

Incident Management Situation Report
Friday, March 29, 2024 – 0730 MDT
National Preparedness Level 1

National Fire Activity (March 22, 2024 – March 29, 2024):

Fire Activity and Teams Assigned	Totals
Initial attack activity:	Light (565 fires)
New large incidents:	37
Large fires contained:	42
Uncontained large fires:	13
CIMTs committed:	1
NIMOs committed:	0

Nationally, there are zero fires being managed under a strategy other than full suppression. Uncontained large fires include only fires being managed under a full suppression strategy.

[Understanding the IMSR](#)

[IMSR Map](#)

This report will be posted every Friday at 0730 Mountain Time unless significant activity occurs.

Southern Area (PL 3)**Fire Activity and Teams Assigned****Totals**

New fires:	294
New large incidents:	26
Uncontained large fires:	9
Complex IMTs Committed:	1

* **North Zone Complex** (4 fires), George Washington & Jefferson NF, USFS. Transfer of command from CIMT (SA Team 3) back to the local unit will occur tomorrow. Includes previously reported Waterfall Mountain and Capon fires. Two miles northeast of Mt. Jackson, VA. Hardwood litter. Minimal fire behavior with smoldering. Numerous residences threatened. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Rocky Branch, Shenandoah NP, NPS. Transfer of command from CIMT (SA Team 1) back to the local unit occurred on 3/27. Five miles northeast of Luray, VA. Hardwood litter and timber. Minimal fire behavior. Precipitation occurred over the fire area yesterday. Reduction in acreage due to more accurate mapping.

* **Rooster**, Oklahoma DOF. Thirteen miles northeast of Sallisaw, OK. Hardwood litter. Moderate fire behavior. Residences threatened.

* **Wolfpen Trail**, Georgia Forestry Commission. Nine miles east of Ellijay, GA. Hardwood litter. Active fire behavior. Structures threatened. Precipitation occurred over the fire area yesterday.

* **Yellow Mountain**, Kentucky DOF. Started on private land six miles northeast of Dorton, KY. Timber and grass. Minimal fire behavior.

Brushy Knob, George Washington & Jefferson NF, USFS. Two miles east of Brandywine, WV. Hardwood litter, dormant brush and hardwood slash. No new information. Last report unless new information is received.

Disclaimer: Cumulative acres showing in the Active Incident Resource Summary Table may not be reflected in the YTD statistics due to a lag in units completing YTD adjustments in the SIT/209 Application. Otherwise, changes in agency YTD fires and acres reflect more accurate mapping or reporting adjustments.

Predictive Services Discussion:

Breezy southwest winds are forecast for the central Appalachians and Mid-Atlantic today, but relative humidity will increase, with widespread rain forecast for much of the Southeast, Appalachians, and East Coast tonight into Saturday. A fast-moving storm will also bring snow to the Great Lakes and rain to the Ohio Valley today, with snow in northern New England tomorrow. A large Pacific storm will move across the West this weekend with widespread precipitation, falling as snow in the mountains. As this storm emerges onto the Plains, strong southwesterly winds and dry conditions are forecast for the southern High Plains with elevated to critical fire weather conditions. Widespread precipitation will fall across the rest of the Plains into the Mississippi Valley early next week with this storm, with heavy snow and blizzard conditions possible for the northern Plains and portions of Minnesota. Another round of widespread rain is likely for the Appalachians to East Coast mid to late next week as this storm continues moving eastward. A second Pacific storm will bring rain and mountain snow to the northern two-thirds of the West mid to late next week, with strong westerly winds likely across much of the Southwest into the southern Plains. Much of central and eastern Interior Alaska will remain mild and dry the next week with continued storms for southwest Alaska.
