

Oregon Greater Sage-Grouse Habitat 2012 - 2015

Legend

-  Preliminary Priority Habitat (PPH)
-  Preliminary General Habitat (PGH)
-  Columbia Basin - Priority Areas for Conservation (PAC)
-  Columbia Basin - Recovery Habitat
-  BLM State Office Boundaries
-  BLM District Office Boundaries
-  BLM Field Office Boundaries
-  Administrative State Office
-  Administrative District Office
-  Administrative Field Office
-  Field Stations, Monuments, and Other Administrative Types

Description:

Preliminary Priority Habitat (PPH) and Preliminary General Habitat (PGH):

Habitat designations developed by BLM and state agency biologists for all populations of GRSG (except the Bi-State and Columbia populations) which have been widely used since 2012. PPH is a higher value to protect, conserve and restore than PGH, and PGH is higher than other sagebrush vegetation.

PPH: Areas offering the highest quality GRSG habitat based upon bird density, lek location, community composition, intactness, or other variables.

PGH: Areas of relatively intact sagebrush communities which provide certain habitat requirements for GRSG.

Columbia Basin Distinct Population Segment (DPS):

Priority Areas for Conservation (PAC): Areas offering significant concentrations of shrub-steppe with populations of sage-grouse. PACs will be viewed as a higher priority than Recovery Habitat when establishing priorities for fire preparedness, suppression actions, and fuels management.

Recovery Habitat: Unoccupied areas that contain significant concentrations of shrub-steppe and have potential for contributing to recovery. Recovery Habitat will be viewed as a higher priority than other, non-designated areas relative to habitat importance.

Data Sources:

BLM Administrative Boundaries and Office Locations:

Downloaded from GeoSpatial Gateway, 05/20/2015.

GRSG PPH/PGH: Current as of 08/07/2013. For detailed source information and to access the data, please visit: http://www.blm.gov/wo/st/en/prog/more/sagegrouse/documents_and_resources.html.

Columbia Basin Population: Acquired from the WA Department of Fish and Wildlife on 03/04/2015.
