2/2

**Environmental Health Specialist
BS in Marine Biology from UNCW**

THSPEPA AD-I

Current job Classification

Conduct bacteriological water samples on over 1 million acres of water and determine water quality for same area. Determine closure lines and gps closures and sample stations. Coordinate closures with nc marine patrol. Evaluate samples in labratory and data entry. Maintain all equipment boat, trailer, cars and laboratory. Coordinate and help scheduling with Recreational water quality. Evaluate areas of concern by conducting shoreline survey. Back up inspector for oyster shucking houses and crab picking facilities.

I am certified with a registered sanitarian in NC. I am also certified in gps , gis , Certified oupv (six pack) Boat captain's licsense, certified Scuba Diver, good understanding of many computer programs. (Pathfinder, Excel, Word, Arc view, and many others). I work hard coordinating with other programs to maximize efficiency and cut down on fuel cost. I have 26 years in boating and 20 years in commercial fishing, 13 years in water quality both recreational and with shellfish. I love being outdoors and I do not mind hot weather.
