

INCIDENT MANAGEMENT SITUATION REPORT  
FRIDAY, MARCH 8, 1996 - 0530 MST  
NATIONAL PREPAREDNESS LEVEL I

CURRENT SITUATION: Cold temperatures and higher humidities kept fire activity low in Oklahoma. Texas reported increased fire activity. Resource mobilization remained minimal through NICC; demobilization is increasing.

Southern Area Fire Information:

ADA COMPLEX, Muskogee Area Office, Ada Agency, BIA. A Type II Incident Management Team (Storey) transitioned with the Type I Team yesterday. Incident objectives have changed from initial attack responsibility to supporting local fire departments.

NORTHEAST OKLAHOMA COMPLEX. A Type II Incident Management Team (Kearney) is assigned. Arson fires continued around the community of Shamrock and Drumwright. Temperatures dipping into the teens reduced fire activity within the protection area. All fires within the complex are currently contained.

CARD SOUND COMMAND, Florida State. A State Type II Incident Management Team (Duty) is assigned. Hot spots continued to pose control problems.

OUTLOOK: \*\*\* A RED FLAG WARNING IS POSTED FOR NORTHERN FLORIDA FOR LOW HUMIDITY AND BREEZY WINDS. A FIRE WEATHER WATCH IS POSTED FOR CENTRAL FLORIDA FOR LOW HUMIDITY AND BREEZY WINDS \*\*\*

Florida will have a cold front push across the southern part of the state this morning, bringing a chance of showers and thunderstorms. A cold and dry northwest flow behind the cold front will cause winds to shift from the south in the morning to the northwest at 15 to 20 MPH in the afternoon. High temperatures will be in the mid 40's in the north to the 70's in the south. Texas and Oklahoma will have strong high pressure settle in across the Plains States bringing very dry and cold weather with north winds at 10-20 MPH. High temperatures will be in the mid 30's in the north to 40's in the south. Demobilization is anticipated to continue over the next few days from the Southern Area.

\*\*\*\*\*  
This will be the last daily Incident Management Situation Report produced unless significant fire activity occurs. Weekly Incident Management Situation Reports will continue on Fridays at 10:00 MST.
