MCR = McFaddin NWR.

Hurricane Marilyn Support:

A Type I Incident Management Team (O'Bannon) reports that receiving has slowed while distribution of water, tarps and other supplies has increased. The Team began transitioning with the Defense Logistics Agency today with turnover projected for Saturday.

A Type II Incident Management Team (Kearney) is managing a receiving and distribution center on St. Croix. The Team has been assisting FEMA with logistical and technical support. Some personnel have been demobilized as transition with the Defense Logistics Agency begins.

A North Carolina State Incident Management Team (Hendricks) is managing a receiving and distribution center at Roosevelt Roads Naval Air Station in Puerto Rico. To date the Team has coordinated the shipment of 2.5 million pounds of equipment and supplies, as well as providing a staging area for transportation for hundreds of relief personnel.

A NPS All Risk Management Team (Wissinger) continues to support the return of basic services to Park Service employees affected by the hurricane. A type II helicopter has arrived to assist with transportation of supplies to St. John.

Southcentral Alaska Flood Response:

A Type I Incident Management Team (Liebersbach) in Anchorage, a Type II Incident Management Team (Wilcock) in Soldotna and a Type II Incident Management Team (Stam) in Seward are assigned to the State of Alaska to assist in damage assessment and relief activities. Individual and Public damage assessment teams were deployed to the field again yesterday. Initial feedback has indicated that there was very little major damage to private structures. The major impact is on public facilities (roads, airports, etc.).

OUTLOOK: A cool and moist upper level low pressure system will cover much of the West from the Northern Rockies to the desert Southwest. Scattered showers and thundershowers are forecast for Idaho, Montana, Wyoming, Utah and Colorado. A few lingering showers are possible in eastern Washington, eastern Oregon and northeast Nevada. Widely scattered showers and thundershowers are also expected over northeast Arizona and much of New Mexico. High pressure building along the West coast will bring sunny skies and mild temperatures to
