OUTLOOK: An upper level ridge will build over the coastal states, providing dry weather throughout the West. A strong surface pressure gradient early in the day will bring locally gusty winds at 20-40 MPH in Oregon, northern California, Nevada and the southern half of Utah. Winds will diminish in the afternoon. High temperatures will range from the 40's and 50's in the Northern Rockies to the 60's and 70's along the Pacific coast and Great Basin. Highs from the upper 80's to 100 degrees are expected from the California valleys to the desert Southwest. The potential for fire activity continues in California as warm and dry conditions prevail.
