

FFAST Meeting December 13, 2010

Attendees:

Michelle Ryerson - BLM
Chad Fisher – NPS
Tony Beitia – BIA
Chris Wilcox – FWS
John Owens - BLM
Marie Bates – BLM

Charter and Intent Documents for FFAST – Chad

The opening discussion for the group was “do we still want the FFAST to exist as a sub-committee under the Risk Management Committee”. The history of why the FFAST group was originally started was mainly to open up a way to make things happen rapidly at the federal level in safety and health with sponsorship from the states. Some of the ways this has evolved is through:

- SAFENET System
- Burn Injury Protocol
- Medical Standards
- 6 Minutes for Safety
- Wildland Fire Safety Annual Refresher
- Firefit
- Ability to respond to NMAC taskings

Chad was given a Risk Management Committee Organization Intent template from NWCG to review and develop one for FFAST. The group went through the document and provided input as a draft. The current FFAST Charter was reviewed and updates and edits were made. Chad will make final edits to the Intent Document and Charter and have ready for the FFAST to review at the next meeting.

Misc Updates

- Medical Standards/Medex – MEDEX is now back online. Discussion of staffing for medical standards.
- Serious Accident Investigation Course – the spring 2011 course has been cancelled

Next Meeting Date

January 12, 2011 at 1300 in OPS Conference Room
