

INCIDENT MANAGEMENT SITUATION REPORT
 TUESDAY, AUGUST 29, 1995 - 0530 MDT
 NATIONAL PREPAREDNESS LEVEL II

*** ALL FIREFIGHTERS HAVE THE RIGHT TO A SAFE ASSIGNMENT ***

Current Situation: Fire activity continued in southern California and Utah, with increased activity reported in Utah and Oregon. Moderate fire activity continued in all other areas of the U.S. Large fire activity continued in Canada with an additional 142,907 acres burned.

South Zone Large Fires:

EL MONTE, Cleveland NF. A Type II Incident Management Team (Hawkins) is assigned. One ranch house was initially threatened but aggressive action with a Type I helicopter assisted in saving the structure. Poor access and extremely rugged terrain are hindering control efforts.

INCIDENT NAME	UNIT CNF	ST CA	SIZE 1,950	% 25	EST 8/30	TOTAL 873	CRW 35	ENG 32	HELI 4	STRUC 0	EST UNK	EST 185K
------------------	-------------	----------	---------------	---------	-------------	--------------	-----------	-----------	-----------	------------	------------	-------------

Eastern Great Basin Large Fires:

CHERRY CREEK, Utah State. No additional information available.

REDLAM, Salt Lake District BLM. A Type II Incident Management Team (Black) is assigned. Wild horse habitat, telecommunications, hazardous materials and mining claims and a Wilderness Study Area are threatened. Wilderness Study Area constraints, terrain and erratic winds are causing control problems.

INCIDENT NAME	UNIT UTS	ST UT	SIZE 1,000	% 0	EST UNK	TOTAL 40	CRW 1	ENG 5	HELI 1	STRUC 0	EST UNK	EST UNK

OUTLOOK: ***** A FIRE WEATHER WATCH IS POSTED FOR CENTRAL WYOMING FOR GUSTY WINDS. A FIRE WEATHER WATCH IS POSTED IN THE WEST CENTRAL MOUNTAINS OF IDAHO FOR DRY LIGHTNING AND WINDS ASSOCIATED WITH THUNDERSTORMS *****

A strong disturbance and cold front will be moving across the Pacific

Northwest, generating thunderstorms over eastern Washington, eastern Oregon, northern Idaho and western Montana. A low pressure system over Montana will strengthen causing gusty winds over eastern Idaho, western and central Wyoming and portions of Montana. The remainder of the West will be partly to mostly sunny with isolated thunderstorms over Arizona, eastern Utah, New Mexico, Colorado and Wyoming. High temperatures will range from the 60's in the extreme Northwest to the 70's over Idaho and Oregon and 80's and 90's elsewhere, except 100's in the Arizona and California deserts. Low pressure over the Dakotas will spread moisture into northern Minnesota. Showers and thundershowers are expected with mostly cloudy skies and highs in the low 70's. Winds will be southeast at 10-15 MPH. High pressure will again be over the northeastern U.S. with slightly warmer temperatures. Highs will be mostly in the 80's with 10-15 MPH winds. Moderate fire activity is expected for most areas. The potential for increased initial attack and escaped fire activity exists where fire weather watches are posted.
