

INCIDENT MANAGEMENT SITUATION REPORT  
 MONDAY, MAY 19, 1997 - 0530 MDT  
 NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION: California reported increased initial attack and large fire activity. Minimal resource mobilization occurred through NICC.

EASTERN GREAT BASIN AREA LARGE FIRES:

COGSWELL POINT, Southwest Utah State. A Type II Incident Management Team (Hefner) is assigned. The fire is located 25 miles south-southeast of Cedar City, UT. Smoke is affecting Zion National Park. Cooler temperatures and higher humidity allowed firefighters to make good progress toward containment yesterday. The northern end of the fire is the area of concern.

OUTLOOK: Utah will be mostly sunny in the north and partly cloudy with scattered afternoon showers and thunderstorms in the south. High temperatures will range from the mid 70's to mid 80's north to near 95 in the south. Nevada will have a slight chance of afternoon and evening thunderstorms, mainly in the east and south. High temperatures will range from the mid 70's to mid 80's in the north and from the 90's to 105 in the far south. California will have a chance of afternoon and evening rain showers and thunderstorms. High temperatures will be in the mid 70's in the mountains to 100 in the southern deserts. Arizona and New Mexico will have scattered afternoon showers and thunderstorms. These will be concentrated mainly over the north and east portions of Arizona and the central mountains eastward in New Mexico. High temperatures will range from the upper 50's in the mountains to near 105 in the Arizona deserts.
