

**Incident Management Situation Report
Monday, July 10, 2023 – 0730 MDT
National Preparedness Level 2**

National Fire Activity:

Fire Activity and Teams Assigned	Total
Initial attack activity:	Light (80 fires)
New large incidents:	0
Large fires contained:	0
Uncontained large fires: **	11
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	0
Type 2 IMTs committed:	1
Complex IMTs committed:	2

Nationally, there are seven fires being managed under a strategy other than full suppression.

**Uncontained large fires only include fires being managed under a full suppression strategy.

Geographic Area Reports

Understanding the IMSR

Two incident management teams, seven fire suppression crews, 60 smokejumpers and 60 overhead personnel are assigned to large fire support in Canada.

Active Incident Resource Summary

GACC	Incidents	Cumulative Acres	Crews	Engines	Helicopters	Total Personnel	Change in Personnel

Southwest Area (PL 3)

Fire Activity and Teams Assigned	Total
New fires:	14
New large incidents:	0
Uncontained large fires:	5

Flying V, Fort Apache Agency, BIA. Thirty-three miles southwest of Show Low, AZ. Brush and grass. Minimal fire behavior with creeping and backing. Communication infrastructure threatened. Area and road closures in effect.

Pilot, Northwest District, Arizona DOF. Twenty miles east of Wikieup, AZ. Grass and brush. Moderate fire behavior with wind-driven runs, short-range spotting and flanking. Structures threatened.

Stockton Hill, Northwest District, Arizona DOF. Ten miles north of Kingman, AZ. Grass and brush. Minimal fire behavior with smoldering. Structures and communication infrastructure threatened.

Brushy, Socorro District, New Mexico State Forestry. Thirty miles south of Animas, NM. Grass and brush. Minimal fire behavior. Reduction in acreage due to more accurate mapping.

Beehive, Coronado NF, USFS. Eight miles southwest of Carmen, AZ. Grass and brush. Minimal fire behavior with creeping and smoldering.

Acres (2013 – 2022 as of today)	2,591,523

Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.

Predictive Services Discussion:

Scattered thunderstorms, including severe thunderstorms, are expected across the Pacific Northwest through the Northern Rockies onto the northern High Plains, with isolated dry thunderstorms interspersed along and west of the Divide. Dry and windy conditions will develop in the Columbia Gorge, with dry and breezy conditions in the Cascade Gaps and parts of the Columbia Basin as well. Hot, dry, and unstable conditions will extend out of Texas into parts of the Desert Southwest. Scattered mixed wet and dry thunderstorms will develop from southeast Arizona through southern and central New Mexico. Severe thunderstorms are likely on the southern and central High Plains extending northeast into the Upper Midwest and southeast through the Deep South and central Gulf Coast. Showers and thunderstorms will also extend up the East Coast, with flooding likely in areas. Scattered showers will continue across western and southern portions of Alaska, with mostly below normal temperatures across the state except in far eastern Alaska and the southern panhandle.
