Outlook: A RED FLAG WARNING IS POSTED IN NORTHERN UTAH FOR STRONG WINDS, LOW HUMIDITIES, AND POSSIBLE DRY LIGHTNING. A FIRE WEATHER WATCH IS POSTED IN CENTRAL AND SOUTHWEST WYOMING AND NORTHEAST NEVADA FOR GUSTY WINDS, LOW HUMIDITIES AND POSSIBLE DRY LIGHTNING. A RED FLAG WATCH IS POSTED IN CENTRAL AND SOUTHEAST ARIZONA FOR DRY LIGHTNING. A vigorous but rather dry trough of low pressure will move into the Pacific Northwest, Northern Rockies and the Northern Great Basin states. Strong high pressure aloft will continue over

the desert Southwest and Southern Rockies. Strong gusty winds and isolated dry thunderstorms will extend from the Sierras in California across Nevada and Utah into Wyoming. Scattered thunderstorms with limited moisture are forecast for Idaho and Montana. Central and Southeast Arizona and New Mexico will have isolated dry lightning. An onshore flow in western Washington and Oregon will result in clouds and morning drizzle. Cooler temperatures will begin to move into Washington, Oregon, Idaho and Montana. Very, hot and dry conditions will continue over the remainder of the West. High temperatures will be in the 80's and 90's, except mid 60's and 70's near the coast, and 100 to 120 in the desert southwest. Initial attack and large fire activity is expected to continue as a result of recent lightning activity along with forecasted warnings and watches.
