

**National Interagency Coordination Center
Incident Management Situation Report
Sunday, September 19, 2021 – 0730 MDT
National Preparedness Level 5**

National Fire Activity:

Initial attack activity:	Light (49 fires)
New large incidents:	0
Large fires contained:	0
Uncontained large fires: ***	56
NIMOs committed:	1
Type 1 IMTs committed:	8
Type 2 IMTs committed:	14

Nationally, there are 33 fires being managed under a strategy other than full suppression.

***Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

[Link](#) to Understanding the IMSR.

Two hundred twenty-five soldiers from the 23rd Brigade Engineer Battalion and 2-3 Infantry Battalion based out of Joint Base Lewis-McChord are deployed in support of the Dixie Fire.

One MAFFS C-130 airtanker and support personnel each from the 152nd Airlift Wing (Nevada Air National Guard), three MAFFS from the 302nd Airlift Wing (Colorado Air Force Reserve), two MAFFS from the 153rd Airlift Wing (Wyoming Air National Guard) and two from the 146th Airlift Wing (California Air National Guard) have been deployed to McClellan, CA to support wildland fire operations nationally.

One RC-26 aircraft with Distributed Real-Time Infrared (DRTI) capability and support personnel from the 141st Air Refueling Wing (Washington Air National Guard) and one RC-26 aircraft with Distributed Real-Time Infrared (DRTI) capability and support personnel from the 162nd Operations Group (Arizona Air National Guard) have been deployed to Sacramento, CA in support of wildland fire operations. Also supporting these aircraft are eight ground controllers from multiple U.S. Air National Guard squadrons.

One Boeing 737 airtanker from New South Wales, Australia is supporting fire suppression efforts in the western United States.

Two fire suppression crews from Quebec, Canada are supporting fire suppression efforts in Washington State.

Cougar Peak, Fremont-Winema NF, USFS. IMT 2 (NW Team 8). Fifteen miles northwest of Lakeview, OR. Timber, brush and medium slash. Minimal fire behavior with creeping and smoldering. Numerous structures threatened. Evacuations, area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Schneider Springs, Okanogan-Wenatchee NF, USFS. IMT 2 (NW Team 10). Eighteen miles northwest of Naches, WA. Short grass, timber and brush. Minimal fire behavior with backing, creeping and smoldering. Several communities and numerous structures threatened. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Devil's Knob Complex (2 fires), Umpqua NF, USFS. IMT 1 (RM Team 1) and IMT 1 (PNW Team 2). Twenty miles northeast of Azalea, OR. Timber and medium slash. Minimal fire behavior with smoldering. Structures and infrastructure threatened. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Rough Patch Complex (4 fires), Umpqua NF, USFS. IMT 1 (GB Team 2). IMT is also managing the Jack incident. Eighteen miles southwest of Oakridge, OR. Closed timber litter and timber. Minimal fire behavior with smoldering. Structures threatened. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Jack, Umpqua NF, USFS. Thirty-one miles east of Roseburg, OR. Closed timber litter and timber. Minimal fire behavior with smoldering. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Middle Fork Complex (2 fires), Willamette NF, USFS. IMT 2 (NW Team 6). Nine miles northeast of Oakridge, OR. Timber and light slash. Minimal fire behavior with smoldering. Structures threatened. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Bull Complex, Mt. Hood NF, USFS. IMT 2 (NW Team 13). Twenty-five miles northeast of Mill City, OR. Timber and closed timber litter. Minimal fire behavior with creeping and smoldering. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Twenty-five Mile, Okanogan-Wenatchee NF, USFS. IMT2 (SW Team 3). Twelve miles northwest of Chelan, WA. Short grass, brush and timber. Minimal fire behavior with backing, creeping and smoldering. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Big Meadow, Burns District, BLM. Transfer of command from IMT 2 (NW Team 7) back to local unit will occur today. Twenty-eight miles west of Burns, OR. Timber and brush. Minimal fire behavior with creeping and smoldering. Structures threatened. Area and road closures in effect.

Cedar Creek, Okanogan-Wenatchee NF, USFS. Fifteen miles northwest of Winthrop, WA. Brush, closed timber litter and timber. Minimal fire behavior with creeping and smoldering. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Cub Creek 2, Southeast Region, DNR. Five miles north of Winthrop, WA. Brush, closed timber litter and timber. Minimal fire behavior with creeping and smoldering. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Walker Creek, Northeast Region, DNR. Four miles northwest of Wauconda, WA. Timber and closed timber litter. Minimal fire behavior with backing, creeping and smoldering. Numerous residences and infrastructure threatened. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Summit Trail, Colville Agency, BIA. Seventeen miles west of Inchelium, WA. Timber and closed timber litter. Minimal fire behavior with smoldering. Precipitation occurred over the fire area yesterday.

Green Ridge, Umatilla NF, USFS. Thirty miles east of Walla Walla, WA. Short grass, timber and medium slash. No new information. Last report unless new information is received.

Ten Year Average Fires (2011 – 2020 as of today)	45,350
Ten Year Average Acres (2011 – 2020 as of today)	6,408,032

***Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.

***Additional wildfire information is available through the Geographic Areas at <https://gacc.nifc.gov/>

Predictive Services Discussion: An upper-level trough will move east and south into the Intermountain West with strong upper-level ridging over the eastern US. A cold front will push southeast into southern California, northern Arizona, the Colorado Rockies, and much of the northern Plains by tomorrow night. Dry and windy conditions are likely ahead of the cold front across portions of southern California, the eastern Sierra, the southern half of Nevada into western Utah, northwest Arizona, and the High Plains. Gusty southerly winds are likely in Minnesota into the western and northern Great Lakes, but RH should range between 30-50%. Offshore winds are likely to strengthen in portions of the Coast Ranges and Sierra in northern and central California overnight and combine with poor to moderate RH recovery. Precipitation is forecast across much of the Northwest, Idaho, Montana, and into northern California, northern Nevada, and Wyoming. Snow is likely at higher elevations with central Idaho, southwest Montana, and northwest Wyoming favored. Isolated to scattered thunderstorms are likely along and ahead of the cold front in the Four Corners, Colorado Rockies, southern Wyoming, and portions of the northern Plains into Minnesota. Scattered to widespread thunderstorms should continue across the Southeast.

Driving Safety

Vehicles/Roads Category

Driving is one of the most hazardous things we do because we perform the task hundreds of times in the course of our daily lives. We tend to take it for granted. Based on recent accident trends, vehicle accidents are the source of more deaths and serious injuries to wildland firefighters than any other single cause.

- To be a safe driver you have to *want* to be one. Take a good, hard look at your driving habits. Are you training yourself to do the right things the right way, like fastening your seat belt, checking your mirrors, and maintaining safe following distances?
- Inattentiveness is a major contributing factor in motor vehicle accidents within the wildland firefighting community. Since the average adult attention span is 15 to 20 minutes, we must develop techniques that allow us to refocus our attention on our driving.
- Many things can lure our attention away from our driving, such as fatigue, eating and drinking, reading directions and maps, writing, cell phone and radio use, conversation within the vehicle, and music.
 - ✓ Drive only when you are well-rested and alert, and avoid driving during the hours from 10:00 PM to 6:00 AM. Take a 10- to 15-minute break after every 2 hours.
 - ✓ Practice situational awareness; be aware of what is happening in front, behind, and on both sides of your vehicle.
 - ✓ Never drive when taking medications that make you drowsy.
 - ✓ Delegate navigation and communication to a passenger, or pull over.
 - ✓ By constantly moving your vision, checking mirrors and distant road conditions, you can avoid highway hypnosis and daydreaming.
 - ✓ Avoid eating or drinking while driving.
 - ✓ When talking with passengers, keep your eyes on the road and both hands on the steering wheel. Avoid serious or argumentative conversations.
 - ✓ Switch off driving with others if multiple people are in the vehicle.
 - ✓ Do not be in a hurry; be patient.
- Safe driving starts with a safe vehicle. Something as simple as underinflated tires can have serious consequences. Before operating any vehicle, do a walk-around to look for potential problems, make sure the lights and blinkers work, and adjust your seat and mirrors. If it is the first time you have driven the vehicle, make yourself aware of where everything is.
