

INCIDENT MANAGEMENT SITUATION REPORT  
SATURDAY, SEPTEMBER 23, 1995 - 0900 MDT  
NATIONAL PREPAREDNESS LEVEL II

\*\*\* THE TEN STANDARD FIRE ORDERS ARE FIRM \*\*\*  
\*\*\* WE DON'T BREAK THEM; WE DON'T BEND THEM \*\*\*

Current Situation: No significant fire activity was reported nationally.

Hurricane Marilyn Support:

A Type I Incident Management Team (O'Bannon) is managing a receiving and distribution center on St. Thomas. To date, over 220,000 meals have been distributed. On 9/21, 92,000 gallons of water was distributed, as well as emergency shelter items.

A Type II Incident Management Team (Kearney) is managing a receiving and distribution center on St. Croix. Supplies are moving through this center very quickly, often leaving the warehouse empty.

A State Incident Management Team (Hendriks) is managing a receiving and distribution center at Roosevelt Roads Naval Air Station in Puerto Rico. Their mission is to support and reroute supplies to the receiving and distribution centers in the Virgin Islands. On 9/21, the team received and redistributed over 100 tons of relief supplies. The team is also coordinating the strategy and movement of relief personnel enroute to the Islands.

A NPS All Risk Management Team (Wissinger) spent 9/21 assessing the damage to St. Croix. Generators are now in place providing power to 10 NPS homes on St. John. A Type III helicopter leased by the NPS crashed in the ocean between the islands of Puerto Rico and Culbera. The reason for the crash is unknown at this time. The three passengers and pilot were rescued quickly, and suffered only minor injuries.

Southwest Area Large Fires:

INCIDENT	UNIT	ST	SIZE	%	EST	TOTAL	CRW	ENG	HELI	STRUC	EST	EST

OUTLOOK: \*\*\*\*\* A RED FLAG WARNING IS POSTED FOR GUSTY EAST WINDS AND LOW RELATIVE HUMIDITIES IN THE CASCADES OF NORTHERN OREGON AND WASHINGTON AND THE OLYMPIC MOUNTAINS OF WASHINGTON. \*\*\*\*\*

Another cool and dry Canadian air mass will move into Montana and Wyoming today. A broad area of low pressure will extend from the Pacific Northwest coast to the desert Southwest. Warm and dry weather with gusty east winds will continue over Oregon and Washington. Monsoon moisture will be confined to Arizona and New Mexico, where widely scattered thunderstorms are expected. High temperatures will only reach the 40's to the low 60's in the Rocky Mountains. The Great Basin will have temperatures in the 70's while the Pacific Northwest will be in the 70's and 80's. Hot weather will prevail from the northern California valleys to the desert Southwest, where temperatures

will range from the 90's to 109 degrees. The northeast states will have decreasing clouds, but will be cooler and windy. High temperatures will be in the 60's and 70's, with northwest winds at 10-20 MPH with higher gusts. Fire activity is expected to remain moderate in most areas, with the potential for increased activity in areas where Red Flag warnings are posted.
