Interagency Checklist for Mobilization of Resources in a COVID-19 Environment

The following checklists are designed for interagency mobilization (ordering and/or sending) for severity, pre-position, and fire response resources while working in the COVID-19 environment.

Best Management Practices outlined in current COVID-19 guidance, such as (guidelines for social distancing, disinfecting procedures, facial coverings, remote/small briefings, incident level medical screening plan, lodging and isolation/quarantine plan) should be in place to mitigate COVID-19 for resource mobilization for both sending and receiving units. Any resource deemed to be a high risk, per the CDC guidelines have the option to decline the assignment.
