Predictive Services Discussion

Warm and dry through Wednesday, then colder Thursday through Sunday with good chance of rain and mountain snow for the Northwest, Idaho, Montana, and Wyoming. A building high pressure ridge will bring warmer and drier weather to most of the West through mid-week. Strong winds are expected Wednesday and Thursday over much of the northwest quarter of the country ahead of a strong low pressure system. The weather system will bring widespread rain and mountain snow to most of the Northwest, Idaho, Montana, and Wyoming Thursday through Sunday.
