

INCIDENT MANAGEMENT SITUATION REPORT
FRIDAY, JUNE 21, 1996 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL III

*** SAFETY COMES FIRST ON EVERY FIRE, EVERY TIME ***

CURRENT SITUATION: Increased fire activity was reported in the Southern, Northwest, Southwest and Great Basin Areas, with moderate activity reported in most other Areas. Mobilization of National Resources increased through NICC with 2 caterers, 1 radio system and 2 Type I crews mobilized to the Southwest, 1 Type I crew to the Western Great Basin and an airtanker to the Eastern Area. Very high and extreme fire indices continue to be reported on numerous units throughout the southwestern United States. High fire activity persists in the Canadian Provinces of Ontario and Quebec. Ontario continues to assess each fire and deploy resources as they become available. Quebec reported intense fires in the Chibougamau Region which required firefighters to retreat from the lines.

Southwest Area Large Fires:

LL COMPLEX, Gila NF. A Type I Incident Management Team (Lente) is assigned. The complex is burning in the Gila Wilderness approximately 40 miles northwest of Silver City, NM. The complex is comprised of the Langstroth (5,790 acres) and Lookout (9,560 acres) fires. The Lookout fire continued to spread yesterday, but not as extreme as the day before. Airtankers dropped retardant on the Mogollon Baldy Lookout and cabin. The historical "Apache Cabin" four miles northwest of the lookout is now threatened. Crews have done fuel reduction around the cabin. Successful confinement of the Langstroth fire continues with some spread to the south into the old Sprite fire.

The Gila NF has 1 fire under confinement strategy for 650 acres.

Eastern Area Large Fires:

SOUTH TEMPERANCE, Superior NF. A Type II Incident Management Team (Bonde) is assigned. This fire is burning in the Boundary Waters Canoe Area Wilderness 25 miles north of the town of Tofte, MN. Aggressive action was taken on 2 spot fires on the south end of the fire. Burnout operations encompassed approximately 560 acres of unburned pocket fuels within the perimeter of the confinement line. An airtanker has been ordered through NICC due to increased activity last evening.
