

INCIDENT MANAGEMENT SITUATION REPORT  
 SATURDAY, AUGUST 12, 1995 - 0900 MDT  
 NATIONAL PREPAREDNESS LEVEL III

\*\*\* SAFETY COMES FIRST ON EVERY FIRE, EVERY TIME. \*\*\*

Current Situation: Cooler temperatures and higher humidities have limited new fires to initial attack in the Northwest and Great Basin Areas. Monsoon moisture in the Southwest has helped limit new starts in that area.

Eastern Area Large Fires:

SAG CORRIDOR, Superior NF. A Type II Incident Management Team (Tarbell) is committed. Approximately 250 people have been evacuated from their residences. The fire has burned across the border and will be suppressed under Unified Command with Canada.

Eastern Great Basin Large Fires:

TURKEY, Utah State. The fire is currently threatening a turkey farm, 2 high voltage power transmission lines to California, a radio tower, and 2 homes. The fire escaped containment lines due to high winds. Crews were pulled from the fire line due to extreme fire behavior and arcing power lines.

PUDDLE VALLEY, Salt Lake District, BLM. A Type II Incident Management Team (Black) is committed. Some interior islands continue to burn.

CAMP WILLIAMS, Utah State. The fire received some rain yesterday from passing thunderstorms. The fire reported no significant activity due to cooler temperatures and higher humidities.
