NMAC Correspondence #2016-02

February 23 , 2016

To: John Glenn, Chair NWCG Executive Board

From: Dan Buckley, Chair National Multi-Agency Coordinating Group

Subject: Incident Management Team Composition Standards

John:

The National Multi-Agency Coordinating Group recently reviewed and approved the attached proposal on Incident Management Team Composition Standards for IMT1s and IMT2s as submitted by the Coordinating Group Advisory Council. This IMT composition (Alternative 2) with essentially a full team rostered, with discretionary positions, provides opportunities based on the nature and location of the assignment, and a mix of both Geographic Area priority trainees and IMT trainees, will produce the desired results for future incident assignments.

While this IMT Succession Planning action item 15-15 is assigned to NMAC and CGAC we would like for the NWCG Executive Board to review and comment. This will complete the action item. We would appreciate a reply by April 15, 2016.
