern Arizona, southwestern New Mexico, along and just west of the central mountain chain in New Mexico and parts of the southeastern plains. Some blowing dust likely parts of central, south-central Arizona.	95 to near 115 lower elevations. 75 to 90 in the higher terrain.	10 to 25%.	West to southwest 5 to 15 mph western and northern Arizona. East to southeast 10 to 20 mph with higher gusts all of New Mexico, west Texas, and southeastern Arizona. Strong and erratic winds in and around thunderstorms.
<b>Alaska</b> Mostly cloudy with rain showers across the state, with isolated thunderstorms to the north and east.	Upper 50s to 60s, Low 70s in east.	35 to 45% in the eastern interior. Above 45% elsewhere.	West to southwest at 10 to 20 mph.
<b>Northern California</b> Mostly sunny. Low clouds and patchy fog near the coast.	Warmest inland areas 90s to near 106	8 to 20%.	Southwest to northwest, 5 to 15 mph and locally gusty.
<b>Rocky Mountain Area</b> Isolated dry thunderstorms over southern Colorado, otherwise very hot and dry.	95 to 105, except 80s in the mountains.	5 to 15%.	South to southwest 10 to 20 mph with gust to 25 over Wyoming and South Dakota.
<b>Southern Area</b> No information reported.			
<b>Eastern Area</b> No information reported.

## TRANSFER OF COMMAND

Risks to fireline personnel increase significantly during transfer of command periods regardless of the size or complexity of the incident. There is a high potential for fatalities, serious injuries, or incidents with potential during transfer of command periods (some have occurred in the past). Be proactive in mitigating the risks by proper implementation of LCES—Lookout, Communications, Escape Routes, and Safety Zones.

● Factors for increased risks to fireline personnel during transition periods include:

- No, or poor, briefing of incoming personnel
- Lack of fire weather and behavior information, both forecast and observed
- Communications; face-to-face briefings may not be possible and radio frequencies may be overextended and/or changing due to the increased demands on the system.
- Initial attack resources may not have checked-in and the Incident Commander may not be aware of the number, type and location of all resources.
- Location of safety zones and escape routes may not be known and communicated to all resources.

● Mitigation actions to take:

- Lookouts: Post and maintain your own lookouts.
- Communications: Maintain existing communications with your own and adjacent resources, as well as your original supervisor, while you are developing communications with incoming adjacent resources and your new supervisor.
- Escape routes and safety zones: Identify escape routes and assure incoming resources are aware of their locations; be aware that your original escape routes and safety zones may no longer be accessible due to changing fire behavior or your increased distance from them.
