

INCIDENT MANAGEMENT SITUATION REPORT
SUNDAY, AUGUST 18, 1996 - 0900 MDT
NATIONAL PREPAREDNESS LEVEL V

*** ALL FIREFIGHTERS HAVE THE RIGHT TO A SAFE ASSIGNMENT ***

CURRENT SITUATION: Fire activity continued in several Areas of the West, however, the number of new starts reported has significantly declined. Competition for national resources continues and initial attack resources continue to be stretched thin. A Type I Incident Management Team was committed in Southern California. Resource mobilization through NICC remained high.

Southern California Large Fires:

ROGGE, Stanislaus NF. A Type I Incident Management Team (Greenhoe) is assigned. The fire is burning in the Tuolumne River drainage near the community of Pine Mountain Lake. The biggest concern is in the Clavey River area. This area burned 9 years ago in the Stanislaus Complex which has had a substantial regrowth of brush that is 5 to 7 feet tall. Engines have been staged on the south side of the river for structure protection in the event the fire crosses the river.

HWY. FIFTY-EIGHT, San Luis Obispo Ranger Unit, California State. A State Type I Incident Management Team (Bates) is assigned. This fire is 5 miles east of Santa Margarita, CA along Highway 58. The fire is burning easterly, in heavy brush and is experiencing rapid rates of spread. The fire escaped the east flank yesterday afternoon, threatening over 100 structures along Navajo Road. Approximately 15 to 18 miles of open line exist. High voltage power lines, an FAA antenna and repeater sites on Black Mountain continue to be threatened. A wind shift to the south would push the fire into heavy brush located in the Machesna Mountain Wilderness.

ACKERSON COMPLEX, Yosemite NP. A Type II Incident Management Team (Byrd) is assigned. A Type I Incident Management Team (Dague) has been ordered. The complex consists of thirteen fires burning along the Yosemite NP and Stanislaus NF border. The fires in the complex continued to burn actively yesterday. Camp Mather, a heavily used recreation area, remains evacuated.

KAWEAH, Tulare Ranger Unit, California State and Sequoia Kings NP. A Type I Incident Management Team (Monahan) is assigned. Firing operations continue in an effort to reduce the threat to employee residences and the Park entrance at Ash Mountain in the Sequoia Kings National Park. The fire has burned from oak woodland into chamise. Control problems include high temperatures, strong winds and steep, rugged terrain.

PARK, Tulare Ranger Unit, California State. This fire is burning in brush and is not threatening any structures at this time. A substantial amount of line construction and firing out needs to be completed.

CABAZON, Riverside Ranger Unit, California State. The fire is burning near the town of Cabazon, CA. Favorable weather conditions have assisted with control efforts.

WOLFSKILL, Riverside Ranger Unit, California State. A State Type I Incident Management Team (Wright) is assigned. The fire is located near Banning, CA. The fire is nearly contained and demobilization is in progress.

Northwest Large Fires:

WILDCAT COMPLEX, Malheur NF. A Type I Incident Management Team (Dubois) is assigned. The fire is 10 miles southeast of John Day, OR. The fire is being suppressed under Unified Command with Oregon State. The Wildcat and Graham fires are included in this complex. Crews continue to make progress on line construction.

BULL COMPLEX, Umatilla NF. A Type II Incident Management Team (Kearney) is assigned. The Bull fire is 36 miles northeast of John Day, OR. Areas with heavy fuel concentrations have limited line construction. Desolation Butte lookout and repeater, a mine structure and wooden pipeline are threatened. Crews continue to work toward containment on the Summit fire, 25 miles west of Baker City, OR.

TOWER, Umatilla NF. A Type II Incident Management Team (Lukens) is assigned. The Tower fire is 17 miles south of Ukiah, OR. Gusty winds caused significant torching. Burnout operations were planned for last night.

SIMNASHO, Warm Springs Agency, BIA. A Type I Incident Management Team (Porter) is assigned. The fire is burning in grass, brush and timber 10 miles north of Warm Springs, OR. All control lines held through burnout operations. Moderate fire activity was observed yesterday.

SPRING, Umpqua NF. A Type II Incident Management Team (Murphy) is committed. The fire is burning in the Boulder Creek Wilderness, near Toketee Falls, OR. The blaze doubled in size yesterday. Steep terrain and heavy fuels are restricting control efforts. Powerlines and private property are threatened.

NORTH UMPQUA COMPLEX, Umpqua NF. Crews are making progress on containment objectives. Threatened resources include watershed and endangered trout habitat.

ALDER RIDGE, Fremont NF. A Type II Incident Management Team (Duke) is assigned. The fire is burning 15 miles south of Silver Lake, OR. Current threats include private land, recreational structures, a power relay station, wildlife habitat, and commercial forest.

SOUTH ZONE COMPLEX (formerly reported as RIGDON COMPLEX), Willamette NF. A Type II Incident Management Team (Gardner) is assigned. The 45 fires in this complex are burning 11 miles southeast of Oakridge, OR. Rocky terrain and dense fuels have hampered containment objectives. Private timber and endangered wildlife species are threatened. SALT COMPLEX, Wallowa-Whitman NF. A Type I Incident Management Team (Bailey) is assigned. The complex is comprised of the SALT CREEK, SHEEP CREEK, and HEAVEN'S GATE fires. The fires are burning on the Oregon/Idaho border of the Hells Canyon Recreation Area. The Sheep fire spread rapidly over steep terrain. Crews made good progress on the Salt fire. Smokey conditions and inaccessibility have affected containment efforts.

OCHOCO COMPLEX, Ochoco NF. A Type II Incident Management Team (Lohrey) is assigned. The COYLE, GREEN MTN, HAMILTON, CHAPMAN SPRINGS, CORNER CREEK, and LOOKOUT fires are included in this complex. Containment objectives were achieved on all fires except the Chapman Springs.

SLOAN'S RIDGE, Wallow-Whitman NF. A Type I Incident Management Team (Payne) is assigned. The fire is being suppressed under Unified Command with Oregon State. This fire is 11 miles northwest of Sumpter, OR. Blasters from the Oregon Department of Forestry are constructing portions of line with fireline explosives. Mop-up is in progress and some demobilization has begun.

INDIAN POINT, Wallow-Whitman NF. A Type II Incident Management Team (McDonald) is assigned. Favorable weather conditions have decreased fire activity. Crews made good progress on line construction.

BARTLETT MTN., Burns District, BLM. The fire is burning south of Drewesey, OR. Suppression forces continue to work toward containment objectives.

HOG VALLEY, Oregon State. The fire is near the community of Union, OR.

JONES FLAT, Burns District, BLM. High fire activity was observed on the north flank yesterday. This portion of the fire is inaccessible to engines.

DONNEYBROOK, Oregon State. This fire is burning around the community of Ashwood, OR., 20 miles northeast of Madras, OR. No new information received.

One fire is in a confinement suppression strategy totalling 740 acres.

Northern California Large Fires:

FORK, Mendocino NF. Two Type I Incident Management Teams (Kohut & Loving) are assigned. The fire is located north of the town of Upper Lake, CA. Strong winds pushed the blaze over control lines yesterday. The fire was very active through the night. Crews and dozers continue with line construction. A mandatory evacuation is still in effect for 40 homes near this fire.

BUTCHER, Shasta-Trinity NF. This fire was previously reported under the Mt. Shasta Complex. Intense fire behavior was observed on this fire near McCloud, CA. Spotting of up to 200 yards caused control problems. Current threats include powerlines and private land within a mile of the fire.

DIXIE, Lassen-Modoc Ranger Unit. The fire is about 36 miles northeast of Susanville, CA. It is burning on State, UFSF, BLM, and private land. Dozers have made good progress on line construction.

ROCK, Shasta-Trinity NF. A Type II Incident Management Team (Madden) is assigned. The fire is located 40 miles southwest of Redding, CA. Control efforts are hampered by excessive fuel loading and snags. Threatened resources include Northern Spotted Owl habitat, steelhead fisheries, and watershed.

CORRAL, Susanville District, BLM. A Type I Incident Management Team (Hutchinson) is assigned. The fire is southeast of Alturas, CA, 16 miles inside the Nevada border. High winds significantly increased fire activity.

EAST FORK, Shasta-Trinity NF. The fire is near Weed, CA. Increased fire activity was influenced by steep terrain and dense fuels.

MORRIS, Shasta-Trinity NF. Limited access has made suppression efforts difficult.

Northern Rockies Large Fires:

WILLOW CREEK COMPLEX, Bitterroot NF. A Type II Incident Management Team

(Spradlin) is assigned. Torching and spotting caused a slight increase in acreage on the east flank. Helicopter bucket drops aided firefighters with holding control lines. Mop-up continues on several divisions of the fire. Rehabilitation has begun on the Lower Willow fire.

COYOTE, Lewis and Clark NF. A Type I Incident Management Team (Frye) is assigned. This human-caused fire is burning 15 miles south of Monarch, MT. Crews continue to reinforce control lines and mop-up hot spots. Threats to private residences, powerlines, a ski area, watershed and wildlife habitat have significantly decreased.

SWET/WARRIOR, Nez Perce NF & Bitterroot NF. No new information received. DOVETAIL, Lewistown District, BLM. This human-caused fire is near Brusett, MT. Winds may delay control objectives.

SIX MILE, Custer County, Montana State. The fire is southwest of Miles City, MT. Containment was expected last night.

One fire is in confinement suppression strategy totalling 220 acres.

Western Great Basin Large Fires:

GOLD QUARRY COMPLEX, Elko District, BLM. A Type II Incident Management Team (Vorce) is assigned. The complex consists of the GOLD QUARRY, TUNNEL and SUSIE CREEK fires. The Gold Quarry fire has been contained. Good progress was made on the other two fires, despite a few flare-ups. Current threats are to private property, cattle, riparian pasture, and crucial deer and antelope winter range.

SHOEMAKE, Ely District, BLM. This fire is located 35 miles southeast of Caliente, Nevada. Precipitation received on the fire Friday night resulted in decreased activity yesterday.

Eastern Great Basin Large Fires:

ONE EYE, Utah State. The fire is located 39 miles northeast of Green River, UT. Steep terrain and rolling material are the major control problems. Control is expected on Monday.

HENS PEAK, Fishlake NF. The fire is located 11 miles northeast of Loa,

UT. The fire area received short periods of heavy rain, reducing fire behavior. The spruce plantations have been secured, but the fire is still a threat to a timber sales area. The outlook is good, with some demobilization planned.

PAIUTE, Cedar City District, BLM. The fire is burning in grass and pinyon-juniper in a remote area 14 miles northwest of St. George, Utah. Crews were able to hold the fire within existing lines. A communications site is threatened. Rugged terrain and high temperatures are causing control problems.

Three fires are in a confinement suppression strategy totalling 6,104 acres.

Rocky Mountain Large Fires:

SINK CREEK, Grand Junction District, BLM. A Type II Incident Management Team (Summerfelt) is assigned. The fire is located about 15 miles east of Grand Junction, CO. It is burning in a critical watershed of Palisade and Grand Junction. Fuels are extremely explosive and the terrain is steep and inaccessible.

North CREEK, Grand Mesa-Uncompahgre-Gunnison NF. This fire is located nine miles east of Norwood, CO. There is a small threat to powerlines and a private ranch.

ARBOLES, Southern Ute Agency, BIA. This fire is located 15 miles southeast of Ignacio, CO. Present threats include commercial timber and spotted owl habitat. Inaccessible terrain is a serious problem.

Alaska Large Fires: Seventeen fires are in a non-suppression status totalling 419,659 acres.

OUTLOOK:

A cold front pushing across Montana, western Wyoming, northern Utah and northern Nevada will bring breezy and cooler weather to the Pacific Northwest, Northern Rockies, and northern Great Basin. Montana will have a few showers and thunderstorms. California will be dry, a little cooler and locally breezy. Eastern Wyoming and Colorado will have scattered thunderstorms. Arizona and New Mexico will have monsoon thunderstorms. High temperatures will range from the 60's and 70's in the Northern Rockies to around 114 in the hottest deserts of the Southwest.
