Incident Management Situation Report
Sunday, June 10, 2007 - 0800 MDT
National Preparedness Level 2**

National Fire Activity

Initial attack activity:	Light (122 new fires)
New large fires:	1 (*)
Large fires contained:	1
Uncontained large fires:	10
Area Command Teams committed:	
NIMOs committed:	1
Type 1 IMTs committed:	2
Type 2 IMTs committed:	2
Fire Use Teams committed:	

** Uncontained large fires do not include WFU or confine/contain incidents. **

Southern Area (PL 3)

New fires:	55
New large fires:	0
Uncontained large fires:	6
Type 1 IMTs committed:	1
Type 2 IMTs committed:	1

Big Turnaround Complex, Okefenokee NWR. IMT 1 (Ruggiero). Ten miles southeast of Waycross, GA. Southern rough and timber. Numerous structures, historic sites and recreation facilities remain threatened. Creeping.

Sweat Farm Road, Georgia Forestry Commission. Georgia IMT 2 (Floyd). Ten miles west of Waycross, GA. Southern rough and timber. Creeping and smoldering.

BICY Complex, Big Cypress National Preserve. Fifty-one miles west of Ft. Lauderdale, FL. Southern rough. No further information received.

Okeechobee Complex (three fires), Florida DOF. Eight miles southwest of Okeechobee, FL. Grass. Smoldering.

Deland Complex (seven fires), Florida DOF. Six miles west of Ormond Beach. Southern rough. Actively burning in swamps, smoldering.

Middle of Nowhere, Florida DOF. Fifteen miles northeast of Ft. Myers, FL. Southern rough. No new information.

Predictive Services Discussion: The Southwest will see scattered thunderstorms today, some of them dry, over eastern Arizona, western New Mexico and southwest Colorado. Thunderstorm activity is expected to increase and expand into central Arizona on Monday. Portions of the Great Basin, especially over western Utah, will have gusty winds and low humidity today. Interior Alaska will see scattered showers and a few thunderstorms today and Monday. Drier weather will be spreading into the Southeast for lower humidity and fewer thunderstorms today and Monday.

http://www.nifc.gov/sixminutes/dsp_sixminutes.php

Today's discussion is from the Fireline Safety Category.

TAKING A NAP NEAR THE FIRELINE

Firefighting is often exhausting work and firefighters can find themselves needing to sleep while on the fireline. Before pausing to rest, firefighters must weigh the following considerations:

- Are lookouts posted? Discuss who the lookout could be. Can the lookout on the knob across the draw watch over you or does it need to be your partner on the fireline alternating rest times?
- Is the area free of hazards? (Falling snags or rolling materials) Discuss what you need to do to create a safe resting area.
- Are you still within agency work and rest guidelines? Review what these guidelines are.
- Does your crew need a break? Have they been pushed too hard? Talk about situations where you need to simply take yourself and/or your crew off the fire for uninterrupted rest.
- To reduce risks:
 - Keep lookouts posted; rotate lookouts.
 - Communicate crew conditions and status to supervisor or chain-of-command contact. Have firefighters discuss ways that they fine to rest on the fireline and suggestions for methods to alternate shifts for more effective firefighting.
