

INCIDENT MANAGEMENT SITUATION REPORT  
 WEDNESDAY, JUNE 5, 1996 - 0530 MDT  
 NATIONAL PREPAREDNESS LEVEL II

\*\*\* ALL FIREFIGHTERS HAVE THE RIGHT TO A SAFE ASSIGNMENT \*\*\*

CURRENT SITUATION: Large fire activity continued in Alaska. Increased initial attack and large fire activity occurred in southern California and the Southwest. Indices in Colorado have increased with 10 units now reporting very high and extreme indices. Most units in the Southwest Area continue to report very high to extreme fire indices. Resource mobilization through NICC to Alaska included crews, miscellaneous overhead, supplies and radios.

Alaska Area Large Fires:

MILLERS REACH #2, Alaska State. A Type I Incident Management Team (Lieberbsbach) is assigned. This fire is burning near the community of Big Lake. Extreme fire behavior yesterday resulted in major evacuations. Efforts are currently concentrated on evacuating residents and structure protection. Initial estimates are that 50 to 100 structures have been destroyed, with multiple structures threatened. Due to considerable smoke in the area, the fire size is estimated at 11,000 acres.

GRAVEYARD CREEK, Alaska State. A Type II Incident Management Team (Dube) is assigned. Suppression efforts were focused on preventing the fire from moving into the community of Central and surrounding subdivisions. Low humidities, moderate winds and temperatures in the 60's are expected to continue through Thursday.

INCIDENT NAME	UNIT AKS	ST AK	SIZE 11,000	% 0	EST NONE	TOTAL 275	CRW 14	ENG 15	HELI 5	STRC 50+	EST NR	\$\$\$ NR	C-T-D
GRAVEYARD CREEK	AKS	AK	5,000	0	NONE	105	5	6	3	0	NR	NR	

Southern California Area Large Fires:

CANYON, Sequoia NF. High temperatures and low relative humidities along with steep and rocky terrain are hampering control efforts.

NR = Not Reported													

Southwest Area Large Fires

ROSE WELL, Arizona State. The fire is burning in grass and brush. Inaccessability to the east flank has impeded containment objectives.

OUTLOOK: Southern California and the Southwest Area will be mostly sunny and hot in the deserts and warm in the mountains. New Mexico will have widely scattered thunderstorms in which some will be dry. Northern Arizona and New Mexico will be breezy this afternoon. High temperatures will be in the 70's and 80's in the mountains and from the 90's to 117 in the hottest deserts. Alaska will be sunny and cool with highs ranging from the 50's to 70's. Winds will be out of the north at 5-15 MPH. Initial attack and large fire activity is expected to continue in Alaska and the southwestern United States.
