

INCIDENT MANAGEMENT SITUATION REPORT
Friday 12/03/93 1000 MST
Preparedness Level I

ALASKA: No activity.

NORTHWEST: No activity.

CALIFORNIA NORTH ZONE: No activity.

CALIFORNIA SOUTH ZONE: Initial attack activity. 25 fires for 3 acres were reported this week.

NORTHERN ROCKIES: No activity.

EASTERN GREAT BASIN: No activity.

WESTERN GREAT BASIN: No activity.

SOUTHWEST: Initial attack and large fire activity. 10 fires for 5,108 acres were reported this week.

PLUM, Lake Meredith NRA, NPS - 1,258 acres. The fire started 11/27 from an unattended campfire that was fanned by high winds. The fire was contained 11/29 and controlled 12/1.

BLUE MOUNTAIN, Arizona State and Truxton Canyon Agency, BIA - 1,100 acres. The fire was started 11/28 from slash burning. It was contained 12/1 and controlled on 12/2.

COOPER, Roswell District, BLM - 145 acres. The fire started on 11/29 and was contained and controlled on 12/1.

ROCKY MOUNTAIN: No activity.

EASTERN: No activity.

SOUTHERN: Initial attack activity. 198 fires for 2,169 acres were reported this week.

ANALYSIS: Increased activity occurred in the Southwest Area this week. The Southern Area continued to experience moderate fire activity. Southern California continued to experience initial attack activity.

PROGNOSIS: A RED FLAG WATCH is in effect for northern Arizona today for northerly winds. Southern California, Arizona, New Mexico and western Texas will be sunny, cooler and windy through Saturday, fair to partly cloudy Sunday through Tuesday and fair and cool Wednesday and Thursday with less wind. Expect fire activity to continue and possibly increase with high wind forecasted. Most of the Southern Area will be dominated by partly cloudy, cooler conditions. Moderate fire activity is expected to continue.

INCIDENT MANAGEMENT SITUATION REPORT
Friday 12/10/93 1000 MST
Preparedness Level I

ALASKA: No activity.

NORTHWEST: No activity.

CALIFORNIA NORTH ZONE: No activity.

CALIFORNIA SOUTH ZONE: No significant activity, 9 fires for 6 acres were reported this week.

NORTHERN ROCKIES: No activity.

EASTERN GREAT BASIN: No activity.

WESTERN GREAT BASIN: No activity.

SOUTHWEST: Initial attack and large fire activity, 3 fires for 660 acres were reported this week.

ROCKY MOUNTAIN: No activity.

EASTERN: No activity.

SOUTHERN: Initial attack activity, 255 fires for 3,703 acres were reported this week.

ANALYSIS: The State of New Mexico and the Southern Area continued to experience fire activity. Fire activity in southern California continued to decrease. No activity was reported in any other Geographic Areas.

PROGNOSIS: A cold upper level trough will drop into the southeastern states on Saturday bringing rain and a few thunderstorms to the area. This low will swing off the coast Sunday. High pressure will move in Monday and Tuesday followed by another upper level storm later Tuesday into Thursday, bringing rain and cooler temperatures. Expect fire activity to moderate in the Southern Area. A cold upper level storm with showers will move into southern California on Saturday and Sunday, and into the Southwest Area on Sunday and Monday. The storm will move quickly east by Tuesday allowing high pressure to rebuild. Anticipate fire activity to decrease in southern California and the Southwest.

INCIDENT MANAGEMENT SITUATION REPORT
Thursday 12/23/93 1000 MST •
Preparedness Level I

ALASKA: No activity.

NORTHWEST: No activity.

CALIFORNIA NORTH ZONE: No activity.

CALIFORNIA SOUTH ZONE: No significant activity.

NORTHERN ROCKIES: No activity.

EASTERN GREAT BASIN: No activity.

WESTERN GREAT BASIN: No activity.

SOUTHWEST: No significant activity.

ROCKY MOUNTAIN: No activity.

EASTERN: No activity.

SOUTHERN: Initial attack activity.

ANALYSIS: The Southern Area continued to experience initial attack activity, mainly on state lands. No significant fire activity occurred in any other Geographic Area.

PROGNOSIS: A RED FLAG WATCH has been issued in southern California today for strong winds. Fair weather with gusty north to northeast winds are forecast for the remainder of the week. Next week will continue to be fair with little or no precipitation. Fire occurrence should continue to be minimal. A cold upper trough over the east coast will keep a series of cold fronts moving into the Southern Area over the weekend and into next week. Below normal temperatures and above normal precipitation is expected. Snow is likely over the northern mountains of Georgia and North Carolina today and Friday turning clear and colder Sunday and Monday. Minimal activity is anticipated.

INCIDENT MANAGEMENT SITUATION REPORT
Thursday 12/30/93 1000 MST
Preparedness Level I

ALASKA: No activity.

NORTHWEST: No activity.

CALIFORNIA NORTH ZONE: No activity.

CALIFORNIA SOUTH ZONE: No significant activity.

NORTHERN ROCKIES: No activity.

EASTERN GREAT BASIN: No activity.

WESTERN GREAT BASIN: No activity.

SOUTHWEST: No activity.

ROCKY MOUNTAIN: No activity.

EASTERN: No activity.

SOUTHERN: Initial attack and large fire activity.

MAUPIN FLAT, O2ark NF - 125 acres. The fire started and was controlled on 12/26!

ANALYSIS: Initial attack activity continued in the Southern Area. No fire activity occurred in any of the other Geographic Areas with the exception of several state fires in southern California^

PROGNOSIS: Southern California will have a weak onshore flow through this weekend, otherwise fair. High pressure will develop Sunday influencing fair skies with occasional gusty north winds through next week. The Southern Area will have a weak surface high pressure system over the entire area through Friday. A weak cold front will bring clouds and a few mountain showers Saturday. Clearing will take place Sunday before another stronger cold front sweeps into the area late Monday through Wednesday. No significant activity is anticipated.
