

INCIDENT MANAGEMENT SITUATION REPORT  
 MONDAY, MAY 27, 1996 - 0900 MDT  
 NATIONAL PREPAREDNESS LEVEL II

\*\*\* ALL FIREFIGHTERS HAVE THE RIGHT TO A SAFE ASSIGNMENT \*\*\*

CURRENT SITUATION: Cooler temperatures, higher humidities and precipitation have kept fire activity low throughout the southwestern U.S.

OUTLOOK: Southern California will be partly cloudy and cooler as a new system moves onto the coast. Southern California and the northern Arizona mountains will have a few showers and thunderstorms today. Arizona and New Mexico will have warmer temperatures and lower relative humidities. All areas will have high temperatures ranging from the 50's to 60's in the higher elevations and the 70's and 80's in the lower elevations. Winds will be 15-25 MPH. The potential for increased human caused fires continues due to the holiday weekend.

FIRE: Yesterday
