

**Incident Management Situation Report
Friday, May 16, 2025 – 0730 MDT
National Preparedness Level 2**

National Fire Activity:

Fire Activity and Teams Assigned	Totals
Initial attack activity:	Light (69 fires)
New large incidents:	0
Large fires contained:	1
Uncontained large fires:	8
CIMTs committed:	2
Type 1 IMTs committed:	0
NIMOs committed:	0

Nationally, there are zero fires being managed under a strategy other than full suppression. Uncontained large fires include only fires being managed under a full suppression strategy.

[Understanding the IMSR](#)

[IMSR Map](#)

This report will be posted Monday - Friday at 0730 Mountain Time unless significant activity occurs.

Active Incident Resource Summary

GACC	Incidents	Cumulative Acres	Crews	Engines	Helicopters	Total Personnel	Change in Personnel

Southwest Area (PL 3)

Fire Activity and Teams Assigned	Totals
New fires:	6
New large incidents:	0
Uncontained large fires:	3
CIMTs committed:	1

Greer, Apache-Sitgreaves NF, USFS. Ten miles southwest of Springerville, AZ. CIMT (SW Team 3). Grass, timber and hardwood litter. Active fire behavior with uphill runs, wind-driven runs and torching. Communities of Eagar and Springerville threatened. Evacuations, area, road and trail closures in effect.

Blind, Coconino NF, USFS. Twenty-two miles northeast of Pine, AZ. Timber and grass. Active fire behavior with flanking, backing and torching. Structures threatened. Trail closures in effect.

Bryce, Southeast District, Arizona DOF. Three miles west of Pima, AZ. Dormant brush and timber. Minimal fire behavior with smoldering. Area closures in effect.

Fire Activity and Teams Assigned	Totals
New fires:	9
New large incidents:	0
Uncontained large fires:	3
CIMTs committed:	1

Camp House, Two Harbors Region, Minnesota DNR. CIMT (EA Team 1). IMT is also managing the Jenkins Creek fire. Two miles northeast of Brimson, MN. Timber. Active fire behavior with creeping, group torching and isolated torching. Numerous structures threatened. Evacuations, area and road closures in effect. Reduction in acreage due to more accurate mapping.

Jenkins Creek, Superior NF, USFS. Fifteen miles southeast of Aurora, MN. Brush, closed timber litter and timber. Active fire behavior with creeping, group torching and isolated torching. Residences threatened. Evacuations, area and road closures in effect.

Munger Shaw, Cloquet Region, Minnesota DNR. Two miles east of Elora Lake, MN. Timber and grass. Active fire behavior with creeping and smoldering. Structures threatened. Evacuations and road closures in effect.

Ten Year Average	Quantity
Fires (2015 – 2024 as of today)	18,465
Acres (2015 – 2024 as of today)	1,025,223

Cumulative acres showing in the Active Incident Resource Summary Table may not be reflected in the YTD statistics due to a lag in units completing YTD adjustments in the SIT/209 Application. Otherwise, changes in agency YTD fires and acres reflect more accurate mapping or reporting adjustments.

Predictive Services Discussion:

Dry conditions will continue in the Southwest with minimum relative humidity of 5-15% and poor overnight recovery of 20-35% on mid-slopes and ridges. Locally breezy west winds will continue in portions of eastern Arizona and western New Mexico creating areas of elevated conditions. Much cooler conditions are expected across the Dakotas into the Upper Great Lakes along with scattered showers, and isolated showers remain possible in the northern Intermountain West, as well. In the Midwest from Iowa to Lower Michigan, an area breezy westerly winds will develop amid very warm temperatures and relative humidity as low as 20% to create elevated conditions. Showers and thunderstorms will develop ahead of a cold front from the Mid-Mississippi Valley to the Mid-Atlantic, with severe thunderstorms likely for the Mid-Mississippi and Ohio Valleys. Very hot temperatures up to 110°F will continue in southwest Texas, with very low relative humidity in the single digits for the Trans Pecos and Big Bend. Dry conditions with relative humidity as low as 20% will continue across Interior Alaska, but the breezy northeast winds will gradually diminish. Breezy trade winds are expected across Hawai'i with an increase in showers, especially for windward areas.
