

## INCIDENT MANAGEMENT SITUATION REPORT

THURSDAY, JULY 2, 1998 - 0530 MDT

NATIONAL PREPAREDNESS LEVEL III

### CURRENT SITUATION:

The fire situation in northern and central Florida escalated yesterday. High winds resulted in extreme fire behavior on most incidents. Firefighters made excellent progress on the fires in the Rocky Mountain and Southwest Areas. Large fire activity increased in the Northwest Area. The National Interagency Coordination Center processed orders for a Type I Incident Management Team, engines, dozers, tractor-plows, aircraft, crews and miscellaneous overhead for the Southern Area. Increased initial attack activity in Alaska necessitated the mobilization of 20 smokejumpers from the lower 48 states. Minor initial attack activity was reported in most other Areas. Very high and extreme fire indices were reported in Florida, Georgia, Mississippi, Texas, New Mexico, Arizona, Colorado, Kansas, Utah, California and Nevada.

### SOUTHERN AREA LARGE FIRES:

ORLANDO COMPLEX, Florida State, Brevard, Orange, Osceola and Seminole Counties. A Type I Incident Management Team (Birch) is assigned. The Farmington fire made significant runs to the east, jumped Highway 95, and moved toward the town of Scottsmor. All residents from Highway 95 to the Brevard County line were evacuated. A mandatory evacuation was issued for Ormand Beach. Between 20,000 and 30,000 people were affected by this evacuation. Several roads in the area have been closed. Extreme fire behavior was observed, with large acreage increases occurring at night. Multiple heads are making anchor points difficult to establish. The acreage involved in this complex is undetermined.

BUNNELL COMPLEX, Florida State, Flagler and St. Johns Counties. This complex is under Unified command with a Type I Incident Management Team (Hutchinson) and a Type II Incident Management Team (Hendricks) assigned. Extreme fire activity was observed on several fires in this complex. No further information was available.

BUNNELL-VOLUSIA COMPLEX, Florida State, Volusia County. A Type II Incident Management Team (Kearney) is assigned. Fire activity increased throughout Volusia County. No further information was available.

JACKSONVILLE COMPLEX 2, Florida State. A Type I Incident Management Team (Monahan) is assigned. Increased fire activity outside Jacksonville created a new complex of fires. No further information was available.

WACCASASSA COMPLEX, Florida State, Alachua, Putnam and Marion Counties. A Type II Incident Management Team (Hebb) is assigned. Firefighters have made good progress toward containment objectives. Increased fire activity was observed yesterday. Air support was utilized on several fires in the complex.

SUWANNEE COMPLEX, Florida State, Columbia, Union, Bradford and Baker Counties. A Type I Incident Management Team (Wands) is assigned. Unified Command is in effect with Florida State. Ten of the 33 fires in this complex are not contained. Unfavorable weather conditions are creating control problems. Initial attack on new fires in the complex has been successful.

OAK HEAD COMPLEX, Osceola National Forest. A Type I Incident Management Team (Greenhoe) is assigned. These fires are 20 miles north of Lake City. Firefighters continue mop-up operations. Resource demobilization has begun.

MERRITT ISLAND COMPLEX, Merritt Island NWR. This fire is in Brevard County. Mop-up operations are going well. Firefighters have been able to hold all containment lines.

DON RANSON RANCH, Texas State, Armstrong County. This fire is burning in Palo Duro Canyon. Aerial support assisted firefighters with line construction.

DOC S CAMPFIRE, Ouachita NF. This lightning fire received light precipitation yesterday. Firefighters have made good progress toward containment goals.

WITHLACOOCHEE, Florida State, Hernando, Pasco, Lake Sumter and Citrus Counties. A Type II Incident Management Team (Voltolina) is assigned. No new information was available.

JACKSONVILLE COMPLEX, Florida State. This complex is southwest of Jacksonville. No new information was available.

#### SOUTHWEST AREA LARGE FIRES:

OSO, Santa Fe NF. A Type I Incident Management Team (Bateman) is assigned. This fire is ten miles north of Los Alamos. The fire received some precipitation from thunderstorm activity yesterday. The fire has burned up to private land, but no structures have been lost.

JUNCTION, New Mexico State - Socorro District. This fire is burning in the Los Pinos mountains 25 miles north of Socorro. Wolf pens for an endangered species program are threatened.

#### ROCKY MOUNTAIN LARGE FIRES:

WHITE, Pike-San Isabel NF. A Type II Incident Management Team (Hessler) is assigned. This fire is three miles northwest of Grants. Suppression efforts have focused on keeping the fire out of the Mt. Evans Wilderness. The Thumbling Creek Ranch/Resort is threatened, but crews have successfully held the fire a half mile from the facility. Steep and rocky terrain, erratic winds and patchy fuels have hampered suppression efforts.

BEAR TRACKS, Arapaho-Roosevelt NF. A Type II Incident Management Team (Sexton) is assigned. This fire is ten miles west of Evergreen. Firefighter safety is a concern due to steep, rocky terrain and numerous snags in the area. Firefighters are slowly working toward containment goals.

# ALASKA LARGE FIRES:

CARLA LAKE, Fort Greely Army Base. This fire is 15 miles southwest of Delta Junction. Crews continue to secure line and are making progress on rehabilitation. Active burning of interior pockets occurred yesterday. A thunderstorm did pass through the area, but the fire did not receive any precipitation.

#### OUTLOOK:

A FIRE WEATHER WATCH HAS BEEN POSTED FOR LOW RELATIVE HUMIDITY IN NORTHERN FLORIDA. The rest of the state will be partly cloudy and hot, with scattered afternoon thunderstorms. High temperatures will range from 90 to 100.

Georgia will be partly cloudy with scattered showers and thunderstorms. Temperatures will be in the 80's in the mountains and the 90's elsewhere.

New Mexico will be partly cloudy with scattered afternoon thunderstorms in the central mountains and eastward. Temperatures will be in the 80's and 90's in the mountains and the northern portion of the state. Southern temperatures will be in the 80's to 100.

Arizona will continue to be sunny and hot. Minimum relative humidity will range from 5-15%. High temperatures will be in the 80's and 90's in the mountains and the mid 90's to 115 in the deserts.

West Texas will be partly cloudy with isolated thunderstorms. Temperatures will range from 90 to 100.

Colorado will be mostly sunny. Isolated thunderstorms are possible in the extreme east and in the mountains. Temperatures will range from the 70's in the mountains to 105 in southwestern Colorado.

Southern Nevada and southern Utah will be sunny, breezy, and hot. Winds will be out of the southwest at 15-25 MPH, with gusts of up to 30 MPH. Minimum relative humidity will range from 2-15%. Temperatures will be in the low 90's to 112 in the deserts.
