

INCIDENT MANAGEMENT SITUATION REPORT

SATURDAY, JULY 11, 1998 - 0900 MDT

NATIONAL PREPAREDNESS LEVEL III

CURRENT SITUATION:

Large fire activity continued in the Southern area. The National Interagency Coordination Center continued to process orders for equipment, aircraft and miscellaneous overhead. Very high and extreme fire indices were reported in Florida, Georgia, Texas, New Mexico, Arizona, Colorado, Kansas, Utah, California, Nevada and Washington.

SOUTHERN AREA LARGE FIRES:

FLAGLER/ST. JOHNS COMPLEX, Florida State, Flagler and St. Johns Counties. This complex is under Unified Command with a Type I Incident Management Team (Hutchinson). Winds and low relative humidity tested control lines, yet there were no escapes. Mop up and patrol in the wildland-urban interface continues.

VOLUSIA COMPLEX, Florida State, Volusia County. A Type II Incident Management Team (Kearney) is assigned. Unified Command is in effect with Florida State (Maynard and Mauney). Scattered rain assisted mop up efforts. Priorities are strengthening control lines and mop-up.

PERRY COMPLEX, Florida State, Taylor County. A Type II Incident Management Team (Gauger) is assigned. Unified Command is in effect with Florida State. Infrared scans are turning up numerous hot spots within 200 feet of control line.

JACKSONVILLE II COMPLEX, Florida State, Nassau, Duval and Clay Counties. A Type I Incident Management Team (Monahan) is assigned. This fire is being managed under Unified Command with Florida State (Caullette). A fourth staging area was established for initial attack.

SUWANNEE OAK COMPLEX, Florida State, Columbia, Union, Bradford and Baker Counties. A Type I Incident Management Team (Dague) is assigned. Unified command is in effect with Florida State (Crow). Crews and tractor plows are working to maintain lines and mop up. Acreage reflects combined totals. Cost to date is for the new complex.

WITHLACOOCHEE, Florida State, Hernando, Pasco, Lake Sumter and Citrus Counties. A Type II Incident Management Team (Kennedy) is assigned. Mop up and patrol continues on fires within complex. The incident will be turned over to the district today.

HONEY PRAIRIE, Okefeenokee NWR. Helicopters performed bucket operations; the fire is inaccessible by ground.

HARRELL RANCH, Texas State, Armstrong County. The fire is burning in Palo Canyon. Unburned islands within the planned control lines were burned out last night. The change in acreage was due to more accurate mapping.

FT. DAVIS COMPLEX, Texas State, Jeff Davis County. This complex consists of the Arabella and Black Mountain fires. The Arabella fire had a flare up on the northern flank. Unburned islands within the perimeter were burned out last night. Twelve houses on the east side of the fire were threatened at one time but are no longer a concern. Helicopters performed bucket drops to limit fire spread on an inaccessible portion of the Black Mountain fire. Ground forces will begin active suppression efforts in the steep difficult terrain.

STERLING, Texas State, Robertson County. The fire is burning rapidly through light flashy fuels. Crews burned out from a dozer line yesterday evening. Low relative humidity and strong winds are hampering control efforts. A subdivision is currently threatened.

WESTERN BASIN LARGE FIRE:

BUTTON POINT, Winnemucca District, BLM. This fire is 10 miles east of Winnemucca burning in light flashy fuels in a "Y" between two railroad tracks. Control efforts are being hampered by strong, erratic winds.

ALASKA LARGE FIRES:

CARLA LAKE, Fort Greely Army Base. This fire is 15 miles southwest of Delta Junction. Fire activity was subdued, although some torching occurred well inside the perimeter. Hazard reduction and rehabilitation efforts are continuing. A reconnaissance of the south end of the fire revealed smoldering activity with negligible edge movement.

OUTLOOK:

A FIRE WEATHER WATCH IS POSTED IN UTAH FOR GUSTY SOUTHWEST WINDS AHEAD OF AN APPROACHING COLD FRONT.

Florida and southern Georgia will be partly cloudy with scattered thunderstorms likely in central and south Florida. High temperatures will be in the low to mid 90's.

Southern Nevada, Utah, Arizona, New Mexico and western Texas will be mostly sunny with isolated thunderstorms. Northeast New Mexico will be mostly sunny with scattered thunderstorms. Winds will be southwest at 15 to 30 MPH across Nevada and Utah. High temperatures will range from the mid 70's in the mountains to 115 in the valleys and deserts.

Southern Oregon will be partly cloudy and cooler with a few thunderstorms over the southeast corner of the state. Temperatures will range from 75 to 85.
